"It's going to rain on the Fourth, it always does, and always will; anyway, if it don't rain, the wind will blow something awful!" We overheard the above remark several times the past week. Forget it, and be patriotic enough to prophecy good weather anyway.

A faint odor of gasoline, and the far distant chug-chug, tells us that Bandon will soon have a real sure-enough devil wagon. This shows we are booming, and here's hoping it is painted red.

The Post Office has received a new coat of paint which not only greatly improves the appearance of the building, but makes the official duties therein a pleasure rather than to the contrary.

Bandon will soon be supplied with telephones galore. It seems to be a regular lodestone for the hello business. L. Dooner is now working on his telephone system, and the Pacific States people have stated they will commence work immediately after the Fourth. Looks as if all good things come to those who wait, and everybody knows we have waited a long time for them to get installed.

Capt. A. Scott has returned from his trip to Humboldt Co., Tuesday, and says everything is pretty dull at Eureka. He went down the coast with a herd of cattle some weeks ago for Messrs Walker and Rhoner. He has new potatoes that are over seven inches in length and are equally large in width in proportion. They are good looking and he says it is nothing out of the ordinary. While the inside potato market is congested there is nothing like being able to use your home product, and then to be satisfied it is not only just as good but better.
