MURDERED IN SIGHT of his own hearthstone, by a relentless persecutor who had dodged his steps for several days previous, Ex-Sheriff Brown gave his life for performing his duty, and in upholding the law. If the conviction of the perpetrators of this dastardly crime can be attained by money, or by the many officers who are working night and day on the case, his end will be speedy indeed. His apprehension will only be the word for a lynching by the fair minded people of Baker City and vicinity. Anarchism should receive a speedy extermination should the crime be traced to that source. The manner of the killing of Harvey K. Brown is similar to that of Frank Steunberger, and there is probably a connection between the two crimes. In his dying conclusions he denounced the Federation of Western Miners. Following is an editorial from the Tacoma News which comments on the situation:

Perhaps the Sheriff was wrong in his dying conclusions. It is difficult to believe that the Federation is involved in this murder. It is incredible that they could plot this crime or sanction it, or even have knowledge of it. If the motive for this murder had its inception in the Steunberger or Adams cases, where is the carnival of assassination to end? Brown was one of the least of those concerned in the late Hayward prosecution. Is the Governor of Idaho marked for death? Is Senator Borah? County Attorney Hawley? Mayor Haines of Boise? Are all the witnesses for the state? Some of these men live in expectation of the assassin's bomb or bullet or knife. The Governor finds it prudent, we are told, to be constantly prepared for death.

BLOCK AFTER BLOCK of sidewalk has been laid by property owners this year, and there remains more yet, that is contemplated. Streets have been opened up and straightened out. The new improvements on Atwater Street are well under way. Surely that is a good showing for the year's improvements up-to-date. The first cost is usually the bug-bear on such improvements. The increased valuation, which exceeds the cost of the improvement, is seldom figured upon. A problem which now confronts our city officials, and which is of serious consideration, is the matter of straightening out Main Street. The plat of the town originally ran the lines through the business center out in a direct line with the harbor buoy, and the extension and straightening of the street would necessitate the construction of considerable piling for the road and sidewalk. The west road into town from the hill would extend to intersect the main street, which, in case this improvement is made, will compel several property owners to move their buildings. A full view of the bar could be had then by looking up Main Street, and this would probably be the first step in opening up the Breakwater Addition for building purposes. There are a number of businesses that would be glad to reach the water front, which could not be done unless the street is extended so as to be able to get in and out. At present there seems to be no intention to proceed with this work this year, owing to the many other improvements the Town's money has been expended for, but this is one of the problems the town authorities have to contend with in the future.

### McKinley Monument.

The McKinley mausoleum, which was dedicated by President Roosevelt last Monday, stands on an eminence to which has been given the name of Monument Hill, about two miles due west of the McKinley home in the city of Canton. It is not an ornate affair, but its simplicity

is relieved by sufficient artistic embellishment to make it an object of beauty, as well as one of massive proportions and breadth of design.

Four states have contributed a share of the material which has been used in the building of the monument. The granite used in the approaches and the mausoleum proper are from the quarries of Millford, Mass. Tennessee has furnished the gray marble for the interior of the tomb, while the sarcophagi, which now hold the bronze caskets in which lie the bodies of Mr. and Mrs. McKinley, are of dark green granite from Windsor, Vt. The base upon which the sarcophagi rests is black granite from Berlin, Wis.

From the first step of the approach to the monument to the actual top of the structure is 163 feet, 6 inches, the mausoleum itself being 98 feet, 6 inches high above the summit of the mound. The top of the dome has an oculus 15 feet in diameter, through which comes a softened light, which adds greatly to the beauty of the interior.

The mausoleum is 78 feet 9 inches in diameter. In the center of the floor between the dome stands the sarcophagi containing the bodies of the president and Mrs. McKinley, and in niches on the north side of the dome are the caskets containing those of the two daughters, Ida and Mary, who died in infancy.

Huge doric columns are placed around the interior in such a manner as to appear half buried in the sides of the building. The floor is of mosaic marble, having been brought from many states for the purpose.

Half way down from the top of the 125 granite steps that lead up to the main entrance on the south side of the mausoleum stands an heroic bronze figure of President McKinley representing him in the attitude usually assumed when speaking, his left hand holding a roll of manuscript and the right hand in the trousers pocket. Behind the figure is a bronze chair encircled with a wreath and draped with the flag of the United States. The bronze figure which is 9 feet high, stands on a pedestal 18 feet from the base to the feet of the figure.

