Dygart & Law and a force of carpenters have been at work the past week painting and building counters and racks for the new Gambrinus Brewing Co.'s depot in the old Panter building. The new company expect to have their stock here in a short time and will then open up for business.

The new firm have made application to the city council for a license to retail liquor. They have stated that the license will not be used and they have not installed a bar. Their petition, which was circulated among the voters of this place, was signed by all of the saloon keepers except one, we are told, which evidently shows their good will toward such a new enterprise. Situated as they are here, they can supply the river trade much cheaper to the retailer than they could heretofore buy from the cities.

They will shortly arrange for a cold storage plant here and now have options on several pieces of desirable property for that purpose on the water front. The new plant will be modernly equipped in every detail.
