Bandon Recorder.

Volume XXII.

BANDON, OREGON: THURSDAY, AUGUST 16, 1906.

Number 33.

Sch. Albion arrived Sunday and is loading at the Carman & Crites mill. Two of the best business lots on Atwater street, \$1,000. Bandon Real Estate Co.

Some big catches of tom cod are being made in the river this week. A few salmon are being taken.

Stm. Elizabeth is due tonight. She sailed Sunday with 300 tons of freight and will stop at Port Orford this trip.

The open season for buck deer begins today and hunters can be seen making for the tall ucut in all directions.

The RECORDER is issued Wednesday evening this week in order that the "boss" may visit Port Orford with the Bandon delegation.

The woolen mill now has some big orders on hand, enough to run several months, and the mill is running on five-quarter time four days in the week.

There are more campers in town this week than at any previous time during the season. The weather the past week has been ideal and they are enjoying their outing immensely.

A Eugene man sold \$948 worth of cherries from two acres of trees. The cost of picking was \$236, leaving him a profit of \$712, or \$336 an acre. A neat income of \$70 a month from two acres.

Sch. Oregon arrived this morning and will load at the Parkersburg mill.

Don't forget that Dr. Steele, dentist, is located in Bandon.

The K. P. Grand Lodge officers are expected here Saturday.

John H. Tyler of Port Orford was registered at the Tupper Tuesday.

W. C. Chase of Coquille was looking after business matters in this vicinity the first of the week.

The band was hired to go out to the camping grounds and give the beach visitors a concert Tuesday night. It was greatly appreciated.

The town has purchased a fire gong to take the place of the old bell which was cracked. The gong was placed in position at the top of the hose tower Tuesday.

The tug Triumph will soon be towed to Portland where extensive repairs will be made. The John R. Vosburg or Roberts will probably do the towing here during the absence of the Triumph.

Wm. Gallier has sold his hardware business to the Bandon Hardware Co., Thos. Robison manager. A complete stock of hardware has been ordered and will arrive in a few days. A tin shop will also be fitted up and the new firm invite the buying public to call and see them when in need of anything in their line. Mr. Gallier will retire as he is getting well along in years and deafness made it inconvenient for him to conduct the business.

The New York insurance superintendent has made public reports of the companies showing a net loss of the San Francisco disaster of \$132,823,067.

A piece of a Corvallis plum tree limb four feet long contained 150 well-developed, luscious peach plums, nearly a quarter of a bushel, and weighing 14 pounds, vouches the Times.

Dairy Ranch for Sale—The Bandon Real Estate Co. has a 660 acre dairy ranch for sale that is a bargain. 250 acres cleared bottom land; well improved. Price \$14,000. Worth \$20,000 to any man who knows what to do with a dairy ranch. Four miles from Bandon. Investigate this.

Cherries shipped from Hood River, Oregon, this season to the City of Mexico went through in seven and one half days, with but 18 per cent damage. The fruit was carried by open express during the very hottest days of the summer without any protection by cold storage. Here is sufficient proof of the hardiness of the fruit grown in that famous part of the Pacific Northwest.

H. G. VanDusen, master fish warden, was a Bandon visitor Monday evening. He says arrangements are being made to take fish eggs on the North Fork with a view to establishing a hatchery there if it is found that salmon in sufficient numbers reach that point. Chinook eggs only will be taken on Coos river and Silver side on the Coquille. He says the upper river is now in good shape as there are no log jams, and conditions look favorable for taking from four to six million eggs.

D. D. Pierce, who returned from his trip to San Francisco early last week, made arrangements while there for three vessels to come to the bay and load lumber from the Coquille mill yards. The steamer Noyo is already at Marshfield loading, and two more are on the way, one of which is the schooner Advance. We understand that another vessel is there taking lumber from the Alfred Johnson mill of this vicinity. These are trying times for the millmen as respects the transportation of their output, and to reach the markets they must hustle for the enabling facilities. The yards of the Coquille Mill Co. have been so glutted of late that the mill has been forced to remain idle much of the time. Besides the lumber in the yards the company is accepting with its own shipments the product of A. J. Ferrin's mill, the same having been teamed to the local depot.—Sentinel.

