The Best Known Newspaper in the United States—Circulation 200,000—Popular in Every State

The 74th year of its existence finds the Toledo Blade more popular than at any period of its remarkable career. It is now read each week by more than a million people. Its field is not circumscribed by state boundaries, but involves the length and breadth of the United States, giving it an unquestionable right of claiming to be the greatest national weekly newspaper in the country.

The Weekly Blade is distinctly a family newspaper. The one object of its publishers has always been to make it fit for the American home, for the fireside and of interest to every member of the family. To fulfill this purpose it is kept clean and wholesome. The news of the world is handled in a comprehensive manner, and the various departments of The Blade are edited with painstaking care. The Household page is a delight to the women and children, current affairs are treated editorially without prejudice; the serial stories are selected with the idea of pleasing the greatest number of fiction lovers; the Question Bureau is a scrap-book of information; the Farmstead columns are conducted with the purpose of giving the patrons a medium for the exchange of ideas and information on farm topics. No department is neglected, but every feature is taken care of with the idea of making The Blade worth many times the price of subscription—\$1.00 a year. Sample copies mailed free.
