

BRIEF GLEANINGS FROM OVER OREGON

SCHOOL ATTENDANCE GOOD ON START

Lid to be Placed on Independence, - Convict Escapes.

McMinnville, Or.—McMinnville College began enrolling students Wednesday for the Fall term. Over 140 were enrolled against a little over half that number the first day last year. An opening service was held Wednesday evening at the Baptist Church. Mayor W. T. Macy made the address of welcome to the students and in closing his remarks said the homes of McMinnville would be open to them and for them to consider that they had an uncle in every house in McMinnville. The principal address of the evening was by Rev. John M. Linden, of Oregon City. McKee Bros. and Misses Pengra and Seiters furnished music for the evening.

Salem, Or.—The summary of deaths and injuries from railroad wrecks, derailments, etc., as reported to the Railroad Commission for August, shows that there was a total of three killed and six injured. Of the killed two are listed as employees and one is placed under the head of "other persons," and of the injured, two were passengers, one an employe and three "other persons."

Salem, Or.—When John White, guard over a crew of convicts engaged in baling straw in the penitentiary field, checked up his gang Friday morning it was found that Otis Brown, a convict doing two years from Grant County for larceny, was missing. Brown, who was sentenced in August, 1906, evidently made his escape during the night, the baling crew being camped in the field. Bloodhounds were put on his track and trailed him to the fair grounds, where the scent was lost.

Independence, Or.—The lid is to be put on Independence if the orders of Mayor Hanna are carried out, he having instructed City Marshal Collins to see that all slot machines and other gambling devices are removed. This move on the part of the Mayor is especially noteworthy, inasmuch as the City Council, with one exception is in favor of an open town.

Pendleton, Or.—By November 1 if present plans are carried out Pendleton will have a first-class pasteurizing plant, costing about \$1,000, will be established in the Pendleton Creamery building, and practically all the milkmen of this city, who now operate independent deliveries, will sell their milk at this depot.

Eugene, Or.—Local contractors have received notice from the Southern Pacific company that bids for the erection of a one story brick depot building in Eugene will be opened on October 12. Several weeks ago Manager O'Brien made an absolute promise to a committee of Eugene business men who called upon him that Eugene was to have a new depot and that work would begin before January 1. It was announced that \$12,000 would be expended on the building, but now it is reported that the company will put twice that sum into the structure. The plans for the new building have not yet been seen here, but it is said the depot will be one of the finest on the coast.

Medford, Or.—Following the "closing lid" order of sheriff Jackson came the meeting of the cigar dealers owners and lessees of slot machines, at which it was decided to make a test case of the sheriff's right to enforce such action, and if necessary carry the case to the Supreme Court.

Two machines, one that pays coin and the other cigars, were kept in action last night and today. The Sheriff was advised of the fact and notified the proprietors that a complaint would be filed against them. Leaving his orders to be enforced by the City Marshal, Sheriff Jackson left for Salem, where he will also consult legal authority in carrying out his orders. The right of cigar dealers and others to operate the machine is based upon a clause in the city charter made by the Legislature in 1905, to license and regulate slot machines. This charter, it is asserted, nullifies the state law passed previously. The outcome is anxiously awaited by both sides. Medford is entertaining the world's champion marksmen for two days.

This weather makes you think about an overcoat, doesn't it? You can get the best in town at Lorenz & Hoyt's.

Celebrate Their Fifty-Sixth Anniversary.

The fifty-sixth anniversary of the Rebekah Lodge was celebrated here by the Ocean Rebekah Lodge No. 126, last Saturday. A dinner was served at noon and supper at six o'clock. The evening was spent in progressive whist. Ten tables were filled and a most enjoyable time ensued. A midnight supper was served, after which several of the party went over to the Bank Hall and attended the dance given there.

The Bandon Hardware Co. have received a new line of stoves and ranges. They have heaters that heat and ranges that cook. They guarantee them and ask you to call and see them.

Important to Cruisers.

I want every reputable Cruiser in Southern Oregon to send me his name and address, upon receipt of which I will send him information that is of virtual importance to himself and his business.

Address, H. G. Wolf,
Roseburg Oregon. 39

F. H. Van Norden is the right man to send your jewelery or clocks to for repairs. All work guaranteed. Bandon Drug Co.'s Store.

The Sun Typewriter.

The Sun Typewriter is a visible writer. It is a \$40 machine of rapid speed, perfect work and heavy manifold. It has a universal keyboard and it is guaranteed in every detail. The U. S. Government has adopted it as the standard machine for the department of the army. For perfect print and perfect alignment, it is not equaled by any other machine made.

