

The Grange Corner

Conducted by Frank. F. Eddy, Master of Bandon Grange.

It seems that I overstepped the mark, that is overstepped one of the state grange by-laws when I announced last week that new members would be obligated at the next meeting. The requirement of the state grange is that candidates must not be initiated, except as charter members, before the regular meeting following the one at which their names are proposed. But this is what we will do: We will have an open meeting on the first Saturday in November to be followed by a brief business meeting of the charter members. It will be a meeting to talk over the possibilities of the situation. I will announce a program and give full details of the meeting in the next issue. The names of new members should be handed in at this meeting so that they may be obligated at the next meeting on the first Saturday in December which will also be the date for the election of officers for the ensuing year.

It is worth noting in the grange corner that the Initiative and Referendum law has had two guardians in Oregon that have produced the funds to defend it in the courts against the attacks of those who shudder to have the people propose legislation instead of the bosses. One of these guardians was the State Federation of Labor, the other was the State Grange.

The general aspect put forth in the Declaration of Principles for the National Grange are these:

1. United by the strong and faithful tie of agriculture we mutually resolve to labor for the good of the order, our country and mankind.
2. We heartily endorse the motto "In essentials, unity; in non-essentials, liberty; in all things, charity." I can only add "them is my sentiments" too. In another place in this same declaration of purposes I find the following: "We acknowledge the broad principle that difference of opinion is no crime and hold that progress toward truth is made by differences of opinion, while the fault lies in bitterness of controversy."

The Bandon RECORDER and the San Francisco Bulletin are offered in a club combination. Now that is a good thing. The RECORDER speaks for itself. It also has the grange corner, which speaks for itself like little Jack Horner. As for the Bulletin permit me to say that as a newspaper it is as good as the best, but besides being that it is leading under its great fighting editor, Fremont Older, what is at the present time the nearest and most important municipal struggle for good government waged anywhere in the United States. Big issues are tied up with the campaign to elect Heney prosecuting attorney of San Francisco. The biggest one is whether or not the rascals of big business can be made to wear stripes.

WHAT WOULD YOU DO?

In case of a burn or scald what would you do to relieve the pain? Such inquiries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one will cause the parts to heal without leaving a scar. For sale by C. Y. Lowe.

School Report

Report of the Bandon public Schools for the first school month ending Friday, October 22, 1909.
Grade 1, Mrs. Kopf, Teacher—Enrollment 53; daily attendance 44; per cent of attendance 97; times late 7; roll of honor 22.
Grade 2, Miss Marsh, Teacher—Enrollment 47; daily attendance 42; per cent of attendance 96; times late 5; roll of honor 22.
Grade 3, Miss Radley, Teacher—

Enrollment 35; daily attendance 33; per cent of attendance 98; times late 10; roll of honor 19.

Grade 4, Miss Lusk, Teacher—Enrollment 31; daily attendance 29; per cent of attendance 97; times late 4; roll of honor 18.

Grade 5, Miss Rosa, Teacher—Enrollment 44; daily attendance 43; per cent of attendance 98; times late 1; roll of honor 34.

Grade 6, Miss Murphy, Teacher—Enrollment 31; daily attendance 29; per cent of attendance 96; times late 1; roll of honor 25.

Grade 7, Miss Walker, Teacher—Enrollment 34; daily attendance 32; per cent of attendance 99; times late 2; roll of honor 24.

Grade 8, Miss Gearhart, Teacher—Enrollment 26; daily attendance 25; per cent of attendance 98; times late 0; roll of honor 16.

High School, H. C. Ostien, Prin., Mrs. Ostien and Miss Rodgers Assistants—Enrollment 47; daily attendance 45; per cent of attendance 98; times late 0; roll of honor 29.

SUMMARY

Total enrollment 348, daily attendance 323, per cent of attendance 97; times late 30; roll of honor 209.

