THURSDAY, MARCH 8, 1906.

ANNOUNCEMENTS.

FOR SHERIFF.

I hereby announce myself as a candidate for the Republican nomination for the office of Sheriff of Coos county, subject to the decision of the Republican voters at the primary election, April 20, 1906.

L. W. TRAVEL.

FOR CONGRESS.

We are authorized to announce S. B. HUSTON, of Hillsboro, Washington County, as a candidate for the nomination of Congressman for the First District, subject to the action of the Republican party.

FOR GOVERNOR.

James Withycombe, of Corvallis, candidate for the nomination of governor on the republican ticket.

Coquille.

Lights out has been the password with the quarter ending March 1st and will be for a week or two, and now the pedestrian can be seen groping his way in the darkness, and the words of King Solomon—let there be more light and there was more light—available; but my best girl Lulu says not to complain, everything is for the best. Now when we are perambulating around these beautiful spring evenings, the sleazebags of the detective and police force cannot shadow our movements and report to headquarters whether we was on the broad road or known to a Coquille.

My predictions last week relative to seedling belts, despite Lulu's protest, have terminated as predicted. The contracting parties are Ralph Noster and Rilla Dunham. No cards, no tanks, no elegant and elaborate trossau, no large retinue of bridesmaids and groomsmen. Suffice to say they are comfortably domiciled in their own home and apartments as comfortable as two church mice after a love feast. May their journey over life's troubled sea be pleasant and happy; may no tempestuous storm occur to mar their happiness, except with an occasional squall to remind them of the trials and tribulations of this world; may success attend their future, and peace, joy and happiness reign supreme hereafter and evermore.

Last Tuesday, when the placid waters of the Coquille were transformed into a seething torrent and entangled, the steamer Antelope, with Capt. McManis in command, Capt. John Myers pilot and on the bridge, Roy Fox chief of the engineering department, started out on an exploring expedition headed towards Reseburg. Everything passed smoothly to Myrtle Point, from which place they took their clearance papers; but their charts were some Noah had to navigate the ark with, and were obsolete and incorrect, not up to recent times, and after penetrating into the wilderness the sea became obscure and their sextant would not give them correct latitude, hence they had to depend on dead reckoning which terminated with fatal results. The lookout reported land ahead, and the next report heard around with a fast falling river. Imagine

The merchants are receiving a good trade and the smile of contentment is noticeable on their countenance.

The Ason Bros., notwithstanding the inclemency of the weather, have been rolling logs in the water all month. This is something out of the usual tenure of logging. The climate is moderating, else the loggers are devising a new process whereby they can pursue their avocation the year around.

LEADER.

To Whom It May Concern.

This is to notify all persons not to negotiate a certain note made by A. E. Shinn and payable to Geo. H. Bethel for the sum of Fifty Dollars, which has been lost and payment on same has been stopped.

Feb. 24, 1906. GEORGE H. BETHEL.

Port Orford.

Doctor Green left for Dairyville yesterday afternoon in response to a call by telephone, to see Mrs. Crowley.

Thos Hughes has closed out his mercantile business at Port Orford to Mr. Nielsen, and will probably reside at his old home for awhile.

There isn't much difference between 40 feet and 30 feet and 11 inches, but there is a whole lot of difference in the quality of their suggestion.

A letter from Mrs. Marion Seavey of Grants Pass states that she believes the body found in Hogue river near Marlin is that of her brother who was drowned the 15th of last March.

Parties from the vicinity of Salmon Mountain deny that the Mother lode has been struck. It is no doubt a fake report started by interested parties.

Some pieces of wreckage have been coming ashore near Port Orford, late, but we believe that it is from the St. Paul, as a life preserver with her name on it is among the few articles found. The St. Paul was wrecked below Cape Mendocino last fall, and the heavy storms of late are no doubt breaking her up.

W. O. Corbin, Supt. of the Madden mine, was in town yesterday after supplies. He is slinging a cut back into the foothills, hoping to find a new blackand deposit, as they believe the blackand they last worked slid down from the hill. They are now back several hundred feet, and with their abundant water and pressure, they will test the problem before long.

