

K. OF P. BALL BRILLIANT SUCCESS

One of Greatest Social
Events of Season in
Bandon

ORIENTAL HALL FILLED TO OVERFLOWING

The Knights of Pythias ball given at Oriental Hall Saturday night was a brilliant success in every particular, despite the fact that the weather was decidedly unfavorable.

The Knight's ball is always looked forward to as one of the greatest social events of the season, and the ball Saturday night was the 14th time that this order has "made good" by entertaining the people even beyond their anticipations.

A special train load had intended to come from Coos Bay, but owing to the inclement weather the idea was abandoned, but as it was Oriental hall was crowded to overflowing.

Promptly at 9 p. m. the grand march started off led by Mr. and Mrs. C. E. Hollopetter and seconded by Dr. and Mrs. L. P. Sorensen. The hall was beautifully decorated in blue, yellow and red, the colors of the lodge and in addition the brake which grows so luxuriantly around Bandon was very effectively used.

At midnight supper was served at Craine's boarding house, where an elaborate spread was enjoyed by all. Dancing continued until 2:30, when at the conclusion of No. 23, everybody wended their way homeward. The committee having the affair in charge, and to whose untiring efforts the success of the occasion was largely due are as follows:

General Committee

C. R. Wade,
Dr. L. P. Sorensen,
J. Mast.

Reception Committee

H. L. Morrison,
John Langlois,
R. E. L. Bedillion,
G. T. Treadgold,
E. Lewin.

Floor Committee

Moss Averill,
Howard Culver,
Joe McCord,
Nels Rasmussen.

Heny is Better

Reports from San Francisco as late as Monday of this week are to the effect that the Graft Prosecutor Heney is improving constantly and his condition is such now that he is considered entirely out of danger. It is to be hoped that he will completely recover so as to be able to bring all grafters to time and put them where they belong.

Building Continues

Building in Bandon continues at a rapid rate, there are a number of new residences under construction at the present time besides a couple of business houses and the fine \$30,000 school house. Another feature in the development of the city is the improvements of the streets that is constantly going on. Some have the idea that nothing in this line is being done, but it must be remembered that a city cannot be built in a day, however every citizen is anxious to see improvements go forward as

rapidly as possible, and especially in the heavier traveled districts. One very much needed improvement at the present time is a sidewalk running east on Atwater street. The bridge is not in good condition for Pedestrians as there are puddles of water standing on it during the rainy season, which it is impossible to get around especially after night. A sidewalk could be built at a comparatively low cost, as a good foundation is already laid most of the way. The sidewalk proposition would be a good thing for the new city administration to look into, not only on Atwater Street, but other places in the city.

Clean Up Days

Next Monday and Tuesday have been designated by the Beautiful America Club as clean-up days for North Bend. Numerous inquiries have been made to the club as to the time when the garbage man would be sent around again and at their last meeting it was decided to take Monday and Tuesday for that purpose. Hereafter the club will attempt to get the work done once a month.

It is desired to have a full attendance at the next meeting and all who have ever been members are invited to make a special effort to get out to the meeting at Taylor Hall Tuesday afternoon, says the Coos Bay Harbor.

It would be a good thing for Bandon people to have something of the kind.

Ask Review of Oil Case

Washington, D. C. Nov. 23—Attorney General Bonaparte filed today his petition in the Supreme Court of the United States urging the court to issue a writ of certiorari to the circuit court of appeals for the seventh circuit to review the judgment of that court reversing the rulings of Judge Landis in the case in which the Standard Oil Company was fined \$29,000,000 on charges of violating the anti-trust law. Attorney General Bonaparte takes the position that the court of appeals was without jurisdiction when it reversed the Landis decision.

Big Scores at Bowling Alleys

The prize for the highest score at the Arc Light Bowling Alleys for the month of November is a five dollar pair of cuff buttons and several tickets on a fifty dollar diamond ring being given away by F. H. Van Norden. So far there are a number of scores above the 200 mark, and up-to-date, G. T. Treadgold is high man with 235 pins. There are several however, who are dangerously close, and to cinch the prize, it is possible that Mr. Treadgold may have to raise his score a few pins, although it is generally conceded that a 235 score is hard to beat.

Harvard Won

For the first time in seven years, and the third time in twenty years the Harvard foot ball team won from Yale last Saturday. The score was 4 to 0 in favor of Harvard. Kennard, of Harvard kicking a goal from the field in the first half which was the only score made during the game.

After this Date

The Church of Christ will meet in Concrete hall over Trowbridge's store each first and third Lord's day of month. Everybody invited to morning and evening service 11 a m and 7:30 p m.

I. J. PORTER,
Pastor.

R. D. HUME PASSES AWAY

Salmon King of Rogue River
Succumbs after Long
Illness

INTERMENT AT WEDDERBURN FRIDAY

R. D. Hume, the Salmon King of the Rogue river, owner of the gasoline boats Osprey and Enterprise, and capitalist, died at his home in Wedderburn Wednesday morning.

Mr. Hume's trouble, which finally resulted in his death, dates back for several years, and at different times he has been near death's door, but each time was able to recuperate, and at first there was not much alarm about his condition but he gradually weakened until the end came.

Mr. Hume has been in fairly good health this summer, and some weeks ago his wife started for a trip abroad but only got as far as Bandon when she received a telephone message that her husband was very ill, and she immediately returned to his bedside.