Roll of Honor includes pupils neither absent nor late during the month. The enrollment is the largest in the history of the school. The greatest increase is in the high school there being an increase of 50 per cent over the first month of last year. The following students of the high school have made a standing of A for the month in the subjects named. A equals 95 to 100 per cent.

GROUP CURED AND A CHILD'S LIFE SAVED

"It affords me much pleasure to add my testimony to that of the thousands who have been benefited by Chamberlain's Cough Remedy. My child Andrew, when only three years old was taken with a severe attack of croup, and thanks to the prompt use of Chamberlain's Cough Remedy his life was saved and today he is a robust and healthy boy," says Mrs. A. Coy, Jr. of San Antonio, Texas. This remedy has been in use for many years. Thousands of mothers keep it at hand, and it has never been known to fail. For sale by C. Y. Lowe.

Dissolution of Partnership

We the undersigned doing business under the firm name of Young & Parker at Parkersburg, Or. have this day dissolved partnership by mutual consent. All accounts due or against said firm to be settled with W. C. Parker.

Signed:
J. E. Young, W. C. Parker. 39 3t

WALL PAPER TRIMMER.

Device Makes For Speed and Accuracy in Cutting Paper.

Pictured in the accompanying engraving is a paperhanger's table of improved design, with a device mounted thereon whereby wall paper may be cut and trimmed with clean edges. The table is of the folding type and is so arranged that when folded it occupies an unusually small compass. The surface of the table is inlaid at one edge adjacent to the cutter with strips of wood of different color and is provided with a scale extending at right angles to the inlaid strips. This serves as a gauge for cutting the paper to the

PAPERHANGER'S TRIMMER.

desired dimensions. The cutter may be removed from the table top when it is desired to fold the table.

The sectional view of the engraving shows the details of the cutting device. It consists of a cutting wheel or disk, A, which is arranged to be moved laterally by means of a thumb lever, B, against a straight edge so as to insure a clean cut. The shaft on which the cutter wheel is mounted carries a roller, E, at the opposite end, which is pressed against the table by the operator when moving the cutter over the paper D. To protect the hand from the rotating parts a cage, C, extends over the shaft and roller E, and this is grasped by the hand of the operator with the thumb conveniently placed on the lever B. The carriage on which the cutter is mounted is provided with fingers F, which engage a guide rail mounted on the table top parallel with the straight edge. Were it not for the lever B, which enables the operator to press the cutting disk A against the straight edge, any inequalities in the guide rail would separate the wheel slightly from the straight edge, causing a ragged cut of the paper.

The inventor of this improved paperhanger's trimmer is Mr. E. E. Gohle, Brattleboro, Vt.

A METHODIST MINISTER RECOMMENDS CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years for diarrhoea. I consider that it is the best remedy I have ever tried for that trouble. I bought a bottle a few days ago from our druggist Mr. R. R. Brooks. I shall ever be glad to speak a word in its praise when I have the opportunity." Rev. J. D. KNAPP, Pastor M. E. Church, Miles Grove, Pa. Sold by C. Y. Lowe.

The Day He Selected.

When Mr. Gladstone was alive he was once discussing with some friends at Hawarden castle the greatest day in the world's history. Each member of the group was asked to say on which day he, in the past or the future, would prefer to live, it being supposed that he should have his present knowledge, and afterward return to his present existence. Mr. Gladstone chose a day in Greece when Athens was at its highest glory.

GOOD COUGH MEDICINE FOR CHILDREN AND GROWN FOLKS, TOO

"We could hardly do without Chamberlain's Cough Remedy," say Mrs. Flora Deapain of Boyd, Ky. "I found it to be so good for the croup and have used it for years. I can heartily recommend it for coughs, colds and croup in children and grown folks too." The above shows the implicit confidence that many mothers place in Chamberlain's Cough Remedy, a confidence based on many years, experience in the use of it. No one need hesitate to use this remedy for it contains no chloroform, opium or other narcotics and may be given to a child as confidently as to an adult. For sale by C. Y. Lowe.

