Consult him for your eyes, head ache, weariness, or nervousness.

A. M. HITCHCOCK
Contractor and Builder

Estimates given on any kind of buildings. Address Bandon, Oregon.

Bandon Pulp and Paper Mills

MONEY ALL RAISED

Mr. Marshall will be Here to
Take Charge About
May 15th.

The Bandon Pulp and Paper Mills have not been doing any very loud shouting, as they have not been fairly well under way on account of numerous formalities being incorporated, but now that they have not only become incorporated and the subscription amount is more than raised, they are ready to go ahead.

At present writing there has been something over \$51,000 subscribed and there is an immediate prospect for at least \$5,000 in addition. The subscription list was taken to Coquille by Col. Blumenrother, who secured over \$11,000, subscribed by the noted men of that place that saw the remarkable opportunity to invest.

Mr. Marshall will be on the ground about the fifteenth of May, and the construction work will commence immediately. The necessity of pushing the work through at once is demonstrated by the fact that several orders for paper have already been received, and one alone amounts to \$25,000. This is from Seattle, Wash.

The opportunities for getting in on the ground floor is about gone. The subscription list will be closed after May the 1st and at that date the meeting of the directors and officers, which was delayed a short time ago, will be held.

The site for the structure is between the new Cody Mill and the Shingle Mill. A deep water frontage of 400 feet makes it particularly desirable. The buildings must be large in order to accommodate the machinery, which is very large.

This is to be a 20 ton plant, and will undoubtedly be profitable from the start. The mills now in operation in Oregon are paying a dividend yearly of 30 per cent and have much larger prices for the materials to contend with. Wood suitable for paper purposes costs the Oregon city people \$7.50 per cord, while here it is obtainable in any quantity from 75c to \$2.25 per cord. A new invention has made it practical for the paper mills to use not only the slabs and trimmings, but the saw dust from the mills around here. This is a remarkable saving.

Oregon Mills are paying first class wages, and a paper mill employs a number of men. The pay roll will at least be \$4,500 to \$5,000 per month here in a twenty-ton mill.

Conditions are such that the output will not only be the regular print paper, but the higher class of writing and flat papers. They will also manufacture a high class linen paper, suitable for the finest trade.

Another decided feature in the paper mill project is that there is a reliable Seattle firm that manufacture car wheels and pulleys that will put in a large plant as soon as the paper mill is in operation, and will use up the waste in the manufacture of car wheels. They do not ask any bonus, but require a site near the paper mill. This will also bring a number of new men in addition to those that will work in the paper and pulp mill. In a mill the size of this one, there will be a considerable, and if it can be utilized, it will make the mill more valuable.

The board of trustees of the Bandon Athletic Club said board consisting of J. Brown, E. M. Blackerby, Walter Nelson, C. J. Dailey and G. D. Treadgold, met pursuant to call, in the law office of the latter and duly organized by electing Walter Nelson President and G. D. Treadgold Secretary. By vote it was decided to rent Shields & Kennedys hall and the secretary was instructed to prepare a lease which was signed by all parties the next day, April 20, 1907 and which gives to the Club, with certain limitations the use for six months of the upper story for gymnasium purposes at \$20 per month.

The committee on constitution or organization did not report as it is thoroughly considering the advisability of incorporating the Club under the State laws. A meeting of the members will probably be called in next issue of the Recorder.

The Sun Typewriter is a truly visible writer. It is a \$40 machine. For rapid work, heavy manifold, perfect alignment, perfect print it is not equalled by any other made.

It has a universal keyboard and is guaranteed in every detail. The U. S. Government have adopted it as the standard machine for the Departments of Agriculture and the Army.

It does away with the dirty, troublesome ribbon, and the inking device is perfect in its simplicity. The great typewriter trust has offered \$100,000 for this simple invention, but have been refused.

You cannot afford to purchase a machine until you have failed in your attempt to criticize the Sun Typewriter No. 2, after which a selection is easily made.

I have placed one of these on exhibition in the real estate office of Mr. Wm. Oddy, two doors from the post-office in Coquille. Printed matter and photographic illustrations will be sent to any address on request.
E. M. FURMAN, Coquille.

Ready for Market.

The Bowman Cigar Company have something like ten thousand cigars made and as their boxes arrived on the Elizabeth this week, they will put them on the market at once. The Bob Bowman ten cent straight cigar is their leader. This cigar received the silver medal against all comers at the St. Louis Exposition, and the Bowman's have the exclusive right on this coast. They were the originators of this popular cigar in the East several years ago where it is one of the principal leaders yet.

