THURSDAY, DEC. 13, 1906.

Appropriation in Sight.

Dispatches from Washington convey the information that the Secretary of the Treasury has recommended an appropriation of \$40,000 for the improvement of Coquille bar. That Congress will act on the recommendation seems morally certain, though it is not improbable the amount may be materially cut.

The Recorder finds extreme satisfaction in publishing this news, and feels little doubt that our bar is destined to receive the benefit of forty thousand dollars at least next summer. True, it is not the sum we require, nor what we were hopeful of getting, but, considering how other points fared, we should be, and are, pronouncedly grateful.

Forty thousand dollars will in reality go a good way, for it must be remembered that the equipment for jetty extension is already on hand, such as railway, cars, piledriver, etc., and the expense before incurred in securing them is obviously eliminated.

With the next improvement work completed it is hoped to have a depth on Coquille bar that will admit of no delay to larger craft at high water, and when such result is obtained all southern Coos will be devoutly joyful.

But bar improvement is not the one thing we need. Even that, however, would be enhanced by obliterating the lagoon west of Bandon, which it is hoped the next work will include as a part. What we are also in need of is dredging. The shoal near Bullards particularly, and that in the vicinity of Parkersburg must both be remedied.

As a prominent mill man remarked to the editor the other day, six feet more of water above town would be worth a part of the timber of the county. "Our growing commerce," said this particular gentleman, "demands that Congress come to our relief in the matter of improving this river as well as this bar, and if our appeals are unheeded we must delve into our pockets and do it ourselves."

The gentleman is correct. The commerce of the Coquille is steadily growing and will continue to grow, and it has expanded sufficiently to justify the expenditure of public money in dredging the stream. What the efforts of our delegate, Orvil Dodge, will count for at Washington remain to be seen, but undoubtedly his utmost will be exerted.

It is a well known and commonly admitted fact that the product of the Coquille which has gone by Coos bay has been counted for Coos bay in their summary of exports, but the Recorder has the proud privilege to say that the Government "got next" and made allowance therefor. Uncle Sam also secured through Donald Charleson of Bandon some important statistics concerning our output, both by way of Coos bay and the Coquille, and these statistics played an important part in guiding the Secretary in his recommendation.

But \$40,000. Hallelujah!

Forty thousand dollars for Coquille bar. Three thousand dollars for Coos bay. But then we would have rejected over this way if Coos bay had gotten better recognition. That is, as far as matters have gone.

The Oregonian says that Peter Loggie was introduced to the President by Senator Fulton. Peter will likely never don the carpenter's apron again.

Senator Fulton doesn't appear to have made such a great blunder on the Bristol matter after all.

Forty thousand dollars. We might have gotten more, even in the recommendation, but let us devoutly supplicate that is not shaved.

The river shoals must next go.

Waterways Congress Meets.

A dispatch from Washington dated Dec. 6th is as follows:

Nearly 1000 delegates are in Washington in attendance on today's session of the opening of the National Rivers and Harbors Congress.

Speaker Cannon and Representative Burton, chairman of the House Committee on Rivers and Harbors, are among the speakers. Governor Chamberlain and the Oregon delegation arrived here today. Governor Chamberlain will speak this evening and I. N. Teal this afternoon. Other delegates are E. Hefer, Salem; Philip Buehler, Portland; Peter Loggie, Coos Bay; C. R. Ray, Medford; Joseph T. Peters, The Dalles, and O. Dodge, Coquille. The delegation will exert its best efforts to secure recognition of Oregon water ways.

The object of the convention is to secure an annual appropriation of \$50,000,000 from Congress for systematic work in improvements of the Nation's waterways.

Representative Raesdell, of Louisiana, who has made a tour of 20,000 miles around the country in behalf of the rivers and harbors movements, will report to the convention that he has found the sentiment to be strongly in favor of a vigorous prosecution of waterways improvement as a "remedy for the wholly inadequate transportation facilities now afforded by the railroads."

In a recent interview W. C. Hawley, Congressman-elect from the first Oregon district, outlined his plans. The most important of these, according to Mr. Hawley, will be in connection with the purchase of the locks at Oregon City or the building of new ones by the Government. The chief objection to the present locks is that they are owned by a private corporation, which places an embargo upon each vessel that passes through, with the result that the tollage has to be finally paid by the shipper.

Miss May Tully, formerly of Marshfield, is well spoken of in a write up in a recent issue of Variety, a New York theatrical paper. Miss Tully is the niece of F. E. Hagne, a well known business man of Marshfield, and the old residents of this place remember her well, she and her mother having lived in this city about 12 years ago. She is now about 18 years old, and has been in the theatrical business for the past two years.—Times.

It costs every inhabitant of the United States \$1.33 a year to maintain the navy and only six men out of every 10,000 are bound to naval service. This fact is shown in the annual report of Charles J. Bonaparte, Secretary of the Navy, to the President, which was made public Thursday.

The hull of the new steam schooner Helena, which was recently constructed at the Lindstrom yards at Aberdeen, was towed up to the dock of the Willamette Iron and Steel Works, where she will have her engines installed. She is owned by E. T. Kruse & Co., of San Francisco.

LODGE DIRECTORY.

Masonic.
BANDON LODGE, No. 115, A. F. A. M. Stated communications first Saturday after the full moon of each month. All Master Masons cordially invited.
