

All Humors

Are impure matters which the skin, liver, kidneys and other organs cannot take care of without help.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them. They are removed by

Hood's Sarsaparilla

In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1.

Appetite.
Investor—What's your idea in wanting to buy that trolley line? It doesn't compete with your system. It's merely a feeder.

Railway Magnate—Well, don't you suppose we want to do our own feeding?

Seven hundred dollar suit is one of the items in a bill for \$3,480 for clothes which Mrs. Howard Gould wants her husband to pay as necessities of life.

S.S.S. CURES MALARIA

Malaria is due to impurities and poisons in the blood. Instead of being rich, strong and healthy, the circulation has become infected with germs of disease which destroy the rich, red corpuscles that furnish nourishment and strength to the body, and reduced this vital fluid to such a weak, watery condition that it is no longer able to keep the system in health, or ward off the countless diseases and disorders that assail it. The loss of these red corpuscles takes the color and glow of health from the cheek, and we see pale, sallow faces and washed out, chalky complexions among the first symptoms of Malaria. But Malaria is a general systemic disease, and as the blood becomes more heavily loaded with its germs we have more serious and complicated symptoms; the impure blood having its effect on all parts of the body. The appetite fails, digestion is weakened, chills and slight fever are frequent, and the sufferer loses energy and ambition because of a constant tired-out and "no account" feeling. The lack of necessary nourishment and healthful qualities in the blood causes boils and abscesses, skin affections, and in some cases sores and ulcers to break out, and sometimes the patient is prostrated with a spell of malarial fever which may leave his health permanently impaired. To cure Malaria both a blood purifier and tonic are necessary, in order to remove the cause and at the same time build up the system from its weakened and run-down condition. S. S. S. is the medicine best fitted for this work. It is the most perfect of all blood purifiers, and the purely vegetable ingredients of which it is composed make it the greatest and safest of all tonics. S. S. S. goes down into the circulation and removes every trace of impurity or poison, and at the same time gives to the blood the health-sustaining qualities it needs. It cures Malaria thoroughly and permanently because it removes the germs and poisons which produce the disease, and while doing this tones up and strengthens every part of the system. When S. S. S. has cleansed the blood the symptoms pass away, the healthy color returns to the complexion, the old tired, depressed feeling is gone, and the entire health is renewed. Book with information about Malaria and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Gifts to His Reward.
Hewitt—I see that Grout, the life insurance agent, is married.
Jewett—Yes, and his marriage is a case of the irony of fate.
"How is that?"
"He didn't know until after he was married that the woman in the case carried a lot of life insurance, and now he will have to keep up the premiums on her policies."—Harper's Weekly.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, setting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving it a permanent strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

Consulting:
"Poor John! He was a kind and forbearing husband," sobbed the widow on her return from the funeral.
"Yes," said a sympathizing neighbor; "but it's all for the best. You must try and comfort yourself, my dear, with the thought that your husband is at peace at last."—Sketchy Bits.

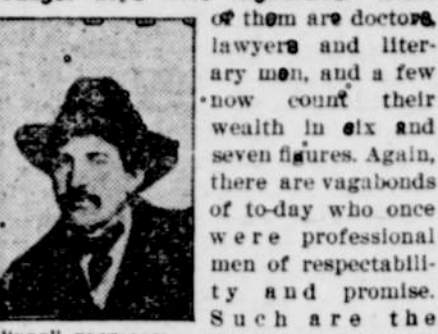

Familiar Sign.
Church—I see the public service commission has recommended side doors on the railroad cars.
Gotham—And will they expect to have the words "family entrance" over them?—Yonkers Statesman.

Floored.
"You say there's no such thing as matter? Then there is no such thing as a gas meter. Yet you are paying out good money for 8,000 feet of gas registered by a machine that doesn't exist."
"Certainly; there is no such thing as money."

During 1900 I was running a farm on the Mississippi river and became so impregnated with Malaria that for a year I was almost a physical wreck. I tried a number of medicines recommended as blood purifiers, chill cures, and Malaria eradicators, but nothing did me any good until I began to use S. S. S. The result was that after taking it for awhile I was as well and strong as I ever was. I have never had a chill since nor the slightest symptom of Malaria. I hope others will be benefited by my experience, and with that end in view I give this testimonial, knowing that S. S. S. is the best remedy for Malaria.
Amory, Miss. S. R. COWLEY.

FROM DOCTOR UP STAIRS

There are a number of very successful men in this country who in their younger days were vagabonds. Some of them are doctors, lawyers and literary men, and a few now count their wealth in six and seven figures. Again, there are vagabonds of today who once were professional men of respectability and promise.