All of their products are manufactured under sanitary conditions and under their personal supervision. The tobaccos used are the finest that money could buy, and their one object is to secure a brand that will meet the approval of the local smokers.

Ask your dealers for their brands. They will not retail in any form. Their brands are Walpole, bit cigar; Don Ventura, ten cent straight goods; Bob Bowman, ten cent straight; Yankee Effort, five cent straight. Here is a home industry that will furnish reliable goods at the prices paid for outside stuff. Help this enterprise along by patronizing them.

Death of J. A. Doak.

J. A. Doak, one of Oregon's well known pioneers, died at his home near Bear creek, five miles south of Bandon, last Sunday morning at eight o'clock, aged 67 years. Deceased was born in Pike Co., Mo., Feb. 16, 1840, and when but 6 years of age crossed the plains with his parents, who settled 6 miles below Salem. He came to Coos county in October, 1872, and settled in Fishtrap. He was married to Sarah Gibson at Franklin, Lane Co., and married again to Isabel Batts of Sonoma Co., Cal., on July 20, 1871, who is now living. He had two children by his first wife, one of whom is still living, and seven by his second wife, 5 of whom are still living, as follows: W. A., J. H., Mrs. N. E. Barklow, Mrs. Guy Drew and Mintie.

The funeral was held Monday at 2 o'clock and the remains were laid to rest in the Prewett cemetery. His was a stern upright character, and he was a devoted father and husband. He had a large number of friends in this county and all over the State who will greatly miss him. He was ill but a short time and the cause of his untimely death was pneumonia brought on by the grip.

Notes From Four mile.

George Hurlbert of Southern California is visiting his cousin, Delos Gardner, of Four-mile.

Cal Shields and wife have been visiting their son Gene, whose wife has been seriously ill the past week but is now on a fair road to recovery.

A surprise party was given to Mr. Johns and wife. The worthy people were greatly surprised, and a pleasant time was reported.

The roads are in better condition than they have been since last fall. There has been three small whales or black fish washed ashore near the mouth of Four-mile in the past few weeks; the largest was about twenty feet long and the other two measured about six feet each.

Notice to the Bandon girls. The Four-mile girls' advice on the bottle question is good, but one thing, carry sweet milk; it gets stale on Four-mile. **TUX KID.**

The Masher Gets Mashed

H. A. YOUNG GETS HIS
Learns a Well Deserved
Lesson that will last
him awhile

There is a sadder, and, if we mistake not, a whole lot wiser man, if such as he can be so called, in this section of the country. The L. R. Polk Company, which is getting up a directory of Coos county, had in their employ one known as H. A. Young. It was a part of his duties to make a house to house canvass in order to take the census. He did this work in Bandon, but was very objectionable to the people on whom he called.

It seemed to be a favorite topic of his to tell various ladies of Bandon how lonesome he was and how much he would like a trip on the beach, and a lot of other offensive conversation. But like a great many others, he struck a snag and got his. After making himself particularly objectionable to one young lady in Bandon, she told her brother who straightway went to look for the census taker. They met just outside of the Hotel Gallier door, and there was 'steed different kinds of fur flying, mostly census fur. He didn't make much of an attempt to defend himself, and when the smoke had cleared away his face looked as if Maude had given him a gentle love-pat between the eyes with her dainty hoof.

To clap the climax, the city authorities had Young arrested and but for the fact that the various complainants did not appear against him the next morning, he would have been given the opportunity of a free ride to the county jug.

The L. R. Polk Company deeply regret this unfortunate circumstance and have discharged this person from their employ. He has been with them for five weeks, in which time he has always acted the part of a gentleman. He will probably think twice before attempting to "mash" in the next town he strikes. He is a medium sized man with a dark mustache and his face is pretty badly cut up. Put a "Kick me" label on him and escort him to the city limits if he blows into your town.

Remember the Rebekah Ball at the Bank Hall, Saturday night, April 27th.

Port Orford Notes.

From the Tribune.

The Berwick called here Wednesday evening on her way to Rogne river from Coos Bay. She anchored in the harbor over night and next morning landed a few tons of freight for our merchants, being too heavily laden for Rogne river to bring much.

B. W. Dean was in from the cape Monday and says that there are 12 men at work on the construction of the wireless station, and that five naval men are there to install the plant, machinery, etc. Commander Gearing of the Navy is expected to arrive any day.

