

Bandon Recorder.

Volume XXII.

BANDON, OREGON: THURSDAY, AUGUST 30, 1906.

Number 35.

Cody Company Will Build

\$60,000 Sawmill in Bandon This Winter.

Will Cut 80,000 Feet Daily and Ready to Operate in March.

L. J. Cody, of the Cody Lumber Co., was in town this week accompanied by D. McCarthy of Portland, who will be the architect for the big sawmill that the company will build in Bandon. The surveying of the mill site was to have been done this week but was postponed until Monday when the tide will be more favorable for the work. The Cody company is now ready for business and expects to commence work on the new mill just as soon as the deal is closed for the site. The mill will have a capacity of 80,000 feet daily and will cost about \$60,000. The site selected is just above the Bandon Mfg. Co. mill and is one of the best sites on the river. It is the intention to have the mill completed and ready for cutting lumber in March. The mill and logging camp will give employment to about 100 men and this additional pay-roll will mean much to Bandon.

The Coos Bay Publishing Co. will soon commence the publication of a monthly magazine devoted to the Coos Bay Country. The magazine will contain 64 pages and the first number will appear Sept. 1st. P. C. Levar, late of the Coast Mail, will be the editor.

In the Recorder's Court this week a sailor charged with assault and battery on another sailor was taxed \$5 and costs. H. M. Brown was in court charged with disorderly conduct and disturbing the peace. He acted as his own attorney and was acquitted.

H. F. Morrison and Geo. Hite returned Thursday from their outing in Curry. The boys had a fine time but were unable to get a deer which proves conclusively that they may know how to break off whiskers and trim hair, but as hunters they are a bum article.

Monday Sept. 3rd is Labor Day. Baseball Sunday in Bandon. Coquille vs Bandon.

J. S. Lawrence of Coquille, was a visitor in town Monday.

F. S. Carman has returned from a business visit in the east.

Nels Rasmussen went to Marshfield yesterday morning on a business trip. Jas. Hughes of Cape Blanco was a business visitor in town the first of the week.

T. H. Mehl and Miss Ethel Johnson were married in Coquille, August 22nd.

Mrs. Emma Erickson left yesterday for Eureka where she will make her home this winter.

Crane & Sturtevant have just added a new yarding engine to their camp equipment.

M. Brener was quite sick with pneumonia the latter part of last week, but is now improving.

Frank Holman has moved his family to Prosper and will remain there until after the fishing season.

It is announced that Judge Hamilton will pass on the validity of the Coquille special election, Sept. 10th.

A large number of the old soldiers and pioneers of this vicinity are attending the reunion at Myrtle Point this week.

Dr. D. L. Steele will be absent from his office in Bandon from Aug. 30th until Sept. 12th, on a professional visit to Coquille.

Ernest Boak was down town Tuesday for the first time since he was taken sick three months ago. His many friends are glad to see him out again.

Fred Kribs, of Portland, was a business visitor in this section last week. Mr. Kribs owns about forty thousand acres of fine timber in Coos and Curry and wants more.

Geo. Lorenz and party returned from their hunting trip last week. They succeeded in bagging eleven deer. Perkins and Fox also returned and report eight bucks to their credit.

The Gold Beach Globe says, that since they are using the seine, on Rogue river, everybody that wants trout can go and get them.—The fish warden will be doing business at Gold Beach, if those fellows don't look out. It is against the law to catch trout in any waters of the state of Oregon except with hook and line.—Coos Bay News.

Foundry Will Build.

New Building on Water Front.

More Machinery Will be Added, Making the Equipment Equal to Any Between S. F. and Portland.

The quarters now occupied by the Bandon Foundry and Machine Shop are too small and a new building is to be built at once on the corner of Homer and First streets, just south of the Bandon Woolen Mills. The new building will be 40x80 and two stories high. Work will be commenced next week and it is hoped to have it ready for occupancy within 60 days. The business of the Bandon Foundry is growing to such an extent that more machinery is needed and when the new building is completed several more machines will be installed in the plant, including a twelve-thousand pound planer, hydraulic press and two more lathes, making it one of the best equipped plants between San Francisco and Portland.

The new plant will represent an outlay of about \$10,000 and will be in a much better location than the old one.

