The Bandon teachers are all at Coquille this week attending the Institute. Most of them go up on the early boat in the morning and return in the evening, thus doing away with the necessity of staying in Coquille over night. They report a very profitable session of the institute.

Among those who successfully passed the examinations for certificates to teach in Coos county last week, were Misses Dorothy Gibson and Beulah Hesse, both of whom graduated from the Bandon high school in June. These young ladies succeeded in getting good grades, which speaks well for the work being done in the Bandon high school.

The Port Orford Tribune apparently thinks that Curry county residents have the divine right of kings to hunt in southwest Oregon. A few Coos county people have gone down to the Rogue river and other Curry points and some of them, at least, are as good and careful hunters as ever snoudered a gun, and they will abide by the game laws too. Of course there are always some unprincipled men who kill game just for the sake of slaughter, but every community has its quota of such men.

Wm Anderson, who lives three and one-half miles south of Bandon brought some samples of onions, potatoes, celery, cauliflowers, rutabagas potatoes and cucumbers of his own raising to the RECORDER office last Friday, and when we say they were as fine vegetables as we ever saw, we do not aggregate in the least, and what is more, they tasted as good as they looked. Mr. Anderson also brought about a dozen different varieties of flowers, all of which were beautiful and fragrant. Mr. Anderson came to this county only last year and is very enthusiastic over the resources and opportunities here.

A picnic party went up from Bandon to Randolph Slough Sunday and had a gorgeous time, but there were several mishaps such as losing a watch which was afterward found, losing a valuable stick pin, not found to date, etc. Then to cap it all when the party wanted to return home they found they were shipwrecked, which caused considerable delay. The gasoline engine refused to do duty, but after some time another vessel was sighted, which towed the disabled craft into port and the party succeeded in getting home about 11:30 p. m. No one was sorry for the shipwreck, however, as it only tended to prolong the day which was so pleasantly spent.

The preliminary survey of the Bandon Port Orford railroad was completed last Saturday in remarkable time. An easy grade has been found, and the distance we are told is shorter than the wagon road between the places. The route follows closely the Brown survey for the Southern Pacific and the country is so level that there can be no serious clash between the two rival companies. Mr. Hughes the surveyor in charge, will now return to Bandon, to set grade stakes and prepare for immediate work. We hope that there will be no hitch in the pro-

ceedings of the plucky men behind this road, and applaud their wisdom in thus selecting the best, and easiest road to build along our entire stretch of coast, having at each end two of the best harbors on the coast, and backed by illimitable resources, partially developed. The eyes of the world will be opened to the greatness of Port Orford Harbor, by the completion of this road, while the greatness of the Coquille is already revealed.—Port Orford Tribune.
