## Gans Gets the Decision.

### Nelson Fouls Gans in the Forty-Second Round.

Arena, Goldfield, Nev. Sep. 3.—Battling Nelson deliberately fouled Joe Gans in the forty-second round of the best and longest fight seen in many years. Both men were tired when the fight ended. But Gans was apparently the strongest, and away ahead on points and had smashed and cut Nelson all through the fight without being badly hurt himself.

Shortly after the forty-second round commenced the men were in the usual clinch, Nelson had his head on Gans' shoulder and his arm was down. Several times he hit Gans below the belt, feeling for a vital spot. The colored boy sunk to his knees and rolled over on his back when Siler ordered Nelson to his corner and awarded the fight to Gans on a foul.

Siler's decision received almost the unanimous approval of the whole crowd. The foul was so visible the men who had bet on Nelson could not say it had not been committed. All through the long contest Nelson had employed rough tactics. He repeatedly butted Gans and had to have his head hauled away by the referee. Referee Siler said to the Associated Press that while he did not say the foul was intentional, there was no doubt but it had been committed. Nelson, he says, had used his usual tactics all through the fight, and while he knew Nelson was butting whenever he had an opportunity, he did not disqualify him for that because he saw he was not hurting Gans, and as no other referee ever had disqualified Nelson for doing the same thing, he did not feel like doing it; besides the crowd were there to see the fight and he did not want to disappoint them. Siler was loudly cheered as he left the ring, as was Gans, who was carried to his dressing room.

Nelson and his second were hissed as they departed. Billy Nolan, Nelson's manager, made a disconnected statement in which he said Gans promised not to claim a decision on a foul and yet he jumped at the very first opportunity to make such a claim. All Nelson would say was, Gans was tired and quit. Gans in many ways, put up a most remarkable battle.

His good generalship was shown when in the thirty-third round he broke his right hand. Never after did he strike a blow with it except a few short arm knocks while clinching. He did all his work with his left hand and put it all over Nelson. Gans in the thirty-third landed a hard right hand punch on the side of Nelson's face. A bone in his hand snapped and Gans stepped back with an expression of pain. He humped around as if he had stepped on his foot or turned it and no one realized he had badly injured his right hand, although it was suspected he might be injured.

A great many of the excursionists went to the beach and others went to the ball park where a ball game was scheduled to take place between Coquille and Bandon teams. The game proved uninteresting as there was much wild base throwing at critical moments and neither team developed the necessary snap and ginger to make a good game. The game was won by Coquille.

## Another Big Industry May Come.

There is another big enterprise on tap for Bandon. We are unable to give the public any of the details this week as we have been requested to say nothing until a definite decision is reached. However, if the industry comes here it will add another good pay-roll in the manufacturing district and add population and wealth to the town. A decision will likely be reached in the next ten days.

Capitalists looking for good investments in a growing town, are just commencing to realize the advantages offered by Bandon for almost any kind of an enterprise, and they will not be slow to get in on the ground floor. Bandon possibly may not be the first city in Coos county but it is a dead certainty that it will be a close second.

## Elizabeth Fireman Leaves Before Breakfast.

A German who shipped on the Elizabeth this trip as a fireman, failed to respond to the call for breakfast this morning an investigation failed to reveal his whereabouts. About the same time his absence was noted two Mexican deck hands discovered that they were short about \$100 of hard earned cash, so a strenuous effort is being made to find the fireman on suspicion that he might know something about the disappearance of the filthy lucre. Peter Hagensen of Langlois, arrived in town early this morning and reported meeting a stranger whose description fits the fireman to a dot, about seven miles south of town. He made inquiry as to the distance to the next town and when last seen was kicking up the dust at about a six mile clip. A message has been sent to the deputy sheriff at Langlois to take the stranger in tow when he arrives there and it is very likely that he will be apprehended.