Twenty-six acres of ground were purchased by the monument commission, and the utmost art of the landscape gardener has been lavished upon the grounds. Natural streams flow past the base of the mound, and trees and flower beds have been arranged with an eye to the greatest artistic beauty.

From the entrance to the grounds on the south to the foot of the mound is 590 feet, and along this distance a double driveway 175 feet in width has been constructed. Between the two sides of the driveway is a lagoon, which is constantly filled with fresh water. Long rows of trees flank the lagoons and driveways.

The mausoleum and grounds have been built and arranged at a cost of \$500,000, and it is the intention of the commission to raise an endowment fund of \$150,000, which precludes the charging of a fee for admission.

At the next meeting of the mausoleum trustees, custodians will be chosen, and it is the intention to ask for the indefinite detail of soldiers of the regular army to guard the tomb.

The architect was H. Nauburn Magonigle, of New York, and the designer of the bronze figure standing before the mausoleum, was Charles Henry Nichols.—Umpqua Valley News.

### What We Eat.

The cheap things are undoubtedly the worst, for the poor are at the mercy of the small local dealers, but we are all of us eating and drinking dyestuffs by the quart. Of 55 samples of canned tomatoes analyzed by the government experts 25 were found to

contain preservatives. Eosin, a red dye, is used to color inferior tomatoes. Eighty-six out of the 98 samples of French peas contained copper, and so did 29 out of 43 cans of American peas. String beans are even worse. Canned corn is whitened with acids. Out of 41 cans examined, 24 contained preservatives. Of 394 samples of molasses 167 contained glucose and one third of them showed the presence of tin. Sixty-three samples of maple sugar were adulterated with glucose.

One sample of honey labeled 75 per cent common syrup and 25 per cent extract honey, was found on analysis to contain no honey at all but 85 per cent of glucose, colored with coal tar dyes. Two hundred samples of candy contained paraffine. Candle grease is particularly prevalent in caramels, chocolates and molasses candy. A kind hearted woman invited a company of Italian girls who worked in a candy factory to a Christmas party. She had an entertainment and Christmas tree for them, and among other things was a box of fine chocolate creams for each one. When they went away every child left her box of candy on the chair behind her. "Why, aren't you going to take your chocolates?" said the surprised hostess. "Oh, no, they said in a chorus, we make those." Chocolate creams are varnished to give them that nice, glossy coating, and gumdrops and stick candy are colored with red and blue aniline dyes.

Our butter gets its nice yellow color from coal tar dyes, to say nothing of the oleomargarine in it. Ninety-five per cent of all samples of butter submitted were adulterated. We are eating practically no pure butter. Most of the jams and jellies of commerce are adulterated with glucose and colored with coal tar dyes. Eighty per cent of the cream of tartar examined by the government contained alum, starch and calcium sulphate. Coffee is made from all sorts of things, even from the sweepings of bakeshops. A large quantity of coffee was held up recently because it contained a large proportion of common clay. One manufacturer of mustard has yellow ochre sent to his factory by the ton. Mustard is dyed with a poisonous form of coal tar dyes. In a pepper factory one man has nothing to do but wheel dirt, that being the cheap and convenient form of adulterant used there for ground pepper. No man can say what he is eating when he tastes pepper.

The variety of things found in it make the head swim. They include red sandal wood, wheat, corn, buckwheat, aniline dye, grain hull, rice, pea, and bean shells, cornmeal, sago, coconut shells, olive meal, linseed meal, sawdust and sand. One may think to get around this fraud by buying pepper whole, but gets tapioea dyed with lampblack. The same adulterants, with the addition of gypsum, tumeric, charcoal, bark and a few other things, are found in spices. Ground rock enters in our baking powder and husbands complain because the biscuits are heavy. There is formaldehyde in the milk and we speak of an inscrutable Providence which removes the babies. One of the meanest ways of adulteration is of blackberry brandy, because it is bought for invalids, aged and delicate persons who hope to get a little strength

### CONTEST NOTICE.

Department of the Interior,  
U. S. Land Office at Roseburg, Or.  
June 12, 1907.  
A sufficient contest affidavit having been filed in this office by Edwin E. Stillwell, contestant, against homestead entry No. 13135, made October 6, 1903, for the NW 1/4 of Section 25, Township 29, S. Range 15 W. by Robert A. Doak, contestee, in which it is alleged that said Robert A. Doak has wholly abandoned said tract and changed his residence therefrom for more than two years since making said entry and next prior to the date herein; that said tract is not settled upon and cultivated by said party as required by law; that said absence was not due to employment in the military or naval service of the United States in time of war, said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on July 30, 1907, before C. T. Blinn, Notary Public, at his office at Bandon, Oregon, and that final hearing will be held at 10 o'clock, a. m. on August 13, 1907, before the Register and Receiver at the United States Land Office in Roseburg, Oregon.  
The said contestant having, in a proper affidavit, filed June 10, 1907, set forth facts which show that after due diligence personal service of this notice cannot be made, it is hereby ordered and directed that such notice be given by due and proper publication.  
BENJAMIN L. EDDY, Register.

and appetite from it. Out of 600 samples examined, 466 contained no trace of blackberries. They were made of crude spirits colored with coal tar dyes.—Ex.

