BANDON BOYS

GET LEMON

Defeated in Fast Game by the Marshfield Team.

AN IDEAL DAY IN CITY-BY-SEA

The day was perfect and everything was favorable for a good game of ball on the local diamond last Sunday, and those who went out to see the big game between Bandon and Marshfield were in no way disappointed, only that our boys suffered defeat at the hands of the Marshfield team by the score of 5 to 2, although it should have been only 3 to 2 had the umpire known his business, and in fact, had it not been for the rank decisions, Bandon might have won. However that may be, the fact remains that Marshfield carried off the victory and Bandon was handed the lemon.

The game was a good one from start to finish as the score will indicate and each side received seven "goose eggs," the scores all being made in two innings, Marshfield getting four in the fourth and one in the ninth, while Bandon succeeded in sending one man over the plate in the fourth inning and another one in the sixth, during the rest of the game there was nothing but big round holes chalked upon the score board.

Although Bandon was beaten, there are many people in our city who are still ready to bank on the home team, and in fact all believe that they will give a good account of themselves throughout the season and there are strong hopes that the city-by-the-sea will carry off the pennant.

The following official score will tell better than words can describe how the deed was done:

TAFT AND SHERMAN

THE NOMINEES

Ohioan and New Yorker to Head the Republican Ticket

WILL BE A VERY STRONG TEAM

The expected happened at the Republican National Convention held in Chicago last week and William H. Taft of Ohio was placed in nomination on the first ballot, receiving 702 votes out of a total of 980, leaving only 278 to the "allies" who were opposing him. Immediately after the vote was announced, a motion was made to declare Mr. Taft's nomination unanimous and the same was carried amid shouts and cheers.

From the opening of the Convention it was evident that Taft sentiment was strong although there were efforts to stampede the Convention from him, but all to no avail as his organization was complete and his campaign managers were ever on the alert, and at no time was there a ghost of a show to wrest the honors from him.

One of the biggest problems of the convention was the selection of a suitable man for second place and after much speculation and wire pulling, the convention settled upon Representative James S. Sherman of New York, whom it was considered would make the strongest run of any man that had been suggested. There was a great effort to induce Senator Johnathan P. Doliver, of Iowa to make the run, but he positively declined, and his friends, were very active in discouraging any attempt to force him into the fight, as they desired to continue him in the Senate.

Vice President Fairbanks was also a prominent figure in the race. Others who were prominently mentioned were Governor A. B. Cummins of Iowa, Franklin Murphy of New Jersey, and Governor Curtis Guild of Massachusetts, but Mr. Sherman received 816 votes on the first ballot and was declared the nominee, which on motion was made unanimous.

In many ways the convention just closed was the most notable in the history of the Republican party, and although there were favorites from various parts of the country, yet when the votes were counted and the nomination made, the whole convention was for the two candidates named, and no doubt the entire party throughout the country will fall into line.

The platform of the Republican party, although rather objectionable to some, is conceded to be a strong one and strenuous efforts will be made to impress the people of the country that it is the one they should support.

Following is a brief summary of what the Republican party will stand for, before the people this fall, and upon these issues the party will attempt to win the victory in what promises to be one of the hardest fought campaigns in the history of the country.

The Platform in Brief.
Unequivocally for tariff, revision.
Permanent currency system.
Amendments to Sherman Act giving greater control of corporations.
Enforcement of railroad rebate laws.
Prevent common control of naturally competing lines.
Legislation to prevent over issue of stocks and bonds.
Against issuance of writ of injunction without notice.

Construction of roads at public expense.
Protecting and equal rights for the negro.
Conservation of natural resources.
Legislation to revive the prestige of our merchant marine.
Liberal administration of the pension laws.
Establishment of a bureau of mines.
Citizenship for Porto Ricans.

From the Fruit Inspector.

Myrtle Point, Ore., June 20, 1908.
Editor Bandon RECORDER:
You have sent to my address a copy of your RECORDER. May I ask you by what have I earned this favor?

It might have been a compliment had you given to myself the opportunity to prepare for the two Commissioners of Horticulture. Well if the Bandon people did not want us that is all right; however, they should another time open their ears and hearts towards men who came here solely to benefit them.

As one of your prominent real estate men said: we are no horticulturists. So much the worse. You and your people do not know the great future for your rural inhabitants, there are no greater possibilities for them, nature has provided for you, that, what your Bandon people do for your city-by the sea.

You want industry, do you? and when it comes you close your heart and ears to accept it. See RECORDER dated June 18th, page 4, article 5. That is all I ask.

As Fruit Inspector for the county I should be a little of an authority in this respect. I say there is no better opening for you to enrich your farmers than horticulture, and for your people of the city, there is no easier way to get new industry, than by encouraging horticulture.

