

SCHOOL BUILDING COMMENCES SOON

Sheds and Planing Mill Are Now Being Put up

SCHOOL WILL BEGIN MONDAY OCT. 5

Work on the superstructure of Bandon's beautiful new school building will in all probability commence next week. The concrete work is nearly complete and will be finished by Saturday if nothing happens. The contractors are now putting up their shed which is a large structure 40 by 80 in dimensions. They will put in a planing mill and other necessary equipments for rapid work.

Bids have been received for the plumbing and heating but owing to the fact that Judge Topping, chairman of the board was called to Grants Pass on business the opening of the bids was postponed until October 10th.

School will begin next Monday October 5th, with bright prospects for the coming year. The work of Prof. Ostien as principal is familiar to everyone so that he needs no introduction, and the board feel that it has secured a very excellent corps of teachers.

Margaret Iles Co.

The play goes of Bandon were again given a rare treat Wednesday evening by the Margaret Iles Co., every member of which appeared to best advantage in the excellent play "The Counterfeiters." This is a comedy drama of great merit and was well put on by the company, and that their efforts were enjoyed was evident from the constant applause received from the audience. The specialties between acts were also greatly enjoyed. The Iles Co. will be here again next Wednesday evening when they will play "The Strikers." This play deals especially with the labor problems of the day and will be exceedingly interesting at this time. No person can afford to miss this play, and it is a foregone conclusion that the house will be well filled.

Edward F. Neihaus, owner of the Coos Bay Furniture Co's plant, commonly called the box factory, arrived on the Bay last week and gave orders for the resumption of work at the big plant to begin next week. The orders that Mr. Neihaus have are not in the box line and the work will be on a small scale, but large enough to give employment to some of the old hands, whom Gus says he will be glad to see Monday. With the box factory whistle again shaking the window of North Bend things will begin to seem like old times. It is to be hoped that the run will be a permanent affair, for when running full handed the factory employs 125 men.—Harbor.

Recent Baths

Capt. A. M. Simpson of North Bend, one of the wealthiest men in this section, was rescued from probable drowning in the Bay late Friday by Henry Hewitt, Jr. of Tacoma, Wash., principal owner of the Coos Bay Gas & Electric Co., and also a millionaire. The accident and rescue occurred near the C. A. Smith mill and but few were aware of it,

the rescued and rescuer keeping very quiet about it.

It seems that Messrs. Hewitt and Simpson had been making a tour of inspection of the Smith mill and after it was over, walked out to the dock. Mr. Simpson reached the edge of the wharf and looked over and either becoming dizzy or from poor eyesight dropped off. He fell headforemost and went completely under. The water is quite deep near there but Mr. Hewitt succeeded in getting down and getting hold of him and the latter's call for help was responded to by a longshoreman who pulled them both out.

Mr. Hewitt refuses to admit that there was anything heroic in the rescue and Capt. Simpson is little the worse for the ducking.—Times.

L. A. Liljeqvist, deputy district attorney, while showing George Goodrum and John Goss the proper poise to keep on equilibrium in a boat, lost his balance and fell out of Geo. Goodrum's launch into the bay yesterday. He is an able swimmer and consequently at no time was in danger although the cool bath was not exactly to his liking.—Times.

Emil Heuckendorff

The community in and around Bandon was greatly shocked Wednesday morning when the news reached here that Emil Heuckendorff the Prosper ship builder had died in the hospital at North Bend. Mr. Heuckendorff had been under the weather for a few days and came down to Bandon Monday to see Dr. Houston and consult him about treatment. On examination the Dr. found that he was suffering from a light attack of diphtheria and recommended that he go to North Bend to the hospital at once. Mr. Heuckendorff started for that place but for some reason stopped at Prosper and did not go to North Bend until Tuesday where he died Wednesday morning. We have been unable to learn the particulars up to the time of going to press but will perhaps be able to give a full account of his life next week.

A Sad Accident

Lloyd Hodges the four year old son of Mr. and Mrs. F. M. Hodges was instantly killed Saturday afternoon on the shiplanding at Aberdeen by the falling of some railroad ties. The little fellow, together with his mother and older brother went down to the dock to see the boat come in on which he was expecting to meet his grand-parents. The ties were piled up on the dock and the little fellow started to climb on them when they gave way, rolling down on his body and so badly crushing it that he died almost instantly.

Lloyd was a bright little fellow and was universally loved wherever he went.

