**Why Colds are Dangerous.**  
Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everybody knows that pneumonia and chronic asthma have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would otherwise have found lodgment. It is the same with infectious diseases. Diphtheria, scarlet fever, and whooping cough are much more apt to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by C. Y. Lowe.

**Obligations of Civil War.**  
Money indebtedness is not the only obligation we incurred and assumed in the great civil war. There was a still greater debt, an everlasting obligation that could never be paid in full. But in the years that have followed, the Republican party has inaugurated and developed pension laws under which over three and one-half billion dollars have been paid to disabled veterans or to the survivors of those who gave their lives for their country and their flag. This pension system, a product of the policy of the Republican party, has no precedent in history and no equal in justice and generosity among the nations of the earth.—Hon. James S. Sherman.

Colonel Bryan laments the "discrimination that has been going on against the farmer" in electing so few tillers of the soil to Congress and the Senate. What troubles him chiefly, however, is the discrimination which the whole American nation exercises against a certain farmer of Lincoln, Neb., in declining to elect him to the White House.—New York Tribune.