House and two lots \$1,000. Bandon Real Estate Co.

Married—At Pratt, Kansas, July 30th, 1906, A. W. Strader of Bandon, Or., to Mrs. Fannie J. McNames of Coats, Kansas. Mrs. McNames is a sister of L. J. Davison and was a resident of Bandon for several years.

Married—At Coquille, Or., Monday Aug. 13, 1906, Mr. Geo. R. Hancock and Miss Violet Arrington, Justice E. G. D. Holden, officiating. The bride is the daughter of Mr. and Mrs. V. L. Arrington of Myrtle Point and is quite well known in Bandon. Mr. Hancock—well everybody knows Dick. He's No. 6 in the life-saving crew and a fine fellow and we feel sure will make a model husband. The young couple have commenced housekeeping in the Perkins building opposite the station. Their many friends extend congratulations and best wishes.

Married—at high noon, Wednesday, Aug. 15, 1906, at the home of the bride's parents, Mr. and Mrs. N. R. Smith, Mr. Wm. W. Elliott and Miss Frances Smith, Rev. Geo. H. Roach officiating. The wedding was a quiet affair, only a few of the immediate relatives of the contracting parties being present. The bride is the daughter of N. R. Smith who owns a ranch on Mt. Sherwood, near Hare, Or., and is extensively engaged in the stock business. Mr. Elliott is the planer at the Prosper mill, and the happy couple will commence housekeeping at once in a cozy home already prepared at that place. The RECORDER joins their many friends in congratulations.

Car Shortage May Force all Mills to Close.

Portland Journal.

Unless relief is obtained in the present car shortage all the mills on the Southern Pacific system in the state of Oregon will have to close down, according to A. C. Dixon, manager of the sales department of the Booth-Kelley Lumber company.

"Our company was short between 450 and 500 cars in July," said Mr. Dixon, "and we will be short about the same number in August. Unless we secure relief in a very short time our mills will have to be closed."

"All the smaller mills in interior Oregon have given notice that they will close by the end of the month unless more cars are furnished them. This is equal to a declaration that they will close down for there are no cars to be obtained. I am in Portland for the purpose of securing cars for my company, but I have been convinced since I have been here that the railroad has none to furnish."

"This is the time of the year for the regular car shortage but we have been able to pull through the season without closing down in former years. The San Francisco embargo, however, has settled things for the mill men and the railroad too, this year, for there are still 3,700 cars tied up in the Bay City, according to Mr. Kruttschnitt, superintendent of maintenance and operation for the Harri-man system. This number forms a goodly per cent of the line's entire equipment and as there is no chance to expect a movement, we are looking for an early shut down."

Chances for Westerners to Enter Service.

Washington, Aug. 11.—An opportunity is afforded western people to enter the reclamation service. The civil service commission announces examinations September 19 and 20, at Portland, Astoria, Baker and Eugene, Oregon, to make up a certified list of eligibles for reclamation work, at \$1,800 salary, and assistant examiners at from \$1,200 to \$1,600. Irrigation law and practical irrigation count 50 points, the public land law 20, and the other 30 points are divided equally between contracts, real property and abstracting.

At a recent gathering of the clergy of his diocese Bishop Lawrence told the following story on one of those present:

There was in this clergyman's congregation a woman named Thatcher, who had the reputation of being a great gossip and a chronic bore. Especially did she delight in calling upon the wife of her minister and picking to pieces the other members of the congregation. When the good man saw her coming he escaped out the back door and remained away until he thought it safe to return.

One afternoon, after staying out the usual two hours, he returned home, and immediately upon opening the door called to his wife in tones of resignation:

"Mary, has that old cat gone yet?"

