Special Prices Prevail for Practical Presents Suitable for All Mankind. Buy Substantial, Useful Gifts.

**C**HRISTMAS remembrances are always difficult of selection for a great many people, and it often happens that some useless novelty or trinket is chosen in the belief that some people hold that Christmas presents should be something that the recipient wouldn't buy himself. There is nothing more appropriate for members of the family or intimate friends than some seasonable gift in wearing apparel. In the suggestions offered in this announcement you will find a number of articles which are particularly acceptable to men and boys. In our clothing section you will find Suits and Overcoats of high-class; and in practically all lines, we have made special price reductions for the season.

### New Fall Styles in Shirts, Gloves, Neckwear and other Furnishings

**W**HILE there are few apparent changes in style or color in the various kinds of Furnishing Goods, yet each season brings out something different. The Fall offerings, selected carefully from the leading manufacturers, are, we think, representative of the best of new ideas, and include the staple shades and forms which are always in great demand. We believe that we offer the best values in our various kinds of Furnishing Goods which it is possible to give. In neckwear, quiet patterns prevail, although the helio shades and other odd patterns in either light or dark shades are very popular for early Fall wear. We call attention to some of the articles that are especially worthy of mention for early buying.

## At the Home of Reliable Clothes.

Our showing of the Fall and Winter Styles is unexcelled in desirability or value. When we speak of values, we imply the existence of two things—moderate price and unquestioned quality. **RELIABLE CLOTHES**—and we are exclusive agents for the I. G. Bing line of clothing—combines these two very attractive features. We know personally of many instances, where the same goods of other makes are sold at an average of \$3.00 per suit more than we ask. The fame of our **RELIABLE CLOTHES** rests on their unquestioned quality of materials and workmanship. It's claimed that 80 per cent of all clothes are doctored with the hot flat-iron in the course of making. Faults that occur in the cutting or sewing, that should be corrected by hand needle work, are "covered up by SHRINKING or STRETCHING by Dr. Goose, the Hot Flat-Iron." **RELIABLE CLOTHES** are revised when necessary by old-fashioned hand-needle work, and it's this fact that enables us to guarantee them against the faults of ordinary clothing. We invite your inspection of the many new styles and fabrics.
