

Scrofula

Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood. It may then produce dyspepsia, catarrh, and marked tendency to consumption, before causing eruptions, sores or swellings. To get entirely rid of it take the great blood-purifier.

S.S.S. CURES RHEUMATISM

Every case of Rheumatism has its origin and its development in the blood. It is not a disease which is contracted like a cold, but it is in the blood and system before a pain is felt, and the changes in the weather or any physical irregularities, such as a spell of indigestion, bowel disturbance, etc., are merely the exciting causes producing the pains and aches, which are the natural symptoms of the disease. Rheumatism is caused by an excess of uric acid and other corrosive, irritating poisons in the blood, which are carried through the circulation to every part of the system. Every muscle, nerve, membrane, tissue and joint becomes saturated with these acids, irritating impurities, or coated with fine, insoluble caustic matter, and the sharp, piercing pains or the dull, constant aches are felt with every physical movement. When the blood is filled with uric acid poison, permanent relief cannot be expected from liniments, plasters, or other external treatment. Such measures give temporary relief, but in order to conquer Rheumatism and bring about a complete cure, the uric acid and other inflammatory matter must be expelled, and this cannot be done with external treatment. S. S. S. cures Rheumatism because it is a perfect and entirely vegetable blood purifier. It goes down into the circulation, neutralizes the acids, and dissolves the irritating deposits which are pressing on the sensitive nerves and tissues and producing pain, enriches the weak, sour blood, and removes every atom of impurity from the circulation. So instead of being a weak, sour stream, distributing uric acid to the different parts of the system, the blood is strong and healthy and therefore able to supply every muscle, nerve, bone and tissue with nourishment and strength. Then the inflammation and swelling subside, the pains and aches cease, and not only is Rheumatism permanently cured, but under the fine tonic effects of S. S. S. the entire general health is benefited and built up. In all forms of Rheumatism, whether acute or chronic, S. S. S. will be found a safe and reliable treatment. Special book on Rheumatism and any medical advice you desire will be furnished free.

Sometimes ago, I had Rheumatism and had to quit work. The pain in my back and between my shoulders was so intense I could not rest or sleep. I tried everything, but nothing did me any good till I heard of and took S. S. S. This medicine cured me sound and well. It purified my blood and made me feel like a new man.

I was severely troubled with Rheumatism. I had it in my knees, legs and ankles, and any one who has ever had Rheumatism knows how excruciating the pain is and how it interferes with one at work. I was truly in bad shape—having been bothered with it for ten years, off and on. A local physician advised me to use S. S. S. I did so. After taking two bottles I noticed the soreness and pain were greatly reduced. I continued the medicine and was thoroughly cured; all pain, soreness and inflammation gone. I recommend S. S. S. to all Rheumatic sufferers.

A Perverted Propriety.
"Oh, girls," exclaimed the gushing maiden on the crowded street car, "I've just washed my hair and I can't do a thing with it!" Just then the car gave a lurch and she shrieked as the man in front of her stepped on her foot.

"Beg pardon," muttered the weary stranger who had done the stepping. "You see, I've just washed my feet and I can't do a thing with them."

—Judge.

Black Coated Paupers.
We are becoming not only a nation of shopkeepers, but a nation of clerks. Every young man wishes to be a clerk, every young woman a typewriter. The profession is frightfully overcrowded and frightfully underpaid. We have neither servants nor laborers, only an army of blackcoated paupers.—London Graphic.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Extremes.
"Pardon me," said the dowager with the mole on her chin, "but there is hardly room for two of us here if you are going to keep that thing on your head."

"I, I guess there's room enough, madam," answered the sharp featured young woman with the umbrageous hat, who occupied the adjoining seat. "I'm not making any kick about the space you feet take up."—Chicago Tribune.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving it a pat on the head by which it is completely eradicated. It is a simple, safe, and reliable remedy, and it is the only one that it fails to cure. Send for list of testimonials.

SCHOOLS AND COLLEGES

Supt. Maxwell of the New York City Board of Education, in his annual report urges the formation of a department of school hygiene. Such a department, he thinks, should be under the direction of a medical man, who would rank as an associate superintendent, and who should have a sufficient number of physicians to examine all the children in the public schools at least once a year, and a sufficient number of nurses to visit the homes of sick children and to care for slight ailments in school. He says that New York is the noisiest city in the world and that children lack a proper amount of sleep. Owing to crowded quarters in the tenements and in some of the public schools as well many children are crippled by lowered vitality, defective sight, defective teeth and other evils, many of which could be overcome. The report says that there are 158,406 pupils in the schools over normal age; in other words, they are backward in their lessons because of physical defects.

The National Civic Federation has made arrangements to send 500 or more public school teachers next fall to England, Scotland, Ireland and the continent to inspect the system of teaching and school methods generally in foreign countries. This idea was suggested by the success of a similar expedition of English teachers to the United States in 1905-6. The teachers who make this trip will have an opportunity to examine at first hand what is being done for children abroad, both in the common schools and in the special schools. President Nicholas Murray Butler of Columbia university has been appointed chairman of an advisory committee to carry the plan through. In this connection it may be noted that Mr. Butler has accepted the invitation of the University of Copenhagen to deliver three lectures there next September, the subject matter of the lectures to be "Some Aspects of American Civilization." He will leave for Denmark in August, returning in time for the opening of college next fall.

Chancellor Dewitt C. Huntington of the Nebraska Wesleyan university at Lincoln has tendered his resignation, and it was accepted by the board of trustees with the understanding that Chancellor Huntington shall remain until the end of the school year.

At Chippewa Falls, Wis., Supt. Swarth ordered the members of the Greek letter fraternity Alpha Delta Omega to disband the organization or suffer expulsion from school. He declared that no secret organization of pupils would be tolerated. The members promised to heed the warning.

The Page Between.
A New Orleans woman well known for her work for charity, recently accepted an invitation to speak at an anti-tuberculosis meeting. On the platform she found herself seated between a bishop and a rabbi, and the tone of the meeting seemed to be rendered extremely solemn by the combination.

In order to lighten the solemnity, she said, turning to the rabbi: "Do you know, I feel as if I were a leaf between the Old and the New Testaments."

The rabbi turned a sad-eyed gaze upon her.

"Yes, madam," he said, "and, if you will recall, that page is usually a blank one."

—Sam Weller.

It was Sam Weller who made Dickens famous. "Pickwick Papers" were a complete failure financially until this unique character was introduced. The press was all but unanimous in praising Samwial as an entirely original character whom none but a great genius could have created. Dickens received over \$16,000 for "Pickwick Papers," and at the age of twenty-six he was incomparably the most popular author of his day.—London Standard.

Moderated Version.
Pythias had returned, just in time to save the life of Damon. "Gee!" exclaimed Dionysius. "Boys, when that story is worked into a play it will make a great hit."

"Most noble tyrant," said Pythias, venturing to correct him, "it's merely a sacrifice hit."

Many of the scores, however, having only a superficial knowledge of the game, marked it down as a double play.—Chicago Tribune.
