Why not let the women themselves settle the suffrage question? They have strong advocates for either side of the question, and it no doubt would be an interesting campaign.

Col. E. Hofer of the Salem Capital Journal, and Walter Toose, candidate for Congress, were Coos Bay visitors this week. They failed to reach Bandon, consequently missed the best part of Coos County.

For the 10 months of the year ending with October, more wheat was exported from Portland than from any other port in the United States. The figures for the first time were taken from Galveston and some of the other big eastern cities which heretofore had stood at the head of the column.

That Portland excursion of business men which visited the towns along the Southern Pacific last week, missed one great opportunity. They should have made the trip to Coos County via stage and cast their eyes on the greatest country in the United States without a railroad. It might open their eyes, also, to see the fleet of steamers and schooners from San Francisco that do business in this section.

Immediately upon their arrival the son started out to take in the town and neglected to inform his parents where he could be found when wanted, and the result was that a searching party was necessary to locate his whereabouts. He was found in company with another youngster down on the beach viewing the magnificent scenery. He thinks the Bandon beach and the engines and cars at the government works are about the finest sights young America could wish for.

Folly to Be Wise.

I. There is water in the milk. There is cotton in the silk. There is coal tar in the pickles that you buy.

Even jelly you think fine carries loads of analine. Next, adulterants will find their way in pie.

II. Do you know the chance you take when you manufacture a cake?

It contains a bunch of dogs to curl your hair. And the whiskey, so dear, 'd, hasn't been well rectified.

While in catnap there are no tomatoes there.

III. Even though you spend a wad when you manufacture a cake?

Just as if you bought the cheapest and were poor.

So the only thing, you see, is to study chemistries. Then you'll know what things are also. Truly yours

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by C. Y. Fetter, Bandon.
