ARRIVED.
Feb. 25.—Power scho Sotoyame from S. F. loading at Aberdeen Mill.

Feb. 25.—Gas. sch. Oakland, for S. F. with 150 M ft lumber, 40 M shingles.
The little steamer Toledo is to be placed in service in Alaskan waters. Capt. Shaw of S. F. will command.

Talk about a 40 foot channel! We have had that much water in the Coquille river at the county seat, 25 miles from the ocean, the past week.

State Treasurer Moore says, that as far as he knows, Oregon is the only state in the Union today which practically does not owe a dollar, and never had a dollar of bonded indebtedness.

The genuine Oregon warm rain has been with us lately, and proved very acceptable to old residents of the Webfoot state.—Bog pardon; we meant "Beaver" state. We suppose the next in line will be a change in pronouncing of names of our bays, rivers, etc., and we will hear our good old Missouri Coquille, By Gosh, pronounced Cokel, with an accent that would do credit to a frog eater.—Coos Bay News.

Thos. Backman, in a letter to the Coast Mail, expresses a belief that the railroad from Drain will never reach Coos Bay, but will stop at the coal mines near Elkton. Speaking of the coast railroad projects he fails to see where any great commercial advantage can be derived from it for the Bay; says there is no great amount of territory or natural resources to draw from. Wonder if Mr. Backman believes that hanging a dead black snake on a rail fence will produce rain?

B. Valino of Marshfield was up before Recorder Upton last week for selling liquor to minors. He was assessed \$50. In imposing the fine the Court said: "Anyone who needs money had enough to sell liquor to children, the law requires that he pay a severe penalty. He may sell to a drunken man, or he may maintain a disorderly house for men of mature years and the penalty is not large; but when any dealer attempts to feed children with liquor, he is violating the statutes of the State, and every moral law made by man. I always had it in mind, when any dealer was brought before me for selling liquor to minors, that I should give him a severe penalty."
This is good so far as it goes, but it would be better if such fines could be \$500.

Mr. Starberg, of San Francisco, has been looking over the timber of this county for some time. He has seen much that he likes, but most of it is tied up by bonds, which, however, will expire shortly. Mr. S. is now looking at some proposition in the northern portion of the county, and if he finds anything to suit him, will engage in lumbering on an extensive scale.

A gentleman from S. F. was in this vicinity last week, who has taken a contract from the Government to build a wireless telegraph station at Cape Blanco. We understand he contracted with Mr. Adolphsen, for sixty thousand feet of lumber to be used in constructing the building. Stations will be erected at other points along the coast, so as to make a continuous line of communication.

Grandma Guerin was a sister of Capt. Wm. Tichenor, the founder of Port Orford, and was well known by the older settlers of Curry county. Mrs. Guerin was a woman of fine intellect and sterling character, and was honored and beloved by all who knew her. It would have been a fitting close to her eventful life if she could have been buried by the side of her distinguished brother at the "Tichenor cemetery" on Port Orford Heads.—Tribune.
