

Oregon's Remarkable Health Record

That Oregon has the most wonderful climate of any part of the earth, and a climate which tends to longevity, is the consensus of opinion of all, as derived from the remarkable report published of Oregon Life Insurance Company at the close of the year 1909, which shows a total of over \$3,265,000.00 insurance in force on the books, and with but \$9,000 death losses sustained by the company since organization. April 12, 1906. This is a most remarkable record, and has never been paralleled in life insurance history. It is said to be unique, and is attributed by General Manager Samuel to two great causes. First, and of the most importance, is the fact that Oregon's climate is such that it tends towards health; and, second, the great record is made through careful selection of risks. What makes these figures particularly interesting to the people of Oregon is the fact that Oregon Life is the only life insurance company which confines all of its business to the State of Oregon exclusively, and no risk is taken on any life greater than \$10,000.

Interesting about Oregon Life is the fact that it was founded by L. Samuel less than four years ago and has been made to pay its way from the start, and by reason of its careful management has given handsome returns to its policyholders. What are generally known as stockholders in other companies are simply guarantors in Oregon life. That is, no greater profit than 7 per cent on the money they have put into this Company can ever be earned by them. Their own money is earning it and their guarantee certificates can be retired when the majority of the policy holders demand it. It is a credit to Oregon to have so magnificent a life insurance company as Oregon Life. Premiums for life insurance can now be kept in Oregon instead of being sent East to be manipulated in Wall street.

Incidentally Oregon life is a splendid advertisement for the State of Oregon. Its low death rate shows the health condition of Oregon as nothing else possibly could. Oregonians can well afford to unite in giving Oregon Life preference. It is built on right lines, and is conducted by men who are prominent in the affairs of Oregon:

CURED OF A SEVERE ATTACK OF BRONCHITIS BY CHAMBERLAIN'S COUGH REMEDY

"On October 18th, last, my little three year old daughter contracted a severe cold which resulted in a bad case of bronchitis," says Mrs. W. G. Gibson, Lexington, Ky., and was a very sick child. Fortunately we had a bottle of Chamberlain's Cough Remedy in the house and gave it to her according to directions. On the second day she was a great deal better, and on the fifth day, October 23d, she was entirely well of her cold and bronchitis, which I attribute to this splendid medicine. I recommend Chamberlain's Cough Remedy unreservedly as I have found it the safest and quickest cure for colds, both for children and adults, of any I have ever used." For sale by C. Y. Lowe.

"Know Your Own Country First"

Under the above slogan the Commercial Club of Roseburg is setting out to advertise the great resources of Roseburg and Douglas County. They have hired Mr. Darby Richardson, who for a number of years was at the head of the Wall Street department of leading New York dailies, to manage their campaign and are going about it in a systematic way. Concerning the project the Roseburg Review has the following to say:

The county of Douglas is such a large one and its resources and opportunities are so many and varied that few people at home or abroad correctly comprehend what they are. No one knows exactly, or has a very accurate idea of, the extent of its lands suitable for fruit growing and other culture, consequently prices vary widely. Advertising of Douglas county lands heretofore has been

vague and indefinite, and the language of the hyperbole has been almost exhausted. Glittering generalities and highly colored pictures have been disseminated, in many instances to the detriment of the best interests of the community. Lack of information has been the real fault of such exaggeration, and any systematic plan to accurately inform the absent investor or immediately demonstrate to the incoming visitor the opportunity that exists to develop these resources, should receive and undoubtedly will receive, the co operation of all who have Douglas County's advancement at heart.

Douglas county, owing to class ignorance, indifference and petty differences and unintelligent advertising, has not become known to investors and settlers nor advanced to the extent which have other less favored sections of Oregon. Douglas county and the city of Roseburg have been until lately, notorious for backwardness in claiming the attention and interest of the outside world. Many of its business men and moss-back land owners seem to have passed into a cataleptic trance. Arcused by the energy of such towns as Eugene, and envious of the success that has attended Eugene's intelligent advertising campaign, a number of Roseburg's bankers and merchants have vitalized the work of their Commercial Club which will no longer work narrowly and selfishly for Roseburg. In the new plan to be carried out during 1910, the Club will seek to advance the interests of the entire county and its several thriving towns. It is aimed to have the Roseburg Commercial Club and its Publicity Department occupy a similar relationship to Douglas County that the City of Portland Commercial Club and the Oregon Development League bear to the State of Oregon. The ordinary methods of mediocre men at small salaries has been tried and found wanting. So it was decided to secure the services of an expert in industrial upbuilding, one whose experience and training along sound, economic, industrial and financial lines would insure the bringing of overdue capital and the highest grade of farmer and industrial worker.

