

### Fortunes of the World are Founded on Oil.

Joe Chanslor, now several times a millionaire, was not long ago a clerk in Los Angeles. He borrowed some money for the purpose of operating in California oil; the result was that it made him one of the richest men in the state. John A. Bunting, formerly a brakeman for the Southern Pacific, through the investment of \$170.00 in California oil became a millionaire. We could tell you of innumerable others. Why were Bunting, Chanslor, and the many others, who made their money through oil investment successful? Because they were shrewd, level-headed observing men possessing unbounded confidence in the great future of the California oil fields and the oil industry. The demand for oil is increasing daily. The consumption far exceeds the output. Several oil companies paid substantial dividends when oil was selling at 15 cents per barrel. Oil is now selling at SIXTY GENTS PER BARREL at the well. The total dividends for the year 1908, from all the oil companies doing business in California, not including the Standard, will probably reach the \$6,000,000 mark for the year 1909. Therefore the natural conclusion to arrive at, is, INVEST IN OIL SECURITIES, INVEST AT ONCE. We are offering for sale a limited number of shares on what we consider to be one of the best companies operating in Kern Co., in fact, in California. We refer to the (Kern Associated Oil Co.) The stock of the Kern Associated Oil Company is the best oil proposition ever offered the investment public. The Company owns free of incumbrance forty acres in the very heart of the Kern River Oil District, and situated on the Southern Pacific Railroad. It adjoins the San Joaquin Oil & Development Company's property which was recently merged with the Associated Oil Co., whose stock is now selling at \$31.75 per share. It also adjoins the justly famous Discovery well where oil was first discovered in the Kern River Oil District. The Kern Associated Oil Company has two wells on its property. Well No. 1 is in oil and gives about sixty-five barrels of oil per day. With a greater depth and a more approved pump the production will be greatly increased. The company desires to sink four more wells and to install modern compressed air pumps. We believe that well No. 2, with, with greater depth, produce a larger and inexhaustible oil supply as are the other wells on adjoining properties. We are offering a limited number of shares in this company at 20 cents per share. Do you realize what that means? It means that in purchasing this stock you become interested in a company that can produce the oil. It is not a case of "they may," "they should" but "they are."

Let us again impress upon you those highly important facts: The property is a producer, is entirely surrounded by reliable producing properties, that there is sufficient acreage (fourty acres) to justify the drilling of forty more wells all of which would be in the very core of the richest oil producing counties in California, districts in the world. Remember that Kern Co. produces as much oil as any other three oil producing counties in California. Shipping facilities could not be better for the property adjoins the Southern Pacific tracks. The company has valuable assets in improvements: Two wells, derrick, tanks, tool and bunk house etc., etc. Before accepting the fiscal agency of the Kern Associated Oil Company we thoroughly investigated every detail pertaining to the company and its property. We did not take snap judgment, we never do, consequently want to assure you that the stock of this company at twenty cents per share is the most unparalleled opportunity for the investor that ever came under our observation.

We sincerely believe that the Kern Associated Oil Co. is destined to pay dividends as surely and as regularly as are now being paid by the Associated Oil and other companies on adjoining properties and we see no reason why within twelve months the Kern Associated Stock should not be quoted at many times its selling price.

You can invest any amount from \$20.00 up to \$20,000. We allow you 5 per cent on cash subscriptions. You can purchase stock on the easy monthly plan if you so desire, one fifth down and one fifth per month. Don't Delay. The stock of the Kern Associated Oil Company is the best on the market today.

### HOW TO CURE A COLD

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by C. Y. Lowe.

### A Question In Kind.

New evidence that William IV. of England fulfilled the saying "Once a sailor, always a sailor," is found in "Leaves From the Journal of Sir George Smart."

In 1834 Sir George presided over the musical festival in Westminster abbey. The king and Queen Adelaide were present, and the king, as was his wont, slumbered peacefully whenever the music was sufficiently soft to permit it.

While the duet for basses was being sung in "Israel In Egypt" the queen woke him up suddenly by remarking, "What a fine duet—The Lord Is a Man of War!"

The king, not thoroughly awake, caught only the last words. "How many guns does she carry?" he eagerly asked.

An Economical Suitor.

It was fair time in Selkirk, and Sandy and his sweetheart were wandering round arm in arm, enjoying the sights. Presently they espied a smart looking pie shop, which they promptly entered. Sandy ordered one pie and sat down and commenced to eat it. Meanwhile the girl looked shyly on.

