

Clothes  
That  
Tailors  
Can't  
Make

**T**AILORS can't make clothes such as we are showing, unless they charge three times our price. When you stop to consider that our garments contain the highest class of workmanship and the finest of materials, what's the use of paying the tailor for his label? We'll give you clothes of distinctive appearance, as good as any man could wish to wear. We are exhibiting the Winter styles of Adler's Collegian Clothes, which we feature, because we believe they are the best garments produced in this country

### G. A. R. Mask Ball

The big mask ball given by the G. A. R. Christmas eve was a decided success in every particular. There were hundreds in attendance and all seemed to enjoy the occasion to the fullest extent. There were some very beautiful costumes and the prizes were awarded for the mask costumes and door prizes as announced in last week's RECORDER. The G. A. R. members present were as jolly as any of the maskers, and they desire to take this opportunity to thank the merchants who donated the prizes and to all the people both old and young who assisted in making the ball a success.

There were many people present from out of town as well as Bandonians.

### Baby Receives Prize

A photograph of the baby of G. Ray Bowman was sent to the American Weekly of San Francisco and that the child is a beautiful one is evidenced by the fact that it received a prize for being one of the prettiest babies entered in the contest. The following letter speaks for itself:

The "American Weekly" takes the greatest pleasure in sending your baby a little book, which we hope will be a source of amusement. This book is sent your little one because of the pretty photograph entered in our Baby Contest. Your child was among the prettiest of the 4000 and more of whom pictures were sent us—and this we consider an honor worth gaining in this land of pretty babies.

We thank you sincerely for your courtesy in sending the picture, and we wish you and your baby a most happy Christmas and a prosperous New Year. We remain,

Very Truly Yours,  
THE AMERICAN WEEKLY

H. A. De Long on Fourmile brought in some tobacco leaves last Thursday which he raised on his ranch, and they had every quality of first class tobacco. The leaves were large and well developed. Mr. DeLong also raised a potato that weighed four pounds, and had four the combined weight of which was 14 pounds. He also raised 12 onions that weighed 16 pounds. This goes to show what Coos county will produce with proper cultivation.

# New Year's Greeting

A Word of Appreciation to Our Loyal Supporters  
From the Store that Serves the People

1910

The New Year is here---another one gone---with its good and bad. It is a good time to stop a moment to think of what its 365 days brought us, and taught us. For our part, and we are only a very small part of our community, we are greatly pleased that the year just completed has been kind to us; has brought us new friends and old; and has taught us experience that we hope to turn to your advantage as well as ours. May we take this opportunity of expressing to those who have patronized us in the past, our sincere appreciation of such patronage; for, in the measure of business which has come to us, we have been able to improve our service---to grow and thrive. It is our hope that our efforts to please you in the past may merit a continuance of your favor. To you, and to the community at large, we extend our wishes for a **HAPPY AND PROSPEROUS NEW YEARS**

### Dairymen

Next Wednesday, Jan. 5th, the regular meeting of the Coquille Valley Dairy Association will be held in the Masonic hall, Coquille. Besides an educational discussion on ensilage feeding by Mr. W. A. Matthews, this meeting will be most important, inasmuch as the reports of different committees will be the first definite results in regard to the handling of our produce.

Good offers have been made to the cooperative committee by different companies and their propositions will be discussed at this time. There is no reason why we should not get prices equal to those paid by any other district of this coast, however, to get these prices three things are essential—quantity quality and a reasonable cost of manufacturing. Attention to these details is in truth the most important part of successful dairying and can be gotten only by organization. Every successful section here or in the East is organized. Wherever cooperative means is used, prices are high, and the reverse is true.

We need and appreciate the offers of different companies and creamerymen. Let us hear and consider them justly—if they are satisfactory let us accept them—if not let us unite by some means similar to that used by successful districts elsewhere and receive for our work what is rightfully due us.

Every dairymen is needed at our next meeting. We cannot afford to neglect this part of our business when we realize the future value of our present endeavor.

PRESS COMMITTEE.
