

NEW MACHINERY FOR WOOLEN MILL

Will Install Large Steam Finishing Machine in Near Future

HAS BIG ORDERS AHEAD FOR YEAR

The Bandon Woollen Mill will close down in a week or so and remain closed for a couple of weeks during which time a large amount of new machinery will be installed, among which will be a new steam finishing machine, which will enable the mill to do more work and finish up heavier goods.

Manager Bedillion stated that the new machines would also enable them to make heavy blankets, an article for which there is much demand. The mill is doing good work now, but the demand for finished product is growing so great that it is necessary to have every convenience possible. Additions to two of the spinning jacks will also be made, thus increasing the capacity of the plant to a considerable extent.

The woollen mill has sufficient orders ahead now to keep it running at full capacity for a year, and only recently a letter was received from a New York house tendering an order that would keep the mill running for two years, this order, of course, had to be turned down as the Detroit firm, for which the mill has been manufacturing ever since it started up, will keep it going constantly.

The Woollen Mill is an excellent industry for Bandon and one to which all our citizens point with pride.

Port Orford Orchard Tracts Company

The following letter will be of great interest to many of our readers as coming from an authentic source. Langlois, Ore., Aug. 11, 1909—

Dear Sir:—In your last issue you stated that I came home from Portland where I had been on business in connection with the Port Orford Orchard Tracts. This is correct and I have just received a letter from the company and as so many people are interested in that company I here send you a copy of the letter, hoping you will publish it for the benefit of your many readers.

Portland, Ore., Aug. 6, 1909— Mr. O. P. Haagensen, Langlois. Dear Sir: We write you at the suggestion of Mr. Oldenberg, with whom you are well acquainted relative to the situation in connection with the Port Orford Orchard Tracts Co.

Our firm, Donnell and Parberry, has been appointed sales agents in charge of the property by the new board of directors. We are arranging the new financial matters of the company so as to have money sufficient to pay off the entire indebtedness on or before Sept 1-5, in fact with our present arrangements we will have the money by the first of September, but of course it will take a few days to reach your country and pay off the entire indebtedness.

What we want of you Mr. Haagensen is a little assistance at that end of the line. We understand through Mr. Oldenberg that the

WILL GUARANTEE DEEP WATER

Local Men Will Sign Contract to Furnish 20 Feet on Bar and in River

Some local business men of Bandon have informed the RECORDER that they are willing to sign a contract to furnish 20 feet of water on the bar and in the river at medium high tide and they will guarantee to keep it that deep the year around. They also state that they will contract to have the work completed within a year's time. All they ask in compensation for their work is five cents a ton for all freight that goes over the bar and five cents a thousand for lumber, and they further state that whenever there is less than twenty feet of water they will not ask a cent. This is a proposition that all shippers could well afford to consider as it would be money in their pockets. A guarantee of 20 feet of water at all times of the year would wonderfully facilitate the shipping industry on this river. Let's get busy and give them a chance to make good.

people there whom the company owe are quite restless and dissatisfied with the way things have been conducted. We cannot blame them for this but we would like to have you take the matter up with them in our behalf and ask them to bear patiently with us for these few weeks until we can succeed in raising the necessary amount to liquidate the entire indebtedness of the company. You can state to the creditors that by bearing with us in this way they will have their money in full without any additional cost to them, whereas if they crowd the company in to an assignment it is probable they will get but a few cents on the dollar since none of the property held by the company at present is fully paid up. Also kindly state to the creditors that the company has been reorganized and we have now some of the best business men in the city and state as directors and officers of the company. The name of the townsite has been changed from Crittenden to "Pacific City." The name of the company is changed from Port Orford Orchard Tracts Company to "Pacific City Improvement Company" and with the present board of directors we feel assured that we can gain the good will of all the people in your vicinity, since we will soon have all debts paid.

Our firm has been very successful in pulling companies out of financial distresses and troubles and we feel that we can assure your people of soon being able to place this company on a good financial footing, and we ask the hearty cooperation of you all in our effort to do so. We will come down and look the ground over about the first week in September and at that time we will have the money to pay up all indebtedness and start in a clear footing. Kindly do what you can to assist us, and very greatly oblige, Yours truly, DONNELL & PARBERRY. By C. R. Donnell

MR. EDITOR—this is an exact copy of the letter I received and I will state that I was in Portland three weeks and attended nearly all of the meetings. I was present when Mr. and Mrs. Lee and Mr. Crittenden resigned and I saw the new board of directors elected and I must say that it is a fine lot of men and all good sound business men. Very respectfully Yours, O. P. HAAGENSEN.