The funeral was held on Sunday and was in charge of Rev. Thomas, pastor of the Baptist church in Bandon, and interment made in the Bandon cemetery.

Mr. and Mrs. Hodges have the heartfelt sympathy of a large circle of friends in their time of bereavement.

Firm Name Changed

The Bandon Furniture Co. will hereafter be known under the firm name of Turner & Woodruff. Geo. Turner formerly of Roseburg having purchased an interest in the company and will be associated with Mr. Woodruff in the management of same. This makes a good strong firm and they will no doubt be very successful in their enterprise, as they have a large and excellent stock.

DRAINAGE PROMOTERS TO HOLD MEETING

Members of the Fat Elk Drainage District Will Confer

MEETING WILL BE HELD IN COQUILLE

The members of the Fat Elk Drainage District will hold a meeting in Coquille next Monday when a 25 per cent assessment will be levied on stockholders for the purpose of promoting the work of the system. This District comprises about 2,500 acres of valuable dairy lands tributary to the county seat town and which will be of great value when the proper amount of drainage is secured.

Among the large land holders in this district are the Russ Brothers of Humboldt county, Calif. and one of them is expected to be present and assist in the discussions at the meeting.

Coquille City will probably benefit more than any other town by the drainage of this land, but it will be of great value to the whole valley, and we here are glad to see Coquille prosper, for what is good for one city in the valley is good for the whole valley. The farmers in this district are to be congratulated for their enterprise in the matter.

Jas. Mast of Bandon is secretary of the association and has large interests in that section.

The Godfrey Family

Bandon people are promised a high class show Saturday evening Oct. 3rd, when the famous Godfrey family will appear at the opera house introducing strong features in aerial and acrobatic performances as well as singing and dancing specialties.

The family is world wide in its reputation as first class performers in their line and all who attend Saturday evening will be highly elated over the entertainment. Don't fail to see them at the Opera House Saturday night.

Returned With Data

Col. W. H. Holabird, E. H. Harriman's special representative sent down into this country to secure data on the possible railroad business has gone back to Portland and will compile his data and forward the same to Mr. Harriman. He investigated the tonnage sent out from Coos Bay and the Coquille river and if he took a thorough note of the resources in the Coquille Valley he will recommend that a railroad be built into this valley whether it goes to Coos Bay or not. It is not likely that the result of the investigation will be announced before the latter part of November.

Orchard Grubbed Out

The first instance of the real enforcement of the fruit inspecting law to a letter was exemplified in the destruction of the orchard on the Cass place just south of town. The fruit trees on the place have stood for years without any care, because the estate was in litigation in the courts. The authorities had notified the owners and parties interested, but no heed was taken. Finally the fruit inspector ordered the trees all grubbed up, as they were deemed a public danger and nuisance.—Sentinel.

VENEER PLANT STARTED MONDAY

Has Been Running at Full Capacity With Good Results

GIVE EMPLOYMENT TO TEN HANDS

The new veneer plant installed by F. S. Perry started work at full capacity Monday morning and the results have been far beyond Mr. Perry's most sanguine expectations.

The machinery was put into operation Monday morning and ran until noon without a single stop, and the output for the half day was nearly as much as Mr. Perry had expected to accomplish in an entire day.

The plant is a fine industry added to the many first class enterprises of Bandon and already furnish employment for ten hands and will probably enlarge in the very near future. Mr. Perry has a large number of orders ahead and will run the plant at full capacity; he is much pleased with the outlook and thinks the prospects for the future are extremely bright.

The machinery in the plant is the most modern that could be secured and the finished product is of the finest quality and will always be in demand. Mr. Perry is thoroughly conversant with every detail of the veneer business and will make of it great success, and with the raw material so easy of access, there is no doubt that the business will develop to immense proportions in the near future.

Hand Caught in Mangle

Norma La Rue had the misfortune to get her hand caught in the mangle at the Bandon Steam Laundry last Monday morning and before it could be released was badly crushed and burned as a result of coming in contact with the roller on the mangle. Dr. Houston was immediately summoned and dressed the afflicted member and the young lady is getting along as well as could be expected but it will be a long time before she will be able to use her hand. The back of the hand is not seriously burned but the inside was burned almost to the bone and the flesh will nearly all come off, and it may be that the ligaments are so badly burned that the first and second fingers will always be useless.

Miss La Rue has the sincere sympathy of many friends over her painful accident.

Sheriff's Sale of Real Property.