The first ground was broken Monday afternoon for the Drain and Coos Bay railroad. Two hundred and fifty mules, a dozen carloads of scrapers, plows and other tools from California and many carloads of powder, provisions, etc., have arrived already, and also enough men to begin work on this great undertaking which means so much for Southwestern Oregon. Several hundred more men and mules are expected to arrive this week, when work will begin with the utmost vigor. Several thousand tons of hay have been bought by the Loss company between Drain and Elkton, 16 miles west of here, and preparations are made for steady work until the road is finished. Work will commence next week on the big 4,000 foot tunnel at Paradise creek 18 miles west of here. The Loss company has sublet a contract to Cole & Sweeney of Portland to build two smaller tunnels, 11 and 12 miles west of Drain. Each of these tunnels will be about 1,200 feet long. It is the intention to have 1,000 or 1,200 men at work on the new road next month. The wages paid are from \$2.25 up.—Nonpareil.

Trial Jurors.

The following have been drawn as trial jurors for the next term of the circuit court which convenes at Coquille Sept. 10th:

Geo. T. Coleman, Marshfield; J. R. Wallers, Marshfield; Joseph Flam, Parkersburg; R. W. Lundy, Myrtle Point; John Morris, Bandon; Eric Arneson, Myrtle Point; Pat Hennessey, Marshfield; A. J. Savage, Marshfield; W. L. Kestner, Coquille; J. Lingo, Bandon; E. L. Smith, Marshfield; J. J. Cluikenbeard, Marshfield; Ed Had-sall, Bandon; J. C. Roberts, Myrtle Point; John Langlois, Bandon; Alex. Lund, Marshfield; Frank Van Laven, Parkersburg; Rubin Hartley, Myrtle Point; J. S. Lawrence, Coquille; W. C. Parker, Parkersburg; C. Hagquist, Marshfield; Archie McNair, Bandon; John F. Maxton, Marshfield; L. A. Braden, Myrtle Point; John Nagle, North Bend; S. S. Endicott, Myrtle Point; W. H. Corbin, Myrtle Point; C. J. Hulstrom, Marshfield; John Snyder, Marshfield; Fred Kruse, Marshfield; F. M. Friedberg, Marshfield.

C. Deickson, manager of the Wau-beck Mining Co. on Sixes river, left for Portland on a business trip this morning. He reports that a number of his men have been quite seriously afflicted with cedar poison.

House and lot on First St., Bandon \$775. Bandon Real Estate & Loan Co.

Large business block in Bandon, \$4000. Bandon Real Estate & Loan Co.

J. J. Kronenberg went to San Francisco on a business mission last week.

Assessor Thrift is having trouble with his eyes and expects to go to Portland soon to consult an expert oculist.

The little son of Capt. Anderson of the sch. Oregon had the misfortune to fall and break his left arm while playing last Monday.

J. L. Nay, the Elk river horseman, passed through Bandon enroute to Marshfield, one day last week, where he will put a horse in training for the Arago races.

Miss Irene Lamb of Coquille, graduate in music of Columbia College, Milton, Oregon, is prepared to give lessons on piano and mandolin in Bandon, Tuesday and Wednesday of each week. Terms 50 cents an hour. Inquire of Mrs. Chas. Kime.

F. T. Odger, Hume's bookkeeper was in town Tuesday night accompanied by his wife. They left on the Wednesday morning boat for Marshfield where they will take a steamer for San Francisco.

Langlois.

Born to Mr. and Mrs. Chas. Wooley, a daughter. Congratulations.

Mrs. W. L. Gould, who has been spending a month with her mother, Mrs. S. T. Malehorn, started for Portland last Monday. Her husband expected to meet her at Roseburg and accompany her home.

Mr. Victor Boyd of Eastern Oregon who has been engaged to teach here during the ensuing year is now with us. We are hoping much of profit and pleasure with school work again resumed. The beginning of a school year is of more importance in the life of a boy or girl than many are disposed to think. Our school opens for regular work Monday, Sept. 3.

Harvey Smith is radiant. Why? He is the happy possessor of a son. All are doing well.

Ben Cope has gone to Coquille, hoping thereby to hasten his convalescence.

Our Sunday School bell has come after long delay. The proof of a bell is in its tone, and as it is not yet mounted the test must come later.

Services were held last Sunday at the church, morning and evening.

A party of our young people started on a camping trip last week, making Roseburg their objective point, and hoping to take in the fair while there. We hear their outing is a grand success in the line of fun.

Supt. and Mrs. Johnson passed through town the first of the week, bound for Coquille.

Mrs. Munroe Upton is spending a short vacation at her husband's father's home.