Has it never come to your mind that selling of apples is not all of the industry connected with this branch? Never think of erecting fruit preserving establishments, do you, vinegar making, jellies and preserves, are commodities for which we Coos Bay people send thousands of dollars each year to California? Has it never come to you that we can manufacture and sell better goods than those sold to us?

Can we not pickle in vinegar manufactures such as peppers, cucumbers, onions, can we not make apple and plum butter to be sold to vessels to go on long or short voyages or to Alaska? Is there a better climate to raise peas and sugar corn?

And that is not all. Will we import glasses and bottles necessary for this industry? or do we have the very best of silica sand around Bandon only to look at? Why not put up a glass manufactory? Such a plant would soon have other goods to manufacture than jars and glasses, your cedar wood for shingles is getting short, why not make glass roofs as done in other parts of the world? It is absolutely fire proof. And many other branches will follow if you are not so hide bound and think that horticulture is nothing to you.

The wise man listens to everything and accepts that which is of value provided for him by all kind nature.

Yours respectfully,
M. G. POHL.

Rebekahs Give Program

Ocean Rebekah Lodge No. 126 gave an excellent program Saturday evening, consisting of songs and recitations and a little comedy by members of the order. After the program a light luncheon of cake and coffee was served. Members and friends of the lodge were invited and a most enjoyable time was had by all present.

J. J. LOGGIE

IS LAUNCHED

Fine Vessel Put in Water at Price's Shipyard Last Saturday.

SCENE WAS A MOST IMPOSING ONE

The fine freight boat, J. J. Loggie which has been under construction at Price's ship yard for some time was formally launched at 6: p. m. last Saturday.

Despite the fact that the day had been most inclement a large concourse of people were in attendance at the launching and many cheers went up as the great boat slid down the ways and into the water. At the same time all the whistles in town were turned loose, including that of the Steamer Elizabeth which was then in port at Bandon.

The J. J. Loggie was christened by Mrs. McKay, who is the wife of the foreman of the shipyard and the ceremony was performed in a most graceful manner.

There was not the great ceremony connected with the launching of this ship as there was when the Daisy was sent forth to the seas, but the scene was an imposing one and will long be remembered by those who were privileged to see it.

The J. J. Loggie is an example of perfectness in every particular, and certainly shows the skill of its designer to a marked degree. It is 150 ft. over all and will have a capacity of 400,000 ft of lumber. The boat is owned by the McKay Co. of San Francisco and will ply between that port and Eureka, Cal.

A grand ball was given in the Oriental last Saturday night in honor of the Loggie, the second boat to be launched at the Price ship yard. This was free-for-all and a large crowd were in attendance who enjoyed the occasion to the fullest extent.

The J. J. Loggie will be rushed to completion as rapidly as possible and will be one of the finest boats plying along the Pacific coast.

Mr. Price has the contract for the building of two tug boats, one of them will be for the Gardner Mill Co. of Gardner Ore. and the other for the Coquille River Mill and Tug Co.

Mr. Price's ability as a ship builder is becoming more and more recognized all the time and his services are very much sought by companies who want first class work.

Holland Anderson on Trial.

The case of Holland Anderson, who killed Mrs. E. S. Gordon, in Marshfield, several weeks ago, is on trial at Coquille this week. Judge Hamilton is presiding over the case and it is thought it will consume four or five days.

One of the principal features in examining the jury has been a concern the "Red Devil" circular which was mailed to voters during the local option election.

The defense maintained that the "Red Devil" poster was supposed to depict the Anderson-Gordon tragedy and certain to prejudice those who saw it against their client.

The jurors called admitted receiving it but declared that it did not impress them particularly, not any more, probably, than newspaper versions of the shooting.

A large number of witnesses have been subpoenaed. Captain I Mrs. O'Kelly of Marshfield, as to be the star-witnesses for the prosecution, having witnessed the shooting through a window of the O'Kelly boat office, not twenty feet distant from where Mrs. Gordon fell mortally wounded.

Judge Hamilton will not try any jury cases this time except the Anderson-Gordon case. The grand jury will not be in session. A few cases in which juries will not be necessary may be taken up by the court if the matter is urgent.

Myrtle Point People Interested.

That interest in the Bandon Pulp and Paper Mill is extending to other places is evidenced from the fact that on Tuesday, Col. C. T. Blumentrother received a letter from a Myrtle Point business man asking for a list of subscribers to the industry, and stating that there were a number of Myrtle Point people who were ready to subscribe for stock at once.

M. E. Church.

There will be an Old People's meeting at the M. E. church next Sunday morning. Let all attend in honor to the aged ones. The evening subject will be, "The Ideal Church for Bandon."