Says Pulpit is Obsolete

New York, Jan. 29—"Is the pulpit obsolete?" asked Dr. Felix Adler, the lecturer and author, recently and he answered "Yes." "Falling church attendances," continued the speaker, "testifies to the failure of the pulpit. Formerly views on important subjects were headed by the clergy. Now we read the views of bankers. "The best men are no longer going into the pulpit. The age is practical and men want visible returns. In turn, the influx of inferior men diminishes regard for the pulpit. "Oratory is dying out. In the Pilgrim days men listened to preaching for nine hours at a stretch. Now they will not stand for more than 25 minutes.

A SPRAINED ANKLE

As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time, as by applying Chamberlain's Liniment as directed, a cure may as a rule be effected in less than one week's work and in many cases within three days. Sold by C. Y. Lowe.

Getting Down to Brass Tacks

"I love you!"
"I've heard that before."
"I worship you madly."
"Loose talk."
"I cannot live without your love."
"Get some new stuff."
"Will you marry me."
"Well now there's some class to that."—Ex.

A big line of graniteware and dishes at the Racket Store.

THE DAIRYMAN

Scientists tell us that 6 cents' worth of milk has as much nutriment in it as 15 cents' worth of beefsteak, and it is much easier to digest.

The Dual Purpose Cow.

The dual purpose cow may be all right for some farmers, but she does not give as much milk as the dairy cow and eats considerably more, nor does she produce as much beef as the beef cow and eats just about as much.

Value of the Silo.

The silo is the best method of preserving one of the best and cheapest milk foods there is. The man who can grow corn successfully, whether for beef or milk, should not fail to have one. Then if he can grow red clover or alfalfa well he is doubly blessed.

Right Use of Separator.

Every user of a cream separator should be careful to see that the machine is not run at too low a speed. Instances have been found where from this cause skim milk has contained butter fat to the amount of 1 per cent. This is a costly mistake and one that can easily be rectified. It has been demonstrated that the separator run by a small gasoline engine is cheaper than the one run by hand. In the business of dairying the small things count a great deal.

Skim Milk Is Valuable.

A well known breeder of Guernseys, when asked how he reckoned the value of skim milk, answered as follows: "If fed to young pigs less than 200 pounds weight, when live pork is worth \$5 per hundred, I count skim milk worth 30 cents a hundred pounds, if fed to grade Guernsey heifer calves, I count it worth from 50 to 60 cents a hundred. That is, I can sell the heifers at ten months of age and make the milk net me that per hundred. If fed to registered calves it is certainly worth from \$1 to \$2 per hundred pounds, for I know of no other feed that will make up for a lack of skim milk in securing a profitable growth on a calf. The only trouble I ever had with skim milk was a lack of it. But the way farmers usually feed it and handle it convinces me that they really know but little of its value."

REASON ENTRENCHED

Because men are so rusty they are consumed in great excess. This leads to stomach trouble, biliousness and constipation. Revise your diet, let reason and not a paupered appetite control, then take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be well again. Try it. For sale at Lowe's drug store. Sample free.

New Boat to Ply Waters of Siuslaw

The following which was taken from the Florence West, no doubt, refers to the steamer Liberty, rather than the steamer Favorite. It says: "The steamer Favorite which has been at Coos Bay for a year or two past, is soon to be brought to the Siuslaw and go on the run between Florence and Mapleton. "The Favorite is a fine large steamer with two decks and two cabins and can carry about 125 passengers.