Mrs. Lorenz and Mrs. Philpott came down from Bandon Monday and are guests of Mr. and Mrs. Frank Langlois.

Miss Ivy Langlois went to Bandon last week, intending to visit there and at other towns farther up the coast. She is having a grand old time.

Some of our responsible citizens have been subpoenaed and gone to Gold Beach to attend the fall session of court. We understand they are asked to assist in settling other people's troubles, not their own. Also quite a number passed through town from further up the coast, bound for the same place. Among them were A. J. Sherwood of Coquille, Mr. and Mrs. Swanton of Marshfield, and L. A. Roberts of Myrtle Point.

Mr. Gibson, who had been spending a few days at Marshfield returned last Friday, accompanied by his daughter, Mrs. Ed. Thrift, and Sand Thrift.

Mrs. T. S. Malehorn has gone to Fourmile to spend a few days with Mrs. James McAdams.

Mr. and Mrs. Odgers of Gold Beach passed through town Tuesday bound for Marshfield.

This section of R. R. surveyors returned to Langlois Wednesday.

Ready for Fishing Season.

Canneries Being Overhauled and Put in Condition.

Expect to Start up Sept. 10th Although No Big Runs Looked For Before Oct. 1st.

S. A. Miller, of Astoria, arrived here last week and is busy putting the Timmons salmon cannery in condition for the season's run. A shipment of tin is expected on the Elizabeth and as soon as received the can-making department will be put into operation. A new boiler, filling machine, topper and retort have been recently installed in the plant. It is expected that the plant will be put in operation about Sept. 10th. The run of fish will be light at that time but it is thought there will be enough to justify operating the cannery two or three days in the week. No big runs are expected until about Oct. 1st.

Riverton.

Our little town presents a lively appearance at present. Our merchants are all busy in a quiet way. Steamboats land at our wharf six times every day. The stores and many of the dwellings are supplied with telephones, while the happy voices of the school children, the hum of the mill, the rattle of the donkey engines and locomotives in the several logging camps near us, lend an air of progress and development along different lines, nor is this all, Riverton is surrounded by many valuable coal mines. The "Eureka" mine on the Peterson place produces some of the finest coal mined on the coast. M. W. McCormick, who is interested in this mine, is in receipt of a letter Wm. H. Hamilton of Agnews, Cal., in which Mr. Hamilton states that he has formed a coal company, under the laws of Arizona, and would soon be ready for business. These gentlemen are expected to arrive here at any time now.

The company proposes to handle the out-put of coal from this mine by building large barges by means of which the coal will be transported to Bandon, where it will be transferred from the barges directly to the steamer and shipped to the city. Mr. Hamilton is agent for the millionaire

Senator Clark, who, according to the Twentieth Century Review, draws twenty million dollars a year in dividends from the United Verde, his famous copper mine in Arizona. The outlook for those concerned in the coal enterprise is very encouraging, to say the least, and we wish them every success.

The Riverton mill is running again after having been closed down for a short time on account of the wharf being blocked with lumber.

The schooner San Beuna Ventura is loading lumber at the Riverton mill.

A fire occurred in Craine's camp near this place, last week doing considerable damage to the fine cedar logs which were cut and ready to haul. One donkey engine and considerable rigging were damaged some, but Mr. Craine did not shut the camp down, he is running a full crew and going right on with the work.

School opened again this week with an enrollment of 44 pupils, six new pupils being added.

Mr. Andrews and three children arrived at Riverton a few days ago. Mr. Andrews is a son-in-law of our merchant Joseph Ferry.

J. V. Foster received quite a large stock of new goods last week.

Miss Maud Ellingsen of Parkersburg, visited her sister Mrs. C. C. Price last Sunday.

The little son of Mr. Andrews is quite sick. The steamer Favorite made a special trip Tuesday evening bringing Dr. Wetmore down to see the child.

Wanted—Millwright. Write to Box 41, Bandon, Or.

Chas. Lyons returned last week from a trip to Eureka and S. F.

House and four lots in Bandon, \$650. Bandon Real Estate & Loan Co.

John P. Anderson of Hay Springs, Neb. arrived this week and will locate in Bandon.

The railroad surveyors left today for Crescent City where they will work for the present.

The steam schooner Casco was launched at Marshfield Monday. She will be towed to San Francisco where the machinery will be installed and will then make regular runs to the Coquille river. The schooner's dimensions are, length 170 ft., beam 36, depth 12.
