James I. Hill in a speech, said that "one acre of Tillamook lumber would produce more lumber than 100 crops from wheat land." At 60 lbs to the bushel, and an average of 30 bushels to the acre, 1800 lbs to the acre for wheat. Take lumber at 50,000 feet to the acre, 3000 lbs to the 1000 feet dry weight, and we have 150,000 or 75 tons against less than one ton to the acre in favor of lumber. This is our possible tonnage, 75 tons per acre, and we have 500,000 acres of timber land.—Tillamook Herald

If it is right to protect the public from spurious food, there should also be a law to guard them against bad pictures. At least that is what the Photographers Association of the Pacific Northwest believes and it has appointed a legislative committee to urge an inspection bureau. It would also serve to curb the activities of fake picture men. The Bandon picture shows, however, are conducted in such a manner that legislation affecting them would be entirely unnecessary. Saturday morning was a little damp, but about noon the weather conditions began to look better and before evening the streets were lined with people all having the time of their lives. Confetti and horns were again much in evidence and in the evening occurred the big mask parade and crowning of the carnival king, who came out of the woods in his automobile accompanied by his knights. This event took place under the arch in front of the Gallier hotel, where the queen was in waiting for the arrival of the king. The ceremony was in charge of J. W. Mast and was conducted with great dignity. There was dancing each evening at the Timmons building and everybody had a good time. Most of the side shows and other attractions were good and received a big patronage; all of them excepting one or two made good money.

In fact the carnival was a big success in every particular so far as merry making was concerned, but the committee finds they are a little behind in their accounts, owing to the fact that more attractions were provided than the amount taken in would pay for, but there will probably be little difficulty in raising the deficit as everybody was so well pleased with the carnival, that they will come through with the money to pay all expenses.

The Carnival Committee have done their work well, and have given the people of Bandon and vicinity a good time. The Bandon Concert Band gave us some fine concerts and are worthy the praise of every citizen. In fact all Bandonians, who had anything to do with the carnival have acted well and should receive the sincere thanks of the people.

CIRCUSES.

The Old and the New and the Greatest Drawing Card.

Before the one ring days and going back a few centuries the circus was represented in the person of a mountebank, a thin visaged, clean shaven man who hitherto his trapeze to the sturdy limb of a village oak and did feats to the ill concealed amazement of a people who respected God somewhat, but the devil and his black magic a great deal more.

A long and high jump this—from mountebank to modern hippodrome, from a man who lived under his hat to a tented city which houses as many as 25,000 people in one day and regularly furnishes food, shelter and transportation for 1,200 more, to say nothing of a hospital, a postoffice and a commissary where one can purchase almost anything from a postage stamp to a suit of overalls.

The big show today is as highly specialized and deviously organized as its our greatest business institution. Its maintenance costs a thousand dollars an hour. Yes, it's a long jump from the mountebank; but, after all, things haven't changed so much in some ways.

A man who was running a trick pony and dog show last year added a "thriller" to his program in the way of a dangerous flying trapeze act. To the delight of his pockets, but the intense disgust of his trainer's soul, the door receipts almost doubled. He had two men at the door one night who asked the outgoing crowds which part of the show they liked best—the trick animals or the acrobats? They answered as one. "The acrobats!"

Danger—danger to other human lives and limbs—that's the drawing card, after all, excepting only the children who are too young to be gory minded and who find most delight in the clowns. We grownups like the "thrillers"—the more deadly the better. —William Allen Johnston in Harper's Weekly.