Notice is hereby given, That by virtue of execution duly issued out of the Circuit Court of the State of Oregon, for the county of Coos and to me directed on the 26th day of September 1908 upon judgment and decree duly rendered, entered of record and docketed in and by said Court on the 14th day of September 1908 in a certain suit then in Court pending wherein L. P. Sorensen was plaintiff and D. F. Mills was defendant in favor of plaintiff and against said defendant by which execution I am commanded to sell the property in said execution and hereinafter described to pay the sum due the plaintiff of one hundred and six dollars and 50 cents, an attorney fee of twenty-five dollars, with interest thereon at the rate of six per cent per annum from the 14th day

of September 1908 until paid together with the costs and disbursements of said suit taxed at ten Dollars and 20 cents and costs and expenses of said execution. I will on Saturday the 29th day of Oct. 1908 at the hour of ten o'clock a. m. of said day at the front door of the County Court House in Coquille, Coos County, Oregon, sell at public auction to the highest bidder for cash in hand on the day of sale, all the right, title interest and estate which said defendant D. E. Mills and all persons claiming adversely under him subsequent to the heir of Plaintiff in of and to said property, said premises hereinbefore mentioned are described in said execution as follows, to wit:

Lots 9 and 10 in Block 9 in Bennett's Bandon Beach Plat "A" or so much thereof as may be necessary to satisfy the said demands of said Plaintiff in full with all costs and disbursements.

Said sale being made subject to redemption in the manner provided by law.

Dated this 28th day of September 1908.

W. W. GAGE,

Sheriff of Coos Co., Ore.

By C. A. GAGE, Deputy.

Bishop Scadding Here

Charles Scadding, Bishop of Oregon, was in Bandon Tuesday and conducted confirmation services during the forenoon in St John's Episcopal Church of this city. Clinton Conger was the one candidate for confirmation.

Tuesday evening the Bishop talked interestingly, to a large audience, of the Conference of the Bishops held at Lambeth Palace, during the summer and in addition discussed many other interesting subjects.

W. B. Hopkins with his family arrived on the last Elizabeth from San Francisco, and will occupy the Mathers ranch about fifteen miles up the river. Mr. Hopkins is a practical dairyman and will no doubt make a great success in his business as that is what he intends to follow.

John Deverux of Parkburg left Tuesday for Mt. Angel where he will attend school for the coming year.

Miss Kate Rosa left Tuesday for Albany where she will resume her school work in the university at that city.

Everard H. Boyle arrived on the last Elizabeth from Kansas City where he has been for the past two or three years employed in one of the large jewelry houses. He is a jeweler and engraver of wide experience and will be associated with his father, H. M. Boyle.

The Woodmen of the World will give a banquet to members and a few invited guests at the K. of P. Hall this evening.

T. H. Kreamer arrived in Bandon Friday evening from Kansas City, and is visiting with his sister Mrs. C. E. Kopf. Mr. Kreamer is very favorably impressed with Bandon and the Coquille valley and is anticipating making some investments, here.

Atty. C. R. Wade and Dr. H. M. Brown have moved their offices from the Laird building to the Panter building.

The Ladies' Thimble Club will give a grand ball October 31 for the benefit of a band stand.

Judge Topping is at Grants Pass this week on legal business.

Patronize home industry, buy your clothes from McKenzie the tailor. Suits \$15.00 and up.

J. P. Tupper of Coquille was a city visitor Tuesday.

THE PILE JETTY UNDER HEADWAY

Piling are Being Sunk From Eight to Twelve Feet

WILL BE STRONGER THAN FIRST THOUGHT

The pile jetty in the Bandon harbor is now well under way and the piling is being driven as fast as possible. The jetty will be stronger than was even at first anticipated, as it is possible to drive some of them down twelve feet and none are driven less than eight feet. This will enable them to stand firm against all force with which the water may rush against them, and it is confidently believed by those having the work in charge that the jetty will stand for many years.

There is great jubilation among those interested, and that includes everybody in Bandon and the Coquille valley, over the success of the venture and it is now believed that the work can be completed this fall so that the harbor will be in better condition than it has ever been.

The work of driving piling will be rushed as rapidly as possible and now that they have such excellent foundation work for the pile driver and all other things in readiness there seems to be nothing that will mar the rapid progress of the work.

For Rent

My place at Four Mile close to Clayton's mill is for rent for two years. 8 acres in cultivation, 50 acres fenced, good buildings.

L. A. RASMASON.

FOUND—Near Oriental Hall last Saturday night a plate of False teeth. Loser can have same by calling at this office and paying for this ad.