Such are the changes which are constantly brought about by time. One man who has seen in his lifetime vicissitudes running to the extreme is B. L. Reitman, whose picture is herewith presented. He is generally known as "Doc" Reitman. Of good family and education, he graduated in medicine, and for a time practiced his profession. Then drink and the wanderlust, which to a greater or less extent lies dormant in the best of us, conquered him and he degenerated to the aimless and homeless condition of a tramp. After several years of vagrancy the doctor "found" himself again, and successfully fought out the battle against drink and bad habits. Now he devotes himself to the unfortunate, traveling about the country, speaking at missions and trying to make the wanderers he meets realize the folly of continuing their habits of life. He has theories about the treatment of the homeless which conflict with generally accepted practices, and his personal experiences make his opinions worthy of consideration.

CAUGHT IN PRAIRIE BLIZZARD.

How School Children of a Nebraska Town Were Helped Home.

Last Sunday was the twentieth anniversary of the great blizzard of 1888 in Nebraska and Northwestern Iowa," said G. D. Riggs the other day. "I was living in O'Neill, Neb., at the time, and had just left the office to go home for dinner when the blizzard struck."

"I started to cross the street to a drug store, but when I reached the other side I found myself half way down the block from my destination.

"The fine, wind-driven snowflakes filled the air so that I couldn't see my hand before me. I finally worked my way back to the drug store, where a number of other men had taken refuge from the storm.

"School had just been dismissed for the noon recess, and we knew that nearly 300 children were out in the storm. Securing long ropes, the crowd started out to rescue them. We found them huddled in doorways and by the sides of buildings. The children caught hold of the ropes and were led to shelter by their rescuers, whose sense of direction gradually returned to them. Every one of the 300 school children in the town was got home in safety.

"But seven school teachers were frozen to death in the country during the blizzard and thousands of cattle died. The thermometer fell from about the freezing point at noon to 20 degrees below zero that night. It was the worst blizzard I ever saw, and I never want to experience another like it."—Des Moines Register and Leader.

No Come Back.

Some of the West Indian Islanders have learned that when a foreigner misbehaves on their shores it is better to suffer in silence than to mete out punishment at the risk of a descending gunboat from the miscreant's native land. A judge in Haiti, however, recently took occasion to pay off old scores and to redeem his self respect in the case of an offender brought before him.

To his first question as to the nationality of the accused the interpreter had answered that the prisoner was from Switzerland.

"Switzerland?" said the judge. "And Switzerland has no seacoast, has it?"
"No seacoast, your honor," replied the interpreter.

"And no navy," continued the judge.
"And no navy, your honor," was the reply.

"Very well, then," said the judge, "give him one year at hard labor."—Brooklyn Life.

A Mendacious Timepiece.
Mrs. Ford had been paying a charitable visit to poor old Victorine Dupreux, whom she found crippled with rheumatism. But if Victorine's limbs were disabled, her always entertaining tongue was not, and the time passed swiftly.

"Mercy!" at last cried the lady, glancing at the clock that ticked wheezily above the French woman's stove. "Here it is five o'clock, and I should have gone home half an hour ago!"

"Geeve yourself no distress, madame," reassured Victorine. "Monsieur dose clock, she sees tole lie hon herself for more nan seex year. She sees now to a preciseness one hour fast n' fifteen minute slow."

An Ambition.
"Why are you so ambitious to have all the railways in existence under your management?"
"I want to be in a position," answered Mr. Dustin Stax, "where I can have my transportation in my pocket, no matter what part of the world I may strike. I don't want to be obliged to stand in line to await the leisure of a nervous and overworked ticket seller."—Washington Star.

Does Your Heart Beat?
Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Purgative substances are then absorbed into the blood, instead of being removed from the body daily as nature intended. Keep the bowels open with Ayer's Pills, liver pills. All vegetables.

Another Convulsion Coming.
"That well in Wisconsin," remarked Mr. Quigley, "is roaring again, they say."
Mrs. Quigley turned pale.
"Maybe it means this time," she gasped, "that our cook is going to leave us! I saw her overhauling her trunk this morning!"—Chicago Tribune.

Nothing in This Line.

From the Almond Point of View.
He—So your marriage was a failure?
She—Oh, I don't know.
He—Why, I thought you had secured a divorce?
She—I did.
He—Well, don't you call that a complete failure?
She—Hardly. You see, my partner made an assignment and I received a very neat sum as a preferred creditor.
He—Oh—um—er—I beg your pardon!—Judge.

Side Lights on Mythology.
Vulcan had just put four new horse shoes on the feet of the Centaur.
"Easiest job I ever did," he said to the bystanders. "He stood perfectly still, and when I handed him the fly brush he kept the flies away himself."

Making a handsome discount from his usual price, he asked his customer to drive himself to his shop whenever he needed any more work.—Chicago Tribune.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always by the genuine