Officers of the Geo. W. Elder, arriving to Portland from San Pedro and way ports report that the work of saving the steamer Corona, wrecked on Humboldt bar last spring is progressing satisfactorily. A big part of the cargo has been removed from the vessel and nearly all of the baggage. Everything taken off the craft is practically ruined. Recently the Corona was purchased by the North Pacific Steamship Company, owner of the Elder and Roanoke. If the vessel can be repaired she will be placed in service in the coast trade outside of Portland. C. P. Doe, general manager of the line, is at the scene superintending operations. He will arrive in Portland early next week.

### Notice of Dissolution.

Notice is hereby given to the patrons of the Robinson & Wright Meat Market that after this date the business will be conducted by W. N. Wright alone. All accounts due the old firm are asked to be settled before November 1st., and all bills against the firm will be paid at the shop. Make all payments at the shop. We respectfully ask that these accounts be settled by this date as we wish to have all of the business accounts closed by that time. Thanking you for past patronage and soliciting a continuance in the future, We are,  
Tex Robinson,  
W. N. Wright.

Dated this 3rd day of Oct. 1907.

### For Rent.

Office rooms in Devereaux Bld'g, upstairs near the Post Office. Inquire of Tom Devereaux or call up on the Bear Creek Phone.

The Bandon Hardware Co. have received a new line of stoves and ranges. They have heaters that heat and ranges that cook. They guarantee them and ask you to call and see them.

TIMBER LAND ACT, JUNE 3, 1878.  
NOTICE FOR PUBLICATION.  
United States Land Office, Roseburg, Ore.,  
August 7, 1907.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Marie M. Houston, of Bandon, County of Coos, State of Oregon, has this day filed in this office her sworn statement No. 8487, for the purchase of the NW 1/4 of SW 1/4, SE 1/4 of SW 1/4, and NW 1/4 of SE 1/4 of Section No. 15 in Township No. 29 S. Range 14 W. and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish her claim to said land before L. A. Lajqueur, U. S. Commissioner at Marshfield, Oregon, on Wednesday, the 6th day of November, 1907.

She names as witnesses: Edward Ohman, A. E. Hadsell, G. B. Cox and Geo. E. Wilson, all of Bandon, Coos County, Oregon. Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 6th day of November, 1907.  
BENJAMIN L. EDDY, Register.

### Trespass Notice.

Notice is hereby given that any trespasser found in any manner trespassing upon any of my mud-flats, will be prosecuted to the fullest extent of the law.  
C. TIMMONS.

### For Sale.

Six large lots on Bluff and Coquille Streets, cheap. Apply to George F. Williams, Bandon. 43.

Dr. J. G. Goble the well known Optician will be at Bandon Tuesday and Wednesday, Oct. 15th, 16. Office at Hotel Gallier. Eyes examined free of charge.

Winter is coming and it is time to think about the stove proposition. It is a well known fact that for a quick, hot fire, the air tight heater cannot be beat. With that view we have installed a full line, from \$2 up. Bandon Hardware Co.'s store, opposite the Post Office.

### THE MERCY HOSPITAL

At North Bend

Is now open for the reception of patients. The terms are \$10 per week and upwards. For particulars apply to : :

### Sisters of Mercy

North Bend, Or.

Marshfield, Phone 411.

## Say, Mr. Merchant!

You have been trying to improvise some practical method of introducing your new goods. Well! Here is a tip that can be summed in a word—Glass Show Cases. Get the idea? An article properly displayed will sell on sight. Put in a couple and inside of a year the additional sales derived from that source, will pay for them. All up-to-date establishments are having them installed.

### Another Practical Suggestion

Did you ever stop to think that you may be judged, by strangers, by your correspondence? If your letters are neatly type written they will always give a business dignity in no other way attained. The Underwood Machine excels all others in every respect. We sell them.

## The Modern Company,

W. C. Bradley, Mgr. Marshfield
