A couple of years ago a cranky sort of an old man came into this office and stopped his paper because something in it did not suit his fancy. We have frequently met him on the street since that time, and it is amusing to note the look of surprise on the old fellow's face that we are still in existence regardless of the fact that he stopped the paper. Someday—and it won't be long either—that old gentleman will turn up his toes. His heart will be stilled forever. Neighbors and friends will follow his lifeless clay to the silent city, and lay it to rest among the flowers. An obituary will be published in these columns telling what a kind father, a good neighbor and beloved citizen he was—which the recording angel will overlook for charity's sake, and in a very short time he will be forgotten. As he lies out there in the cold, cold graveyard wrapped in the silent slumber of death, he will never know that the last kind word spoken of him was by the editor of that paper which in life he so spitefully "stopped." Did you ever pause just a moment and think that your editor, whoever he may be, will write your obituary some day?—Exchange.