"Captain Ludwig Christensen, who is well and favorably known to the people of this vicinity, will be in command of the craft and look after the needs of the passengers. "The Favorite formerly plied on the Coquille and went from there to Coos Bay. It is the intention to bring the boat here as soon as the weather is favorable for the trip on the ocean.

"This is not the steamer Favorite which was taken away from here some twenty years ago, but is a newer and much larger boat."

FOR THAT TERRIBLE ITCHING

Eczema, tetter and salt rhum keep their victims in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching and many cases have been cured by its use. For sale by C. Y. Lowe.

No New Stars on Flag Now

Washington, D. C. Jan. 19—No new stars can be added to the American flag before the summer of 1911, according to the plan under consideration in the Senate Committee on territories. The program is said to have the endorsement of Talt. It provides for reporting of an entirely new bill for the admission of New Mexico and Arizona as states.

The Hamilton bill that passed the House is declared objectionable by the Senate Committee as it does not provide sufficient time between the

proposed territorial election and the adoption of constitutions and the election of state officers and members of the Senate and House of Representatives. Another objection relates to the protection of public interests in relation to existing and proposed land grants.

CAME NEAR CHOKING TO DEATH

A little boy, the son of Chris. D. Peterson, a well known resident of Jacksonville, Iowa, had a sudden and violent attack of croup. Much thick stringy phlegm came up after giving Chamberlain's Cough Remedy. Mr. Peterson says: "I think he would have choked to death had we not given him this remedy. For sale by C. Y. Lowe.

Oh Girls! Listen!

County Judge Wonacott received a letter from a Coos Bay party this morning imploring the official to aid him in securing a wife. The writer says that he is good looking, has plenty of money, and is possessed of an affectionate disposition. While Mr. Wonacott is not engaged in conducting a marriage bureau he says he will do whatever possible to aid the love sick man in his attempt to combat with single blessedness. Mr. Wonacott refuses to reveal the name of the writer at present, intimating that he would await making public the details until such time as the match is effected.—Roseburg News.

State Treasurer of Penna. Dead in Bed

Lancaster, Pa. Jan. 10—State Treasurer-elect J. A. Stober was found dead in his bed this morning at his home at Schoeneck, in the northern part of this county. He was elected state treasurer last November and was to have taken office in May.

Mr. Stober was found dead by his wife. The cause of his death was heart disease. Mr. Stober had not been feeling well for several weeks, but did not deem the indisposition serious enough to warrant calling in a physician. Mr. Stober was 61 years old.

AN OLD BOGY LAID.

Newark Hat Trimmers Prove That Girls Do Stick.

The following is from the publicity committee of the Women's Trades Union League of Greater New York: "All organized women should join in congratulations to the hat trimmers of Newark. At the close of the ninth month of their long strike three factories have opened under union conditions, and now it is only a question of a few weeks when the remaining five will follow their example. It has been a hard struggle. Last January 20,000 men and women refused to make hats without the union label. There was suffering among the ranks of this little army. Yet they stood firm. In June the Hatters' association began to weaken. Brooklyn and New York factories opened under fair conditions, then the Danbury and Orange. Only Newark, that stronghold of the Hatters' association, refused to use the label, the union's only guarantee of fair conditions. Now Newark shows signs of coming around.

The hat trimmers are also to be congratulated on the splendid way they have stood together. Out of a membership of 400 only nine have left the union, and three of these backsliders are daughters of bosses. Every inducement has been offered to these 400 brave girls. As the long months passed and work elsewhere grew scarce the temptation to accept the offer of the manufacturers increased. Yet they held out. Have not the hat trimmers of Newark forever laid the old boggy, "Do girls stick?"

Victory For Eight Hours.

A satisfactory adjustment of the differences between the photo-engravers' unions of Troy and Albany and their employers was reached a few days ago after a strike lasting three weeks. The negotiations for the unions were carried on by International Vice President Peter J. Brady and International Secretary-Treasurer Louis A. Schwarz, and it is due to the patience and tact of these two officials that the matter was successfully arbitrated. The men who an increase of \$1 in their scale, which is now \$21, and a reduction of working hours from fifty-four to forty-eight. There are only a few more one hour towns in the I. P. E. organization, and they will be visited by the international organizers and made to bring them into the next hour column.
