DO YOU KNOW where Bluff, Coquille, Park, or any of the other streets and avenues are? No, and but very few do. Why not spend a few dollars and put up a street sign on every corner. Makes the town look more metropolitan and are as good as a book of information. The cost is nominal and their erection will denote one more stride out of the depths of moss-backism.

BANDON OFFERS the best opportunity to an up-to-date steam laundry man that could be found in any place in the state. One laundry here would not receive any opposition for a number of years, and would be a good paying business from the start. Several desirable locations are on the market at reasonable figures, and with a hustler in his line, a laundryman could live high here. We believe in patronizing home industry every time, and with that sentiment prevailing, a business man, in any line, can make a success here.

PROBABLY FEW of our readers know that the torpedo boat flotilla could steam in through our Coquille river harbor, almost at low tide. This is the case. These vessels are so constructed as to have a lighter draught, thereby making it possible to operate close to the shore where the larger vessels would not dare to come. They will draw between five and seven feet, and in case of any difficulties with foreign nations in the future, it may be possible that sometime we will have a visit from some of them.

HERE IS AN interesting dispatch from Washington: "Two hundred and fifty-three thousand tons of coal, exclusive of that to be shipped in government colliers, will be required to get the Atlantic battleship fleet to the Pacific coast and properly coal it at Mare Island, according to the estimates made by the equipment bureau of the navy department, which has called for proposals for supplying the necessary fuel. Of the aggregate, 133,000 tons are semi-bituminous, and the remainder Welsh coal. The former is to be shipped from Atlantic ports in vessels either in American or foreign register according to the terms."

DON'T BE A KNOCKER! If it rains, let it rain, don't howl about it. It will not make any difference, whether you talk about it or not. You wouldn't live in a country that didn't have rain, anyway. Don't think it is raining just to spite you. There are others that don't like it any better than you do. We are going to have a number of Easterners here this winter who are not familiar with the winter rains of Oregon. A good word, even for the rain, will make it more pleasant for them. The north wind has been growled at enough to forsake this country entirely. Might as well be thankful that it doesn't blow the year round. If you don't like your neighbor, move. If you don't like the town, leave. Don't knock!

A LARGE CROWD of would-be visitors at the State Fair on Portland day were forced to remain at home on account of the insufficient number of cars to accommodate the crowds. Fully 2000 had to remain at home, many of whom had been planning on this day for some time, and who had secured a day's absence to attend the fair on this day. And all they can do is to chew their finger nails and think good honest cuss words a mile long. "Every dog has his day" so they say, and the railroads seem to be having their's now, but maybe the time will come when the common everyday working man will have his chance to put his oar in, and the first time an opportunity comes to side step them

at the polls, they will arise as one and swat ye railroad octopus a mighty blow.

THERE ARE MANY new people seen on our streets since the Colonist rates have gone into effect, and all are here with a view of becoming residents. We offer a welcome to all, and with the many opportunities for the laborer and the many openings for the business man, there is no reason but what they will all prosper, and their relations here in our little city be of the most pleasant. Inquiries are received by the numerous real estate men and the secretary of our Development Association, daily, regarding Bandon, as to the location, and general information relating to this section. This week the Bandon Development Association had 5000 20 page booklets printed containing illustrations and condensed articles on our resources and opportunities. These will be sent out to those expecting to journey westward, seeking homes, and will bring many desirable people here. The residents of this place for several years past are noticing the rapid changes that have been taking place in the past year. The business section has been extended and new structures have changed the general appearance considerably, and the visitor in Bandon two years ago would fail to recognize the Bandon of today in our residence section. Lumber orders are in the local mills for buildings that are yet on paper. The new Cody Mill will greatly assist the builder. We understand it is their intention to fill all home orders as they come in, thereby giving them prestige over the outside shipments. We are surely growing, and this is but a beginning.

### Trouble in Canada.

Canadians attacked Japanese in Vancouver recently, and it is estimated that during the riot \$100,000 worth of property was destroyed. Dispatches say that the rioters destroyed property as follows: "General stores, thirteen; hotels, nine; candy and confectionery shops, seven; bath houses, two; barber shops, five; shoe makers, two; banking office, one; newspaper office, one; employment offices, three; restaurant, one; rice mill, one; hat-makers shops, one; tailors, two; watch-maker, one. Of these fifty stores, all the windows and door glass were smashed. Two Japanese were wounded." A Vancouver dispatch to the St. Louis Republic says: "The trouble began Saturday night when the Asiatic Exclusion League held a parade and later a meeting at which Lieutenant Governor Dunsmuir, who vetoed the bill introduced by the present attorney general to enforce the natal act in British Columbia, was burned in effigy, and a resolution was passed to ask the Dominion government to allow this bill to become law. It was after that the mob stormed Chinatown, deliberately smashing the windows in all stores.

Street orators gathered crowds who even swarmed up the telegraph poles, and a strong cordon of police across the street had all they could do to keep the mob from again entering the Chinese quarter. As there had been threats of burning, the fire brigade was ready with hose to use this method, if necessary, to keep the white mob back. While the speaking was going on, the sound of breaking glass was acclaimed with joyful yells by the hoodlums. Then the mob broke loose on Howell street, a few blocks away, in another direction, where the Japanese reside. Here windows were broken, also, but the Japanese resisted, and with bottles and boards attacked their assailants. Several people were injured in the counter attacks. From the Canadian Pacific railway wharves a dozen Japanese were thrown into the water, but were rescued. Three white men were stabbed by Japanese and two others were cut with broken bottles. A newspaper man, going home, was held up by a Japanese, and when the latter was taken to the police station a search revealed a murderous looking knife. All night bands of armed Japanese walked the streets, keyed to pitch by the excitement, and bent on revenge."
