On account of the shortage of coal the Woolen Mills were obliged to close the latter part of last week and the fore part of this. Coal is plentiful up the river, but the means of transportation is the principal difficulty. The management is seriously contemplating running their own scow for coal, which will obliterate any difficulty of shortage of fuel.

The stern wheel boat Liberty has been up on the mud flats the past week or ten days, being thoroughly overhauled. She smashed a hole in her hull with the anchor a few days ago. The boat was then up in low water, and when the tide went out she settled on the anchor necessitating several days' extra work. The Liberty took the regular trip of the Favorite Monday noon and will continue for some time. The Favorite will go on the ways at Prosper where she will receive a thorough overhauling. Her run was between Coquille and Bandon, leaving Bandon at one o'clock every day and returning the following morning.

Logs Break Adrift.

[FROM THE FIRST PAGE] assisted in stopping the second raft, but dropped it when she saw the third coming. She hooked on to it and after somewhat of a struggle, landed it behind Rosa's new wharf near the Woolen Mill. In so doing

she grounded, and was forced to remain there until high tide last night. The Life Saving crew were out at the time and carried the passengers and mail to shore, and by the way, there were more passengers than the Dispatch had carried before for some time.

While a little excitement is good sometimes for the community, it would have been rather expensive to the Mill companies if the rafts had gone to sea. As it is they are fortunate enough to get out of it as easy as they did. The Aberdeen Mill had one of the rafts and the Prosper Mill the other two.

Installing Typewriters.

E. M. Furman has been installing a number of the Sun visible typewriters in this community. This little machine has a standard key board and has been adopted by the government in the Army department. He has the exclusive agency in this territory and will be pleased to mail you any information on its merits that you may ask for.

A distinct feature of this machine is that you do not have to use a ribbon. The type is inked by a pad and you always have a nice clean print. For any additional information address him at Bandon.