To save her husband's reputation for hospitality the wife promptly replied:

"Yes, dear, long ago, and Mrs. Thatcher is here now."—Boston Herald.

Special Edition—We have several hundred copies of the Recorder special edition on hand yet. Send them to your friends elsewhere. 10 cents a copy, 3 for 25c.

Mrs. Sarah Costello was a Coquille visitor Tuesday.

Miss Claire Walker visited the county seat today.

M. Breuer made a trip to his ranch on the upper river this week.

Editor Dean and wife of the Herald were Bandon visitors Saturday and Sunday.

Good residence property and 5 lots, \$3,000. A bargain. Bandon Real Estate Co.

Mr. and Mrs. Harry Hermann of Myrtle Point, were registered at the Tupper Friday.

W. F. Disher returned the latter part of the week from a business trip to San Francisco.

J. T. Mars and E. Lewin with their families will spend two weeks in Curry camping out.

Pat. Dwyer, of the Clark & Dwyer ranch, was a business visitor to the county seat Saturday.

Mrs. R. E. L. Bedillion returned last week from an extended visit with relatives in California.

Mrs. Conrad is having a store building erected near the M. E. church and will put in a stock of goods.

Mr. and Mrs. L. W. Shaw, Miss Sbaaw and W. F. Squire and wife, of Marshfield, were beach visitors Saturday and Sunday.

Bandon will turn out en masse tomorrow and go down to Port Orford to pay a friendly visit to our southern neighbors and help make their W. O. W. celebration a success.

Sandy Thrift, brother of our genial assessor, was mingling last week with his old friends in Coquille. Mr. Thrift didn't enter the grocery business at Marshfield, as he had planned to do.—Sentinel.

Miss Irene Lamb of Coquille, graduate in music of Columbia College, Milton, Oregon, is prepared to give lessons on piano and mandolin in Bandon, Tuesday and Wednesday of each week. Terms 50 cents an hour. Inquire of Mrs. Chas. Kime.

H. F. Morrison and Geo. Hite with their better halves left Sunday for a two weeks' outing in Curry county. Morrison will endeavor to lose some of his avoirdupois and Hite expects to gain some. J. O. Langworthy has charge of the barber shop during their absence.

Wm. Hicking returned Monday from a business trip to the city.

A number of our school teachers are attending the Institute at North Bend this week.

The Bank of Bandon has just put in a new adding machine which saves much clerical work.

Messrs. Riches, Vale and Camp, postoffice inspectors were visiting the various offices in this section last week.

F. B. Odbert, H. N. Lorenz, Geo. Lorenz and Chris Long left this morning for Elk river in Curry county on a hunting trip.

Someone shot off the top of the overflow stand pipe at the water works reservoir last week and as a result the people living on the bluff were out of water for several days.

Edgar L. Wheeler was over from the Bay on a business trip Thursday. He had just closed a big deal there, selling the E. A. Seaman corner property in Marshfield to M. B. Zimmer, of Boise, Idaho, for \$13,000.

The Coquille Sentinel came out last week enlarged to a seven-column paper. We are glad to note this evidence of prosperity by our esteemed neighbor and hope it may continue to grow and increase its field of usefulness.

Some boys played a mean trick at Prosper the night of the launching. They filled the water tank with salt water and when Doc Denn was indulging in his mid-summer night's feast on the up river trip he became dry and naturally visited the steamboat company's reservoir. When Doc gulped down a pint of that salt water he was madder than a wet hen, and there is nothing gets madder than a hen when she is wet.

The pill-mixer at the Bandon Drug Co. store has a habit of going out in the south part of town every few evenings to see the new buildings going up in that vicinity. He makes so much noise coming down the school house steps that he was confronted by the night-watch every trip and decided to devise ways and means to get past the arm of the law unnoticed. So he goes up to Mike Breuer and has a half sole put on his trousers and now gracefully rides the banisters like the kids.
