An army of men is at work building railroads up the Deschutes to the interior of the state. The Winter season is not stopping the work and during the coming year trains will be run into Central Oregon, making a wide agricultural region accessible to farmers. New railroads, too are entering the coast country while in the Southern end of the state, railroad builders are pushing north from Klamath Falls to Matron on the new Southern Pacific line. Electric projects are active in the Willamette Valley. On the whole it looks like the coming year will be a record one in railroad building for Oregon.

### Light Plant Changes Hands

C. Evan Lucas of the real estate firm of Lucas & Hopson has taken over the Bandon electric light plant and will conduct the business from this time on.

The business will be done in the real estate office of Lucas & Hopson and Mr. Lucas promises to give the people of Bandon the very best service possible.

Lucas & Hopson have sold nearly all of the Rosa property which they took an option on recently and are now preparing to open up Main street to the property, thus giving excellent access to the same.

Mr. Lucas says, however, that one of the main things he will devote his attention to from now on will be the electric light plant and he will make improvements just as rapidly as possible. The plant heretofore has been owned by the Bandon Light & Power Co. and has been under the direct management of C. E. Hoppeter.

Receipts at the Portland Union Stock Yards for the month ending today have been: cattle 6518, calves 584, sheep 7549, hogs 12744, horses 274. These receipts are an evidence of the utility of a live stock market. The approximate value of the 457 cars that made up the receipts was \$567,500, a tidy sum that went into the pocket of the farmers and stockmen of Washington, Idaho and Oregon.
