## ANNOUNCEMENTS. FOR SHERIFF.

Thereby announce myself as a candidate for the Republican nomination for the office of Sheriff of Coos county, subject to the decision of the Republican voters at the primary election, April 20, 1906.

L. W. TRAVER.

## FOR CONGRESS.

We are authorized to announce S. B. HUSTON of Hillsboro, Washington County, as a candidate for the nomination of Congressman for the First District, subject to the action of the Republican party.

## FOR GOVERNOR.

James Withycombe, of Corvallis, candidate for the nomination of governor on the Republican ticket.

The Coquille river lumber industry is going ahead by leaps and bounds and the outside world is just commencing to realize that this is the busy section of Southwest Oregon. The Coquille valley is destined to be the richest section on the coast country because we have everything needed to make it such. The principal timber resources of Coos county is found in the Coquille country. We have immense coal deposits, the development of which is in its infancy. There is strong indications of oil in several places. We have the chief dairying industry and just south of Bandon, at Dairyville, is one of the finest dairying sections to be found in Oregon. Along the Coquille is found 100 acres and acres of the finest wood for pulp and an eastern capitalist is expected here soon to look over the situation with the intention of building a large paper and pulp mill at Bandon at cost of nearly \$3,000,000. Last month there was shipped over the Coquille river bar at Bandon 4,165,000 feet of lumber, and 2,400,000 shingles, not to mention immense quantities of a hardwood and broom-handles. No other port in Oregon, with the possible exception of the Columbia river, can make such a showing in the lumber industry. The Coquille needs another small appropriation from congress to finish the projected jetty improvements and needs a dredger to eliminate a few shoals and the river will be navigable for ocean going vessels to Coquille City, 28 miles from the mouth. It is a small item compared with the possibilities for development in this valley and every resident of the valley should do all in his power to see that the river gets what it is justly entitled to. Coos county is so situated that it is destined to become a great shipping point and be the outlet for the products of a great territory. No other county in the United States can furnish two such harbors as Coquille and Coos Bay and capable of such possibilities with the amount of money required for their improvement. United effort is needed to accomplish the desired result.

We give announcement of W. F. Disher as an aspirant to the candidacy for representative on the Republican ticket. Mr. Disher is well known throughout the county and it will please many of his old friends to be able to support him.—Coquille Herald.

## COQUILLE NEWS NOTES

### Leander, Our Correspondent Tells of the Week's Incidents at the Hub.

The last week has been the advent of summer. As a result the trees are all garland in bloom and nature has donned its fairest robe of the season. The gardener is busy making his garden and the housewife cleaning house. The surplus men have gone to the different logging camps and our city has a picturesque but melancholy appearance.

Mr. Morgan who went to the city some time ago for medical treatment has returned, and sorry to say, not improved as his friends would like to see.

The shingle mill that has been under contemplation for so long is an assured fact. Construction will commence forthwith.

The logging camps are all in operation and there is employment for all that are disposed to work. Geo. Pike has opened a camp on Fat Elk Creek, Seely & Thomas at the renowned Beaver Slough.

The Cunningham Creek railroad is being pushed with all of the zeal and energy that is possible.

I see that the Harbor man at North Bend attempts to solve the prohibition problem and is very sympathetic toward the loggers for their misfortune. Now we fully appreciate his sympathy and are willing to admit there are a great many good Samaritans comes over from the Bay with the necessary stimulant in his pocket to quench our thirst and alleviate our sufferings, to all of which we are ever grateful, but do not think for one moment that our lips were ever parched and we had to be resuscitated by mild doses until our stomachs could get used to it again. Oh no, it is a spontaneous production of the Coquille. It grows in all old tree stumps and under the sidewalks. All free no revenue to pay on it. This local option is something like knowing the locality where it is and then it is optional with you whether you drink it all or leave some for the other fellow. The priest and levite may have passed us by but we are ever grateful to those Coos Bay fellows for assuming the role of the good samaritan when they found us robbed and thirsty by the wayside and they took us into an inn and quenched our thirst for they always have an inexhaustible supply, and their motto "give I unto thee freely."

Our city is making rapid strides in improvement and building. There are several new buildings under construction noticeable and of much importance and a necessity. Dr. Whetmore's hospital which will meet the needs and the demands of this river for this is an enterprise that has been neglected and Dr. Whetmore deserves credit for taking the initiative step to supply the required hospital. The last week there was an incessant string going to the court house to register preparing for the great political campaign and there was a great diversion from the old way when you appear before that great high tribunal the first questions that are propounded to you are asked what are your political beliefs, what is your religion, how old are you, married or contemplate getting married, has your girl got red hair and does your mother know you are up here. Now being rather young in years and modest these are rather embarrassing and perplexing questions and when I told Lu Lu the ordinal I had to undergo she said that if she had to go up there before these hand some and marketable young men and tell how old she was she would cease aspiring for political recognition and content herself with attending to the domestic affairs while I could wrestle with the ways that are dark and the tricks that are vain.

The county court has been in session the last week, but their deliberation as yet are unknown. Sunday that august body of financiers boarded the steamer Favorite bound for your city by the sea and when interrogated relative to their mission they replied that they were combining business with pleasure. First was to view a road between Bandon and Langlois, secondly they had been informed that there was an overproduction of handsome widows and winsome girls. How they succeeded with the former, I do not know but when your correspondent left they were making good progress in the latter undertaking if fascinating smiles is any criterion to go by.

LEANDER.

When near Bullards he fortunately discovered a raft belonging to the Co., making its way seaward, but they succeeded in checking the progress of both rafts without loss of logs.