RAILROAD SURVEY IS COMPLETED

Distance Between Bandon and Port Orford Considerably Shortened

PREPARING FOR CONSTRUCTION WORK

The preliminary survey of the Bandon Port Orford railroad is all complete and the work of setting grade stakes and preparing for actual construction is now under headway. The distance from Bandon to Port Orford, by the new survey is 27 miles. This is five miles less than the wagon road now in use and the saving of five miles in distance means a saving of a big sum of money in the construction of the road.

An easy grade all the way has been found and the cost of the road will be many thousand dollars less than was first estimated.

The work of securing right-of-way is progressing nicely, and there is but little difficulty in getting this matter arranged. Just as soon as the right of way is secured, the construction work will commence and it is now thought that all of this can be accomplished by September 15th and possibly sooner.

People living along the line are all interested in the project and anxious to see the work commenced as soon as possible.

Four Mile Notes

Mrs. Johns is visiting her father R. E. Rea on Four Mile.

Deloss Gardner's family are having a severe tussel with the grip.

Mr. and Mrs. Sumner spent a very pleasant week at the Delorg ranch.

New Lake and Laurel Lake school are having a short vacation during the institute.

Mrs. Rollie Davis' little girl Leona has had a severe spell of tonsillitis but was better at last report.

Blackberries are gone, everybody is trying to rest up after their hard chase in the hot sun over the hills.

Ralph T. Hunt is visiting at the Cope ranch. He seems to be well pleased killing digger squirrels and eating chicken.

George Cox had the misfortune to lose the middle finger of his right hand at the first joint in the mill known as New Mill.

A. Davis, road supervisor of District 24 is preparing to put a new bridge across Coner creek. This will be a great help to that part of the road as the old bridge is unsafe for heavy loads.

Andrew W. Jackson of the Eugene University is visiting his mother Mrs. J. A. Cope on south Four Mile. His visit will be short as he has to return by the 1st of September to get in readiness to attend the Columbia University of New York City as assistant. His many friends wish him success in his undertaking.

Harry Funk of Phoenix, Arizona is visiting his sister Mrs. Annie Wilcox on Four Mile. Mr. Funk is a traveling man and was just making a trip from Phoenix Arizona to Butte Montana and spent a few weeks at the Seattle Fair, when he received the sad news of the death

CARNIVAL WORK STILL PROGRESSING

Vote Starting off With a Great Rush For King and Queen

The work of getting ready for the big Bandon Carnival to be held September 16, 17, 18 is progressing nicely, and indications are that it will be a big affair. All committees are working with a vim and are determined to see to it that nothing is left undone that will make the carnival a grand success.

The voting for Carnival Queen is starting off with a vim and gives promise of becoming more spirited as the time draws nearer for the carnival.

The vote for king has not been so vigorous but there promises to be a fast start soon that will not cease until the last minute of the last day before the big affair.

The finance committee for the carnival has not called upon the business men for subscriptions as yet, but the following volunteer subscriptions have been received, and it is evident that when the business houses are called upon they will respond liberally and the raising of \$800 to \$1000 will be a matter of little difficulty. The following are those who have voluntarily put their names on the subscription list. Let others follow.

Recital Aug. 20

A recital will be given at the Presbyterian Church, Friday evening Aug. 20 at 8:30 o'clock, by Miss Winnifred McNair and Miss Christina Denholm assisted by local talent. Proceeds to go for the benefit of the manse fund. Admission 25 and 35 cents. Following is the program:

Swallows, Cowen: Miss Winnifred McNair.

April Song, Newton: Miss Christina Denholm.

Morceau, Op. 22, Wollenhaut, Miss Ethel Dyer.

(a) Love in the Southland, Canfield (b) Way down South, Hawley; (c) Four Leaf Clover, Brownell; Miss McNair

Reading, Selected, Miss Wynona Patterson.

(a) Love is a Rose, Sans Souci; (b) My Rose of Yester-e'en, Marie Rich; (c) Rose in the Bud, Foster; Miss Denholm.

Violin Solo, Selected, Prof. E. B. Kausrud.

Duet, Annie Laurie, Miss McNair and Miss Denholm; accompanist, Miss Ethel Dyer.

Card of Thanks

We wish to express our thanks to all who so kindly gave sympathy and help in the sudden loss of our baby. Also, we were grateful to the children and others who brought so many beautiful flowers.

Mr. and Mrs. J. B. Moore.

of his sister's husband Henry Wilcox and hurried to Bandon to aid his sister in settling up her husband's affairs. Mr. Funk is well pleased with this part of the country.

