### Port Orford Notes.

From the Tribune.

Prof. Logan and wife passed through town last Wednesday, on their way to their home on Bear creek, near Bandon, having closed a successful term of school at Brush creek.

The Bandon Recorder came out in six page form last week, and is getting to be a model of what a local newspaper ought to be—giving the reliable local news, avoiding trashy stuff and sensational head lines.

Isam Walker, the cattle dealer, passed through Port Orford yesterday on his way down the coast buying cattle. He has already purchased twelve hundred head, and expects to make several large drives during the coming season.

John Tyler, Jr., left last week via Coos Bay for San Francisco, desiring to locate somewhere in California and practice his profession as an optician. He is a young man of exemplary habits and first class ability, and ought to be successful in any calling. He will be greatly missed by his many friends in Curry county.

Otto Neumann left for San Francisco via Coos Bay, last Sunday, to look after the land business of C. F. Allen who was killed at Bandon. Otto has been cruiser and confidential agent for Mr. Allen in all his timber deals in this county, and there is said to be a number of deals pending where only small payments have been made and title not passed.

George Forty and sons Robert and Lorin, George Quigley, Johnny Stone, James Neygren, Marion Zumwalt, Bud Post and Clarence Wright are going to work for R. D. Home at Wedderburn during the coming summer. Such an exodus from a small town will be missed, and there will no doubt be many anxious ones waiting for their return when working season is over.

The bench from Port Orford to Cape Blanco never before was strewed with so much red wood and evidences of wreckage by freshets—embracing houses, boats, railroads, fences, etc. No doubt it mostly came out of the Klamath as no other stream in the red-wood belt reaches far enough east to receive the full force of the late rain storm which swept the Sacramento.

Gene White and Mart Sherrard got back from Bandon Sunday with their four horse team, to which place they had taken Prof. Logan's household goods. They got one of their wheel horses down in the green timber near Denmark, and say that this piece of road is in a horrible condition. As there are but small hopes of ever opening the new road, the county court should have the bad places repaired on the old road, as it must still be traveled for an indefinite time.

### Coquille Notes.

From the Sentinel.

Mr. and Mrs. W. H. Nosler of Eugene arrived in this city last week, and are visiting with relatives. They will remain this summer.

D. W. Kenny and wife of Tacoma have rented the John Quick property in the north part of town and will make Coquille their home.

Geo. E. Peoples of the O. K. Creamery has leased the Carl Bros. cheese factory at Norway, and will put the plant in operation next week.

Rev. Branham and wife returned last Friday from Kansas, where they were called a few weeks ago by the death of Mrs. Branham's sister.

A logger under the influence of liquor fell from the train a short distance below town, Tuesday morning, but escaped injury with the exception of a few scratches.

E. R. Sheldon and mother, of Redlands, Calif., have moved into Joe Bledsoe's house on Fourth street. Mr. Sheldon is here with the expectation of making this their future home.

W. M. Herald and family who have resided in this city for a year or more, leave today for Prosser, Wash., where they will reside on a ranch owned by E. S. Stoenm of this city.

Mr. and Mrs. Chas. Lorenz of Bandon came up to this city last Saturday for a visit with relatives. Mr. Lorenz returned Monday, but Mrs. Lorenz and children will remain for a few weeks.

The telephone exchange which expected to move into the Stanley building on Second street, has been moved upstairs into the room lately occupied by Walter Sinclair as a law office. The failure to receive the necessary cable and other supplies from San Francisco for the new exchange

made the removal to the temporary quarters necessary. With the arrival of the supplies the Stanley building will be used as the exchange and a place for the storage of all kinds of telephone supplies.

### Figure It Out.

From one of our exchanges we extract the following problem: A farmer owned a hog and wanted to weigh it. The man weighed 200 pounds and his wife 135. They put a board across a fence so that when they sat upon the ends it exactly balanced. They then changed places, his wife taking the pig upon her lap, just balancing the board again. How much did the pig weigh?

### Says Extreme Age Due to Smoking.

Butler, (Pa.) Dispatch.

Mrs. Elizabeth Freeman celebrated her one hundred and thirteenth birthday in her home at Madison township, Clarion County, recently.

For 90 years Mrs. Freeman has been an inveterate smoker, and spent today with her pipe in her mouth most of the time. She says smoking has been the greatest pleasure of her life, and she believes she would not have lived so long had she not had her pipe.

### Age Limit in Railway Service.

The age limit for men entering the service of railway companies was fixed several years ago at 35 years. Clamor was heard, and much hardship resulted because of this order, it being claimed that ten of the most effective years of the life of the man of ordinary intelligence and capability were sacrificed to this discrimination. While it is not probable that the managers of railroads were moved thereby by this protest, nor yet by the individual hardship that resulted from this order, it is a fact that it has been within the past year modified by adding ten years to the age limit, subject to certain conditions. That is to say, the directors of many of the leading railroads in the East including the New York Central lines and the Pennsylvania, have decided that men may enter the railroad service at 45 years of age, other qualifications for service being left to the discretion of the official in charge of the employment division. This limit is applied to all classes of employes on Eastern roads; in the West, where an age limit is fixed, it is applied only to train men.

It has been found that an age limit below 35, or even 45, years, arbitrarily enforced, deprives the railway service of many valuable men. In no other employment, perhaps, is the fact that there are men and men in the ranks of labor so fully demonstrated as in railroad service. The man of natural ability, quick to see and prompt to do, is a better employment risk at 45 than is the shirk or the dillard at 25. It is men of the latter class who are responsible for the accident due to the open switch, the failure to set the brakes promptly, the misreading of signals, etc. Such men, at any age, are blunderers through carelessness and misconception.
