STATE CONTROL OF WATER.

Paper Presented at Recent Meeting of Oregon State Grange. By John H. Lewis, State Engineer.

(CONTINUED FROM LAST WEEK.) Laws of Other States.

Oregon, Washington and California have the poorest water laws of the her borders. western states. Colorado profited by the mistakes of California. Later Wyoming and Nebraska adopted laws which have been taken as models by other some plan for the conservation of our miles of being in smelling distance of it.' states, except that adjudications of the great natural resources will doubtless —Chicago Tribune. early rights are made by the courts in-Dakota and Oklahoma. The Canadian new policy devised by this conference law has been declared by resolution of for government control of navigable or the American Irrigation Congress to interstate streams can affect Oregon met him every day during that period special medical advice you wish. No charge for either, he never once suggested a remedy. nent. All these modern laws are based have developed through centuries of ity cannot only be accomplished withexperience. Thus Oregon has no lack of precedent, and should profit by the experience of these other states and profit if we only will of precedent, and should profit by the experience of these other states and profit, if we only will.

We resented bitterly the offer of

Arguments Against State Control.

The water code presented to the last legislature provided a comprehensive system of titles to water and for protection to vested rights through state control of diversions from public streams. The leading arguments by the enemies of this bill were as fol-lows: That the state officer in charge would have the power of a czar; that 100 Coupon values or less, represented the burden on taxpayers would be exwas the basis of a machine to control the politics of the state.

become vested except by direct grant ada, where titles to water are as so from the state. The great power comcure as titles to land. Oregon's sin, no plained of was the authority of the state engineer to refuse any application in this matter, is becoming notoriou which did not conform with the law. To pass the bill without any means of diversion and use of water is neces enforcing it would have the same effect sary, and if persisted in will greatly as defeating the bill, which was the result desired.

Under the proposed law, no state control could be had until the determination by the courts of all vested rights to the use of water from a given stream. Therefore, no water master could be appointed until such time. These adjudications will be final, as each basin comes before the court, instead of constantly recurring, as under present conditions. The water master, when appointed, will regulate the dias granted under the new law. These information as follows: new rights will not be subject to liti-gation, no matter how long the deter-

Better each year, and larger. We now have two floors 65 x 100 feet. Thorough work tells the story. It counts in the end, and we admittedly lead in this redepartment could, in time, be made to the use of this public resource, the state water department could, in time, be made to the use of this public resource, the state water department could, in time, be made to the use of this public resource, the state water department could, in time, be made to the use of the use o

The cost of actual distribution was to be borne by the counties benefited. Objecting to the bill on the ground of Tenth and Morrison . Portland, Oregon cost is false economy. It is like objecting to the appropriation of some \$12,000 annually to maintain a state land department, which is a valuable source of income to the state, or like objecting to the cost of our police protection for other property than water, which protection saves annually to the public far more than its cost.

State and Government Reclamation.

Oregon has 400,000 acres of governland withdrawn from entry, pending reclamation by the state under the provisions of the Carey act. This area is equal to the combined area of all irrigated land at the present time. posed of his farm laborers. He was or nearly twice the combined area of the Klamath and Umatilla irrigation his life and in his latter days finds projects of the government.

During the first six months of 1907 the state land board authorized the sale of water rights to these desert lands, amounting to \$4,692,700. board put off this action until after the adjournment of the legislature, hoping that the legislation which they had recommended for the protection of people, by the people, for the people," settlers might be enacted. The state the father of the sentiment was really authorizing the sale of a commodity which it owns, but over which it has no control. It is attempting to superfor administrative purposes.

Already the state has begun suit against one of these companies because of the sale of some \$100,000 worth of of all the people, by all the people, for water rights to intending settlers all the people." Then in 1863 Lincoln where there is no water to supply, and put the finishing touch and gave the false economy practiced may ulti-democracy its watchword. mately result in a demand upon legislature by these settlers that their loss be reimbursed. In this matter of reclamation by the state, or in any ning? public or private reclamation, we are trying to build a great structure of prosperity without adequate foundation in law to support the structure.

Oregon has contributed more to the ed the game. reclamation fund of the United States the roturn of this money depends upon things ought to be done.

To Fall Back Upon. "We put that motto back on the coins,

anyhow," said the Congressman.
"Yes," answered the constituent, "and in view of what you fellows have accomplished during this session that motto one been proposing to you?" inquired affords us our only consolation."—Chicago her guileless companion.—Detroit Free

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six

years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and chadren. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