"Is't fine, Sandy?" she timidly asked. "Aye, 'tis awful fine, Jennie," he answered. "Ye should buy one!"—Penny Pictorial.

### An Exchange of Compliments.

Judge Charles P. Daly of New York was a charming conversationalist as well as a model citizen and an accomplished jurist. He met the Duke of Wellington once, and the duke remarked to him that he seemed too young to be on the bench.

"I owe my position," replied Judge Daly, "to one of those accidents of fortune to which your grace owes so little."

"I recall my criticism," said the duke grimly. "You are doubtless where you belong."

### How the Oak Will Grow.

There are trees which would seem to substantiate the theory of some scientists that there is no reason why a tree should ever die unless destroyed by unfavorable conditions or accident. The oak, for

example, will live as a sapling for ages until given opportunity for growth. There is an old saying to the effect that if a pine forest is cut down an oak forest will grow, and this is said to be literally true. Many of the acorns carried into the pine woods by birds and squirrels are left to sprout in the ground. As the tiny saplings grow browsing natives of the forest shades nibble off their tender leaves. Again and again new leaves are put forth, only to serve as food for hungry deer or moose or other marauding creatures. And so, hidden from sunlight, deprived, as it would appear, of every essential of life, the little plants live on, and when at last the pines are felled and the sunlight reaches them they begin their era of growth.

### A MYSTERY EXPLAINED.

Origin of the Doleful Messages From the Baker.

A story told by Dr. Robertson Nicoll in the British Weekly of the man who saw in a dream his own epitaph written upon a tombstone recalls the shocks and thrills which the good people of Reading experienced when that Berkshire town was younger. Mysterious messages were conveyed to the townspeople, inscribed upon their bread. One old lady found upon the bottom of her loaf a death's head and crossbones. So terrified was she at what she regarded as a terrible omen that she took to her bed and died. Another person found on his bread the words "Died Sept. 20," with the year fortunately missing, while to a third came the word "Resurgam." This latter cryptic message was submitted to a wise man, who inferred that nothing occult was implied, but that it was the baker's way of politely intimating that bread might rise in price. These and like mysteries threw the whole town into a panic.

Light came unexpectedly. The first step carried the investigators to the hallowed acre about St. Giles' church; the second led them to a baker's oven. Alterations at the church had necessitated the removal of several large tombstones of a date too ancient to admit of their being claimed by kinsfolk of the dead. Now, the church warden at the time was the town's chief baker, and he looked with longing upon those fine flat stones, for his oven sadly needed a new bottom. The desire to possess them grew irresistibly upon him, and, winking at scruples and parochial duty, he at last carried the treasures at dead of night to his bakehouse. There they were built into the oven. But, as murder will out, so will graven memorials of the dead. The stones were accidentally fixed with their inscription upward to print their story upon the bread which the unjust parochial steward baked and sold.

### Where Everything Grows.

The tuberose flourishes amazingly in the open air in the Transvaal with but the smallest attention and cultivation. The bulbs shoot up their three or four foot stems, each bearing very sweet smelling flowers in an incredibly short space of time. In Pretoria roses are prolific—in fact, most of the streets are bounded by rose hedges throughout their length—and they bloom with a frail, pink monthly rose blossom for three-quarters of the year. In public places, such as the park, the profusion of roses, lilies, carnations and tuberose is bewilderingly beautiful. The wild orchids of Swaziland are famous. They are of at least twenty different kinds. They are extremely curious, and with a little care and extra heat they can be induced to develop into very wonderful plants. Everything grows in the Transvaal if the trouble is taken to plant it.

### The Gallery Answered Martha.

Of the Dublin gallery boys a famous baritone in his reminiscences tells some good stories—one of "Faust," in which he played Valentine.

After the duet Martha, who rushed in at the head of the crowd, raised Valentine's head and held him in her arms during the first part of the scene and cried out in evident alarm:

"Oh, what shall I do?" There was a deathlike stillness in the house, which was interrupted by a voice from the gallery calling out: "Unbutton his weskit!"

### A Knock-turn.

When J. A. MacNeill Whistler lived in Chelsea, England, his peculiarities soon made him a familiar figure even among the bargemen, who got to know him as the artist of their beloved Thames. One afternoon, while sauntering along the embankment, Whistler was confronted by a man who had one eye most effectively blackened. The artist stopped and inquired, "What's the matter, my good fellow?" The man touched his hat. "Oh, nothing, sir—merely a knock-turn in blue and green."