You cannot afford to purchase a machine until you have failed in your attempt to criticise the SUN STANDARD TYPEWRITER No. 2.

The undersigned has the exclusive agency for southwestern Oregon, and can supply the trade from a stock on hand.

Send for descriptive printed explanation and photographic illustrations. E. M. FURMAN.

Address Marshfield or Coquille, Or.

Dr. J. G. Goble the well known Optician of Medford will visit Bandon during Sept. Dates given later.

THE NEW CODY MILL SAWS FIRST LOG TUESDAY AFTERNOON AT THREE O'CLOCK.

THE LATEST LABOR-SAVING MACHINERY INSALLED THROUGH-OUT THE PLANT
Entire Plant Covers Over Thirty-five Acres, - Log Boom will Hold 15,000,000 Feet of Logs, - Several Million Feet now Ready for Saws.

Tuesday afternoon this week, the first great log was hauled up the skid; rolled down on the huge carriage, of the new Cody Mill, and passed through the cavernous teeth of the big band saws, marking a new epoch in this industry for Bandon. For the past seven months, the most skilled workmen available have been engaged in the construction work of this plant, and while the buildings are not yet all completed, they are sufficiently so as to commence running. Innumerable small delays, common to equipping and getting a plant of this size in running order, have delayed the completion but from now on the busy hum of the saws will sound with the glad tidings of industry which is prevalent here.

The Cody Lumber Company have spared neither time nor money in making this mill of the latest pattern, and have equipped it with the most modern machinery on the market. Labor saving devices and appliances are in evidence everywhere, and today we have right here in Bandon, the largest operating mill in Coos County. This bespeaks a great deal of credit for the commercial bodies that have been untiring in their efforts to secure such an enterprise, which will give employment to a large number of men in the near future.

The location is probably the best on the river. It is on deep water and vessels can load at its docks and be towed out over the bar without having any unnecessary delay. The mill proper is 50x350 feet. This gives ample room to handle the finished product without crowding, and makes the working parts of the machinery available from all sides.

Counting all of the wharfs, yards and the log booms, the plant covers something over thirty-five acres of ground. The capacity of the log booms is something in the neighborhood of 15,000,000 feet of logs, and on the start they have 6,000,000 feet of available logs ready to run through the saws. The output is at present, when the mill gets in full running capacity, 100,000 feet of finished product per day. In the course of the next year a pony band saw will be added, and with the assistance of two re-saws the capacity of the mill will be 150,000 feet of lumber per day.

The machinery with which this plant is equipped, came from Belmont, New York. The large engines to furnish power for the plant, are of the Ames Co.'s manufacture, and very desirable for this class of work. They are twin model which have an aggregation of 800 horsepower, with a capacity to develop still additional power. A battery of four boilers furnish steam to run these engines. The engine room is a building 50x60 feet, and has a solid foundation of concrete and rocks built up around piling, driven all through it, making a permanent foundation. The belt ordered for driving the main shaft arrived several feet too short, and a splice had to be made, necessitating a delay.

The location of the new ship yard is such as to conveniently and quickly receive supplies from this mill on

short notice. In constructing the buildings a special feature was made to be able to provide ship timbers 120 feet in length. There is at present, no other mill in the county that can furnish such timbers.

In the top of the mill a saw filing and repairing room 40x50 feet, is equipped with the latest filing appliances. These are in charge of an expert filer and crew. All of the machinery has been placed with the view of labor saving and rapidity.

The large carriage is equipped with power set works, an appliance used only in mills of the most up-to-date order. By means of this device much time and labor is saved. Another feature and a money maker in the end, is the live rolls that are in evidence in every place where the lumber has to be handled. M. F. Logan has charge of the plant, and is a thorough mill man from the start.

At present the mill can be handled with thirty-five men, but we understand that a sash and door factory and a box factory will be considered in the future by the company, and the working force will necessarily have to be increased to 150 at least.

The plant and yards will be lighted by electricity. A dynamo has been ordered and is now on the road, with a capacity of over 400 lights. Incandescent lights will be used in the buildings for the most part, but the wharfs and yards will be lighted by arcs.

An essential addition to a plant of this kind, which has not been overlooked, is an adequate fire system. A pump and several hundred feet of hose will serve for any fire that might break out. A 20,000 gallon tank has been constructed in the rear of the mill proper and is filled with fresh water at all times. This comes from a spring under the plant. City water is used throughout the structures for drinking purposes. This gives them three means of securing water.