Winter's Reading

The Pacific Monthly of Port and, Oregon, is a beautifully illustrated monthly magazine. If you are interested in dairying, fruit raising, poultry raising, or want to know about irrigated lands, timber lands, or free government land open to a homestead entry. The Pacific Monthly will give you full information. The price is \$1.50 a year.

If you will send twenty-five cents

in stamps, three late issues will be sent you so that you may become acquainted with it. Read the following splendid offers:

Offer No. 1—McClure's Magazine, Woman's Home Companion and The Pacific Monthly, costing \$4.50 will be sent at a special rate of \$3.

Offer No. 2—McClure's Magazine, Review of Reviews and the Pacific Monthly, costing \$6., will be sent for \$3.60.

Order by number and send your order accompanied by postal money order for the amount to The Pacific Monthly, Portland Oregon, 36-2

SICK HEADACHE

This distressing disease results from a disordered condition of the stomach, and can be cured by taking Chamberlain's Stomach and Liver Tablets. Get a free sample at Lowe's drug store and try it.

Notice of Administrator's Final Account

Notice is hereby given that the undersigned Administrator for the Estate of W. S. Pearce, deceased, has filed with the County Court of Coos County, Oregon, a final account of such estate, and a petition that the undersigned administrator be dismissed, and the estate be closed. That said court has set Monday, November 15th, 1909 ten o'clock a. m. at the court house in Coquille, Oregon, as the time and place for hearing the final account filed in said estate.

That all interested persons, or unsatisfied claimants, are hereby notified and required to appear at such time and place, and file objections, if any, or the estate will be settled at such time.

Dated at Bandon, Oregon, Oct. 14, 1909.

A. M. HITCHCOCK,
Administrator.

ATHLETIC TRAINING.

Why the Professional is Enabled to Outstrip the Novice.

A bulletin recently issued by the United States department of agriculture sets forth the results of a long series of experiments carried on by Dr. Benedict and Mr. Carpenter with the remarkable respiration calorimeter at Wesleyan university, which in the hands of Atwater and Benedict has added so much to our knowledge of metabolism, says the Scientific American. As a result of these investigations it seems that the human body is a machine of such wonderful efficiency that one-fifth of the energy expended by it can be utilized as work and that this efficiency is more or less the same in men of all types. The longest and most thorough training does not change this ratio.

The professional athlete, if he is able to outstrip the novice, does so not because he has better muscles, but because he is able to put more energy in the shape of tissue change into action. Training, besides preparing the heart to stand great strain, acts to increase the subject's power of using up his tissue and by giving him more muscle tissue to use rather than by teaching him to conserve his energies. In other words, the professional has a more powerful engine because he is able to use more fuel and not because he wastes less steam, if we may employ a mechanical simile.

A Canal Made of Steel.

In connection with the Nile irrigation system at Wadi Kom-Ombo a steel canal 5,200 feet in length has been constructed to distribute water from the service reservoir to the earth canals. In section this metallic canal is semicircular, twenty feet broad and twelve deep. It is made up of seventeen sections, connected by expansion joints, and the riveted steel plates of which it consists are six millimeters in thickness. During the construction the engineers were troubled, among other things, by the unequal expansion of the metal. The expansion was greatest on the side where the sun happened to shine full upon the plates, and the inequality was often sufficient to displace the end of a section about to be joined as much as four inches to one side or the other.

Cyrotions of South Magnetic Pole.

The south magnetic pole is described by Professor David of Sydney university, a member of the Shackleton expedition, as a point that travels around with a kind of waltzing movement in a circular area thirty miles in diameter and changes its position from day to day and hour to hour. It was observed with a Lloyd-Cress dip circle, which has magnetic needles that tilt more and more nearly to vertical as the pole is approached. The ordinary compass was used also in the observations, but refused to act when near the pole.