Miss Jessie Junkin, who is a trained nurse, arrived on the Berwick, having come to Marshfield from San Francisco by steamer, via Portland. She is a niece of C. W. Zumwalt, and came to nurse her little cousin. Weston Zumwalt who was operated on some weeks ago for an abscess in the breast.

C. W. Zumwalt is collecting small samples of black sand from our various beach mines, and send them by mail to Los Angeles to parties who are investigating such property with a view to extensive investment and development. At no other place on the coast are there such extensive deposits of black sand, rich in gold and platinum, as in the benches of Curry county.

Mr. Boyton, representing the grocer firm of Martin, Dangers and Camm of San Francisco, spent Saturday and Sunday in Port Orford. He is an old Humboldt school mate of Prof. Johnston and an ex member of the California legislature, whom it is a pleasure to know. Agate beach was a revelation to him, and he found some fine stones and says he will always long to return to this home of ataral attractions.

4-room house, barn and 2 lots, fine location; price \$1,050, \$700 cash, balance on time; owner wants to leave country. E. E. Oakes.

Tyler-Porter.

Last Saturday, at high noon, Cordelia Alice Porter and Grafton Tyler were married at the residence of Mrs. Geo M Dyer. Rev Wm Horsfall performed the ceremony, and the young couple left on the noon boat for a short trip, returning Tuesday.

The bride is a ward of Mrs Geo M Dyer, with whom she has lived since childhood, her home being in Bandon most of the time where she has a large circle of friends.

The groom is formerly of Cincinnati, Ohio, and is at present with the Bandon Woolen Mills as bookkeeper. He is a popular young man of good habits and well liked. He has been in Oregon something over a year.

The wedding was very quiet, only a few immediate friends and relatives being present. The Recorder wishes to join their many friends in wishing the young couple a happy and prosperous future.

Methodist Church.

Services at the Methodist Episcopal Church next Sunday, April 28th: Sunday school at 10 a.m.; see that the children are there. Preaching at 11 a.m. Class meeting following led by Bro. J. H. Young. Epworth League at 6:45 p.m. Song service at 7:45, followed by sermon, subject—"Where are the Chiefs?"

The Sunday school room will be opened. Come early to get a good seat. Just one more word. Every one regardless of clothes or conditions are invited to these services. Get out of the rats and start the church going habit now. You will get a warm welcome.

To the Folks at Prosper: Gospel meeting song services will be held in the Prosper Hall next Sunday as usual, and you will miss a good time if you are not there. Meeting begins at 2:30 p.m. Subject of short talk—"The Man in the Thrashing Machine." You will enjoy the singing. Come and spend the hour with us.

About 6 tons of loose hay, give me a bid on it. E. E. Oakes.

Notice to Debtors.

Notice is hereby given that Edwin Ellingsen, of the Bandon Furniture Store, has sold out his interest in the business will be conducted by U. undersigned, as manager. All outstanding accounts are asked to be settled at once in order to close the affairs. The books are at up store, and the undersigned will the best and receipt for same.
N. C. MEDLEY.

Celebrate the 4th at Bandon

A GRAND CELEBRATION

Spend a Day at the Seashore, A Picnic for Everybody.

Bandon is going to celebrate this Fourth of July and things are going to be done up brown. All of the towns along the river are going to be invited to help pull the eagle's tail and the smell of powder will fill the air with patriotism of the small boy.

For your itinerary for the Fourth simply put down, "I am going to Bandon-by-the-sea!" We are going to have a base ball team here this year that is going to skin all of them in this section, and a good game will be arranged for the glorious Independence day.

There will be pink lemonade for everybody; the regular speeches and sports; the burnt fingers; fireworks in the evening; a regular good old fashioned Fourth of July.

Committees will be announced soon, and you can mark it down, that you will spend the day of your life in the pleasant ocean breezes.

Fish are biting fine, and there's plenty for you if you use the right kind of tackle. The Bandon Hardware Store has the best.

8 room house with three lots, fine view and good location for \$3,500. E. E. Oakes.

Installing Typewriters.

E. M. Furman has been installing a number of the Sun visible typewriters in this community. This little machine has a standard key board and has been adopted by the government in the Army department. He has the exclusive agency in this territory and will be pleased to mail you any information on its merits that you may ask for.

A distinct feature of this machine is that you do not have to use a ribbon. The type is inked by a pad and you always have a nice clean print. For any additional information address him at Bandon.