Mr. Bennett, Supt. of a Seattle company that is operating a placer mine on Elk river below Jax. It's, was in town Thursday for supplies, etc. He says he will soon have a plant running, and will install one or two more when the mine is fully developed. He has, no doubt, a valuable mine. In a two-foot streak of gravel which runs through his bar, he has taken out over four dollars a pan.—Tribune.

What Western Newspapers Say.

What Western Oregon newspapers are saying regarding Dr. James Withycombe, director of the Oregon Experiment Station, who has recently filed his declaration as a Republican candidate for Governor:

His friends believe there is no man in the Republican party more representative, having greater possibilities of usefulness, more deserving of honor or than Dr. Withycombe. His high qualities of mind and character have made for him many friends through out the entire state.

They regard his platform as truly characteristic of the man, ever eager to recognize and aid the welfare and rights of all—an honest and fearless performance of duty.

They do not consider him a party politician, but regard him a conscientious, progressive, and most honorable man, who seeks the office of Governor, not as one dependent upon a political position for a livelihood, nor for any selfish personal benefit, but as a man appreciative of honor, and a champion for a greater and united Oregon—Union Republican.

Died.

ALUMBAUGH—At her home in Bandon, March 2, 1906, Mrs. Mary E. Alumbaugh, aged 62 years, 3 months and 7 days.

The circumstances connected with Mrs. Alumbaugh's death makes the case a sad one. Her husband is subject to apoplexy and while ministering to his needs during an attack last week, she sustained a rupture while lifting him onto his bed. She lay helpless for several hours before any one knew of her condition. An operation was performed on Wednesday and she appeared to be getting along nicely the next day but a change for the worse occurred Friday and she suffered intensely for several hours before death finally came to her relief.

Mary E. Murgert was born in Calaway county, Missouri, Nov. 25, 1843 and was married to Stephen Alumbaugh Nov. 1, 1863. Her husband, one son, Jas. F. Alumbaugh, and one daughter, Mrs. Rosa Bingaman, survive her. The funeral services were conducted by Rev. J. S. Tilton at the M. E. church at 11 o'clock Sunday and was largely attended. Interment at Bandon cemetery.

Democratic Mass Meeting.

A mass meeting of the Democrats of Coos county has been called to meet at the court house in Coquille City at ten o'clock in the forenoon on Thursday, March 15, 1906. It is desired that at least one from each precinct should be present.

Parkersburg.

Carl Carlson worthy chief of the Wapoose has been under the weather. Contracted cold during its unsettled state.

Mr. Clayburn of Coquille City is to abide with us a sec. The personality of some is a suggestion and his is certainly a positive one. Nor do I say so with intent to flatter, but as I find the truth to be.

Mr. Kronenberg returned home after an extended trip to San Francisco.

Mr. Chris Jorgensen met with a painful accident one day last week. It appears while at his work a piece of lumber rebounded, striking his hand with sufficient force to crack one of the finger bones. The harm done was not of sufficient nature, though very painful, to require a doctor's care and we trust that nature will quickly heal the finger.

Adam Puschbacher has gone to buy the machinery for his mill and by early summer will have it buzzing.

Politics.—Among our republican friends, Harlocker is mentioned quite frequently for county clerk; but we also hear the name of Alex. Stauff mentioned as a possible or probable nominee for that office. John H. Roberts and Walter Sinclair would like to go to the State Senate, so we hear. James Hill, of Marshfield, appears to be the general favorite among the democrats for sheriff. We have heard the name of Camp mentioned in connection with the legislature. Dr. Catecaut would consider the nomination for sheriff a compliment. On the democratic side the nomination of Lamb appears to be conceded. Supt. of Schools seems to be conceded to A. J. Sherrwood. On the democratic side the legislative ticket is hardly mentioned; of course Gus Shalin is spoken of for the senate, and so far as we have heard, is the only one.

A social dance was given Tuesday evening at Bowman's hall. A good attendance is reported and an enjoyable time.

Fine weather is here again and early gardeners are looking their best.