A new shed, 90x100 feet, will be built in the course of the next six weeks, and everything will be housed to protect the employees from the rain and wind, excepting the yards. The company have 1100 feet of water front which will all be utilized.

The steam schooner Bandon was constructed at Coos Bay for the purpose of carrying lumber for this new mill. It has a carrying capacity of 600,000 feet of lumber, and is so constructed as to draw little water when loaded. She is equipped with the latest twin screw marine engines.

The success of this new enterprise is not in the least doubtful, and the good wishes of the community and the many friends of those interested in the company are extended in predicting a successful future.

A. Haberly is selling a few small tracts of land near town, at reasonable prices and easy terms. Parties wishing 5 acres or more apply at once as only a limited number will be sold.

Dr. J. G. Goble the well known Optician of Medford will visit Bandon during Sept. Dates given later.

Farewell Party.

A farewell supper was given last Saturday evening at the home of Mr. and Mrs. P. C. Stephenson, by the Ladies' Art Club, in honor of Miss Kate Rosa.

On account of the dance Saturday evening, it was decided to give a midnight lunch, and the affair was kept a secret from Miss Rosa until time to leave the Hall. A splendid repast was served, which was followed by a couple of hours of merry-making.

The Ladies' Art Club have gained a reputation from their success in entertaining and all present spent a very pleasant evening.

Miss Rosa left Tuesday morning overland for Albany, where she will continue with her school work. She will return for the Christmas vacation.

Will Prepare Papers.

The Commissioner of the General Land Office has issued an order which requires the registers and receivers of all United States land offices to prepare all applications to make entries and filings on public lands when they are requested to do so by the applicants. This order will insure greater accuracy in papers of this kind, and be a saving to the applicants who have heretofore been required to have their applications prepared at their own expense.

Who said picnic? Are you going to get some of those sweet pickles and chipped beef from Lorenz & Hoyt's to take along? The picnic won't be a success unless you do.

Bring or send your watch to F. H. Van Norden the expert watch maker at the Bandon Drug Co.'s Store.

Winter is coming and it is time to think about the stove proposition. It is a well known fact that for a quick, hot fire, the air tight heater cannot be beat. With that view we have installed a full line, from \$2 up. Bandon Hardware Co.'s store, opposite the Post Office.

D. BOONE LOOSES \$5,000 DAMAGE SUIT

HAS TO PAY ALL COSTS OF THE CASE

Asks Damages for Alleged False Imprisonment in Bandon.

The damage suit brought by Daniel Boone against David P. Strang, for false imprisonment, was decided in the Circuit Court this week in favor of the defendant, the court holding that Mr. Strang did not imprison the plaintiff without just cause.

This case recalls the former case which brought about this suit. Some person set fire to the City Restaurant, at that time run by Mrs. D. Boone. There had been a family disagreement and Boone had been absent from home for some time, returning a few days before the attempted incendiaryism. His wife refused to see him, and witnesses saw a person of his description prowling about the premises. All evidence given went to show that the incendiary was familiar with the buildings, and Boone did not show any alibi.

Boone was suing for \$5,000, which he thought would compensate him for spending a day and night in the city bastille in company with his morbid thoughts and the numerous small guests that have accumulated and made the place a favorite stomping ground for some time. Every particle of evidence was such as to tend to holding Boone over to the Circuit Court, and probably the most surprised person in the room was his attorney when Justice Strang permitted him to go free.

The court levied costs upon Boone, and he will now probably leave this part of the country, as he has nothing further to accomplish.

RESOLVED
THAT IT IS SUCH A DELIGHTFUL FEELING TO GO TO BED AT NIGHT KNOWING THAT YOU HAVE SOME LOVELY THINGS TO PUT ON IN THE MORNING. ONE FEELS SO CONFIDENT AND SO COMFORTABLE
BUSTER BROWN

R. F. Outcault

SLEEP IS NOT REFRESHING UNLESS WE KNOW THE MORNING SUNSHINE WILL BRING US JOY. REST MELL AND YOU WILL FEEL BETTER. WE CAN SELL YOU GARMENTS-- BOTH OUTER AND UNDER, WHICH WILL PLEASE YOU SO WELL, YOU WILL HATE TO TAKE THEM OFF AND WHEN YOU PUT THEM ON IN THE MORNING YOU WILL NOT BE ASHAMED TO GO TO YOUR TASKS.

RESPECTFULLY,
O. A. Trowbridge
