

BANDON
Bandon is located at the mouth of the Coquille river, 1/2 mile from the Pacific Ocean. Population 800. Has woolen mill, shingle mill, broom handle plant, cannery and several sawmills in vicinity. Has water system, good schools and churches. 4 boats daily on Coquille river. Steamers and schooners to San Francisco. Railroad coming.

BANDON BEACH
As a summer resort has no equal on the coast north of San Francisco. Bandon is noted for its evenly tempered climate, the mean annual temperature being less variable than at any other point in the United States. Destructive winds and electrical storms are unknown. Home-seekers will find many opportunities here.

A picnic party of about fifty people from Prosper spent Sunday on the beach and had the time of their lives. They took off their shoes and ran foot races in the hot sand and they waded around the rocks where the water was just deep enough to kiss their ankles. They hunted for agates, for star fish, for sea urchins and for shells. They played games and they strolled. They had plenty to eat and plenty to drink. They came for a good time and they had it. Bandon Beach is the place to come when you want to drive dull care away and enjoy yourself.

Coquille City Excursion.
The excursion to Coquille Sunday was a grand success. About one hundred people took advantage of the opportunity to take a day off and make our neighbors at the county seat a friendly visit. The day was an ideal one for an outing, rather warm up there for Bandonians, yet all passed through the ordeal and no prostrations from heat recorded.

The Bandon Concert Band furnished excellent music throughout the day and easily sustained their reputation as being the best band in Southern Oregon. The excursion boat arrived at the Coquille City wharf at 11:15 and a large per cent of the population and the excellent Coquille City band, were on hand to welcome the visitors. The bands marched up town where a few selections were rendered and then the crowd dispersed for dinner.

After dinner the two bands doubled up and gave another concert on the street, after which everybody went to the ball ground where a contest in the national sport was to take place between teams composed of the business men of Bandon and Coquille. In view of the fact that a number of the players belonged to the "has-been" class and none of them were in practice, the game proved to be exciting and interesting from start to finish and furnished plenty of amusement for the spectators. A commendable feature of the game was the absence of "rag-chewing." When the battle was over and the smoke had cleared away it was discovered that there were no dead but some were dying, and that Coquille had won by a score of 8 to 7.

About five o'clock the excursionists departed with bands playing and flags flying, arriving in the city by the sea about eight. Everybody acknowledged having a jolly good time. The Coquille people proved to be good entertainers and they had more fun than they've had for years. They had such a good time that it is reported that they will bring an excursion down here July 8th, bringing their band and base ball team to repeat the dose. If they do, our people will make their visit a pleasure as long as it lasts and a joy forever. Come.

The gate receipts at the ball game amounted to about \$50 and the net proceeds were given to the two bands. The owner of the grounds tapped the box office for 25 per cent of the gross receipts as rent. If the Coquille base ball boys are compelled to buy the grounds each game, they should cut the bay crop and get some revenue.

Ed. Ellingson was the only Bandon ball player who was fortunate enough to have a base ball uniform with him—and his pants were red. No wonder we lost the game. Ed's batting record

might be equalled but it could never be beaten—not in a thousand years.

Herb. Manciet as a third baseman is a pippin provided he has a good high yard fence behind him. Herb. fell asleep several times and Hall would throw the ball at him to wake him up.

The bum left-fielder for Bandon lost the ball in the hay and not having an extra ball in his clothes, the Coquillers helped themselves to all the scores they wanted.

Chief Boak is a rooster from Rootersville.

Spec. Patterson has a born with two bells. When he gets one of them hot by blowing into it, there is a little safety valve and it switches his air over to the other. This is a boon to strong players.

Lynn C. Doyle was present at the ball game. He gave his wife and mother-in-law the slip while the band was playing in front of the Hotel De Tupper, and after "bitting" a couple of back doors was in good shape to root for Coquille. When last seen he was going up an alley looking for Hark Dunham. He had it all figured out that he would get Hark to swear that he had deputized Lynn to help him tow some logs in an emergency case. We shudder to think what happened when that quartet met.

Geo. P. Laird assisted in a "leap for life," high trapeze act on the river trip that would do credit to a professional.

Roy Gibson worked up a great lip for the bass drum and plays it like a veteran. He can play the drum a great deal better than he can play ball.

A handsome young lady came aboard the boat near Parkersburg with a bushel of beautiful climbing roses and the excursionists soon looked like walking advertisements for a millinery store. One young lady took advantage of the situation and got more than her share but the Lord loves a cheerful giver and she squared herself by passing them around later.

Attorney Barrow, the gentleman who is to deliver the oration in Bandon, July 4th, played centerfield for Coquille. Barrow had nothing to do in the field but when batting tore great holes in the atmosphere and failed to hit the ball. We are inclined to think, however, that Mr. Barrow only wished to show that his sympathy was with Bandon, and that the incident should cast no reflection on his ability as ball player.

On the return trip two gentlemen of color from Beaver Hill favored the excursionists with plantation melodies. The 4th of July committee on board immediately contracted with them to come to Bandon July 4th and bring the famous Beaver Hill Silver Bell Quartet and they will be on hand to entertain our people with buck and wing dancing and melodies of the sunny south.

Geo. E. Peoples of the O. K. creamery furnished a bucket of fresh butter-milk for the excursionists to imbibe coming home—it helped some.

C. E. Freeland's moving picture show held forth at the opera house Monday night. During the day Senator Hamden's minstrel show arrived from the south and the shows consolidated and gave another performance Tuesday night. The house was packed both nights. Senator Hamden has been making this territory for years, in fact he says he has the distinction of being the first black man to penetrate the wilds of the Coquille valley and that they created a sensation and were looked upon as freaks the first time they came through this county. His old partner, Bailey, is conducting a saloon in Stockton. The Senator says he could not get enough to drink in front of the bar so he got behind it. Senator Hamden is getting well along in years but he can rag and sing the same a-of old and says he isn't a bit blacker than he was thirty years ago.

Sandy Thrift, a former teacher in the schools here, was calling on old friends this week. He has just returned from the Hawaiian Islands where he has had charge of a large store the past three years.

Cody Lumber Co. to Build Large Sawmill in Bandon.

It is practically an assured fact that Bandon is to have another big addition to her manufacturing district in the shape of a sawmill. The Cody Lumber Co. propose to put in a mill of 75,000 ft. daily capacity and have same completed by March 1st next, if the people of Bandon will give them a site. The cost of the mill will be about \$50,000. The Chamber of Commerce called a citizens mass meeting last evening for the purpose of discussing the matter. The site for the mill can be purchased for \$2,000 and although there was a small attendance, \$1100 of this amount was raised at the meeting, so it is a sure thing that the amount will be raised and this valuable addition to the town secured. This company has been conducting the largest logging operations on the river. Last year their output went to the Simpson mill on Coos Bay and this year Carman & Crites have been sawing their logs. The new mill will mean quite an addition to the population of Bandon. Watch Bandon Grow!