WILL ENTERTAIN DEVELOPMENT LEAGUE

Oregon Idaho Development Congress to be Shown Good Time

WILL BE IN THIS CITY NEXT SUNDAY

At the regular meeting of the Commercial Club in the city hall Tuesday evening, delegates were elected to the Oregon-Idaho Development Congress to be held at Marshfield Friday and Saturday of this week, and plans were laid to entertain the delegates to the congress from all parts of Oregon and Idaho, when they come to Bandon next Sunday.

A special train will be run from Marshfield to Coquille Sunday, leaving Marshfield at 8:30 a. m. The Coquille River Transportation Co. will arrange to bring the crowd from Coquille down the river. The steamer Dispatch will leave here that morning in time to meet the train, and the reception committee will go up and escort the visitors down the river, pointing out the places of interest along the line.

On arriving at Bandon the visitors will be given a lunch at the Hotel Gallier and then conducted to the beach where they will be shown the time of their lives and treated to a big clam bake.

Other arrangements for entertainment will be made by the entertainment committee.

All citizens of Bandon, both men and women are urged to be out and help to make the day a success in every particular. A ladies' reception committee was also appointed, and it is expected that a large delegation of ladies from the outside will be present.

Both ladies and gentlemen on the reception committee, all of whom will be notified by the secretary of the Commercial Club, C. R. Moore, are expected to go up to Coquille on the Dispatch and help to escort the visitors down the river.

Everybody should get in and work and help to leave an impression on the visitors that they will always remember.

Marshfield Elks Lodge

The new Elks lodge for Marshfield will be christened Monday and Tuesday evenings August 30 and 31. They are sending out notices inviting every Elk in Christendom to attend the affair and they promise them the time of their lives.

They say these will be "Red Letter" nights, but the days don't count. They will have initiation Monday night.

Card of Thanks

We desire to express our gratitude to all the friends and neighbors who so kindly assisted us during the long illness of our brother Henry Sanford. We especially thank his comrades of the G. A. R. and W. R. C.

MR. SANFORD, MRS. ROSS.

Bring your baby buggies to Wooduff & Turner's and have the tires set while you wait. 30th

NOTED EDUCATOR VISITS BANDON

Prof. Ressler in Charge of Industrial Pedagogy at Corvallis Here

Among last week's visitors to Bandon was Professor E. D. Ressler of Corvallis. He was in Coos county to attend the annual teachers' institute, in session this week at Coquille, and to represent the Oregon Agricultural College, in which he has just taken charge of the new course in industrial pedagogy.

During the past seven years, Mr. Ressler was president of the Oregon State Normal school at Monmouth, and in that capacity visited every county in the state. He is an enthusiastic Oregonian, notwithstanding the fact that his school, together with the other state normals, was denied an appropriation by the last Legislature. All the normal schools will remain closed during the next two years, when it is expected that the Normal school question in Oregon will come up for final settlement.

In assuming his new position in the Corvallis institution, Professor Ressler continues in his chosen work of training teachers. At the O. A. C., a part of his work will consist in preparing students to teach the special subjects of agriculture, manual training and domestic science in the public schools. Industrial training in the common schools is a part of the "new education", which is rapidly gaining ground in the United States. Educators and social movements have come to a realization of the fact that the present course of study in the elementary high schools is seriously deficient in subject matter and method.

The interests of the many children who will be limited to the educational advantages of the common school, have been subordinated to the interests of the few who are preparing for college and university. The new education seeks to make provision for practical industrial training for the purpose of appealing to the needs and interests of this large majority, without in any way weakening the course adapted to the needs of the few.

Professor Ressler reports the prospects fine for another large increase in the attendance of students at the State Agricultural College next year. 1351 was last year's enrollment, a gain of nearly twenty-five percent over the previous year. Over 1500 will doubtless enroll during the coming year.

A Sad Death

Fay La Prele Moore aged 1 year and 2 days died at the home of her parents, Mr. and Mrs. J. B. Moore, on Aug. 13 at 1 a. m. in a convulsion. She passed away before help could arrive. This is a sudden blow as the child had not been sick and was unusually bright and attractive during the day.

She came to us one day, Our little Fay Helpless, always smiling gay, She only crept her way.

And she crept into our hearts But to part. Only one short year we mark. Sweet Love, thy little bark The tide has only wafted back.

We will watch for that tide Side by side, And drifting, we will see Those radiant eyes and follow thee.

Cedar Planking for bridge and street work. Estabrook Co. 26th
