Bagged Bruins

Albert Garfield, H. P. Smith and Port Sumner returned Sunday from Southern Curry county where they had been on a few day's bear hunting expedition. They succeeded in bagging a number of bruins and secured all the bear oil they could haul. One bear alone made about 20 gallons of the finest oil ever secured in this section or any other so far as that is concerned.

In conversation with Mr. Garfield he stated that there were dozens of bear in the woods down there. The boys had a fine time and enjoyed the outing to the fullest extent, as well as succeeding in getting what they went after in the way of game.

Basket Ball

Both the boys' and girl's basket ball teams of the high school will go to Coquille Friday evening, where they will play with the respective teams of the Coquille High School. The steamer Favorite will be chartered for the occasion and will make the round trip, and all people interested in the school or in basket ball are invited to go along. Round trip tickets 50 cents. Boat will leave Bandon promptly at 4 p. m. and return as soon as the game is finished.

G. A. R. Ball

The G. A. R. is making extensive preparations for their annual mask ball which will be given at Oriental hall Christmas eve. They are making the greatest of preparations and they are promising the public one of the best times that has ever been given in Bandon, by any organization. Arrangements are now under headway for the big event.

A Christmas Idea

What could be more practical and of more benefit than the gift of a scholarship in the MILLER-CLEAVER BUSINESS COLLEGE?

The young man or young woman who has a business education is entirely independent and can make his own way under any circumstances.

Parents can you do better than to give that boy or girl an opportunity to become equipped to earn a good salary at pleasant work with numerous chances for promotion.

Give us the student and we will see that he becomes a competent bookkeeper or stenographer, or both.

Make Your Paint Money Buy Satisfaction

PAINT satisfaction means the working-- spreading--covering--lasting qualities of the paint. There's neither satisfaction nor economy in cheap paints--they crack and peel and blister--won't wear. And hand mixed lead-and-oil paint is little better. But your money buys unflinching satisfaction when you get "High Standard" Paint--It's made of best materials--and ground-and-mixed into a perfectly uniform paint-liquid by machinery. Then there's thirty-five years of paint-making experience back of it. That's why "High Standard" Paint covers more--and wears from two to four years longer than other paint, and costs less. Write for our free booklet, "Attractive Homes and How to Make Them."