Mr. Hume was born in Augusta, Maine about sixty-three years ago, but has lived on the Pacific coast over thirty years. He was known all over the state of Oregon, as a great business man and capitalist. His wealth being quoted into the millions.

He was an enthusiastic Oregon booster and his death will be greatly regretted by many people.

Presbyterian Church

Preaching at the Presbyterian Church the first and third Sundays of each month, both morning and evening. Sunday School and young people's meeting every Sunday.

Visitors and transients are cordially invited.

GEO. H. ROACH, pastor,
A. HABERLY, temporary supply.

Union Thanksgiving Services

Union Thanksgiving services will be held in the M. E. Church on Thanksgiving Day commencing promptly at 10:30 a. m. All are cordially invited to be present at these services.

A. HABERLY,
R. H. ALLEN.

Wall Paper

T. W. Robison has a fine line of wall paper samples. Anyone desiring the best there is to be had in this line can secure the same by calling at his residence.

T. W. Robison Bandon, Ore. 437f

English Walnuts

I am agent for Brooks & Sons of Carlton, Ore. for their celebrated English Walnut trees. This firm is the only English Walnut importers in the state.

B. L. HURST.

Subscribe for the RECORDER and get the news.

J. P. Tupper of Coquille was in Bandon Wednesday on business.

Mrs. M. A. Tupper and children of Coquille were in Bandon Wednesday on their way to spend Thanksgiving with Mrs. Tupper's daughter Mrs. Kenneth Perkins.

Send Delegate to Washington

The Chamber of Commerce of Coquille held a meeting Tuesday evening and appointed S. J. Lyons as a committee of one to interview the citizens of Bandon in regard to sending a representative to Washington to intercede for the Coquille river and bar. Mr. Lyons was in Bandon Wednesday interviewing our citizens in regard to the matter. It will take about \$400 to bear the expenses of a delegate and Coquille wants each city to subscribe \$200. No person has been selected as yet but most everyone is in favor of Orville Dodge, as he has been there before and understands the situation better, perhaps than anyone in the valley. The matter should be given immediate attention.

Margaret Iles Co.

We go to press too early to give an account of the Margaret Iles Co. in Jason Joskins, but will make a review of the play next week, also of the play Under Two Flags, which is on the board for next week. Both plays should be well patronized.

North Pole by Zeppelin Flyer

Berlin, November, 21—In all likelihood an attempt will be made next year by Professor Herguezell to reach the north pole in the Zeppelin airship, the expense of the trip to be borne by the government. Herguezell, who is chief of Zeppelin's staff of Friedrichshafen, is an enthusiast on the valuable features of the dirigible balloon as an aid to topographical science and cartography. He is already planning for the trip. His main obstacle, which it is hoped can be overcome, is carrying a sufficient quantity of gas for the long trip. The start will probably be made from the coast of Spitzbergen.

Notice

Notice is hereby given to those indebted to the old firms of Panter Bros. and Lorenz & Hoyt that the Board of Trade of San Francisco have placed the accounts of said firms in my hands for collection. All said accounts must be closed at an early date; those knowing themselves indebted to said firms will please come forward and settle at once.

Dated November 12th.

GEO. P. TOPPING.

CODY MILL NOW

RUNNING STEADY

Has Been Going at Full
Capacity Since Last

Monday

OUTLOOK FOR FUTURE IS BRIGHT

The Cody mill is now running at full blast, and the welcome echo of its penetrating whistle is heard to reverberate through the air several times a day, but the best noise of all is the clanging of the great band saw as she goes ripping through the logs, tearing off the lumber for foreign and domestic trade.

The mill started up last Thursday but it was not put into full operation until this week. The capacity of the Cody mill is about 100,000 feet a day which will be sufficient to keep a large boat busy hauling lumber to San Francisco, and have a margin to spare.

The Lyons-Johnson mill is also in operation with a capacity of 50,000 feet and the two mills can easily keep two boats going.

It is probable that the Fifield and the Bandon will both be on regular runs between here and San Francisco and a number of tramp schooners will also come in here.

The new pile jetty is putting the bar into a condition that most any kind of a vessel can come in.

Portland Police Asked to Aid in Salem Case

The Portland police have been asked by the Salem authorities to keep a lookout for one of the thugs who held up and shot Dr. C. H. Robinson in Salem Friday night. Information was received at police headquarters from the sheriff's office at Salem to the effect that the highwayman had, upon learning of the arrest of his confederate gone to Portland.

The highwayman is described as about 21 years of age, about 5 feet 9 inches tall and weighing about 145 pounds. When last seen he was wearing a black hat and dark clothing and a double breasted blue flannel shirt.

So far no trace has been found of the thug, although all patrolmen have been furnished with descriptions and are keeping a lookout for him.

THE INDUSTRIAL ADDITION

IS SELLING FAST because it is only five minutes walk to the manufacturing center. Workmen can go home to their meals without being hurried. Houses are more in demand in that locality and rent more readily and at better prices than any where else in Bandon.

If you intend to get a lot, act now as they will soon be gone. It costs only a trifling self denial to own your own home where you are sure you can not be ordered out at the end of the month and the amount you are now paying for rent will do the work. Be wise to this and get a lot while you can on easy terms.

T. B. Wheeler Opp. the Post Office.
