

A Word to Holiday Shoppers

---Useful Gifts are the Best.

For the past six months we have been engaged in the mercantile business in Bandon, and each month's sum total of business shows an increase of over that of the month previous, larger and more than we had expected. There must be a reason! People will spend their money where they can be treated courteously, and principally, where their money goes furthest. We have always made an effort to satisfy our customers in their purchases. If we don't happen to have what they want, we get it for them. No stock is so large and complete that it contains everything in its line. We do not believe in misrepresenting a single article in our ads, and when you look over the balance of this page you can rest assured the goods are as represented. Our first year of business has so far been very pleasant, and we wish to extend our utmost appreciation with our best wishes for a Merry Christmas and a Happy New Year.
