## WHY I AM A UNION MAN.

Arguments That Should Make the Nonunionist Think.

Because I am not afraid to line up with my fellow workers and make an honest demand for that which is ours by heritage.

Because I want to see every man, woman and child have plenty to eat, plenty to wear and plenty of time to enjoy it.

Because I am opposed to filth and ignorance and in favor of health and knowledge.

Because I can think more of an honest heart under a ragged shirt than I do of a blockhead bloated with a bank account.

Because a union man is never disrespected by any one except a lot of red eyed rounders with more money than kindness.

Because when I pay my dues into the union I realize that I am stirring some "thickening" into a bowl of soup for some poor, hungry woman or child.

Because I had rather be unpopular with a lot of double chinned dough-heads than to show the white feather to my fellow workers.

Because I am in favor of more bread and less brutishness, more pie and less pomp, more cozy cottages and less cowards and criminals, more soup and less superstition, more health and happiness and less hell and hellishness, more honest women neatly dressed and less foolish women overdressed, more live, loving husbands and less dirty, drunken drones.—Mixer and Server.

## Shorter Day in Effect.

Several hundred thousands of operatives in mills and factories of Massachusetts and Rhode Island began work Monday, Jan. 3, on a shorter schedule of working hours in consequence of the new fifty-six hour law, passed by the last two state legislatures, becoming effective. While the new statute applies only to women and minors, in most of the textile and other mills the law will affect men as well. The manufacturers find that it is impossible to so separate the departments that the men can work longer than the women and children and have therefore brought all their operatives under the new schedule, which allows them to work not more than fifty-six hours a week.

## Slavery Still Lives.

Slavery is far from being suppressed. It has been suppressed in Rome and in America and among us, but only certain laws have been abrogated, and the word, not the thing, has been put down. Slavery is the freeing of ourselves alone from the toll which is necessary for the satisfaction of our demands by the transfer of this toll to others, and wherever there exists a man who does not work, not because others work lovingly for him, but where he possesses the power of not working and forces others to work for him, there slavery exists.—Tolstoy.

## Labor Scarce in Canada.

That there is likely to be a labor famine in Canada throughout the year 1910 is the announcement officially made by the Canadian Manufacturers' association, which has recently been circulating its members as to the situation and outlook.

The replies indicate that all along the line industry is swinging into its old stride throughout the Dominion and that generally Canada is now at the beginning of such an era of prosperity as will advance the country far beyond all previous records.

## Hazards of the Bakers.

According to the bureau of vital statistics of the United States government, American bakers and confectioners have a death rate due to consumption of 250.1 per 100,000. Their death rate from pneumonia amounts to 117.4 per 100,000. From these two causes, both growing out of their occupation, their death rate is 367.5 per 100,000. The average death rate among all people is 110 per 100,000. 11

## Notice.

Notice is hereby given, that the City Council of Bandon, will, on Tuesday, March 22, 1910, at 7:30 P.M., receive bids for the construction of a concrete foundation on which shall be moved the M. Breuer Building, said work to be in accordance with plans and specifications on file with the City Recorder.

Also on said date, said Council will receive new bids upon the work of grading, sidewalk, and constructing concrete flumes on Fifth Street. Council reserves the right to reject any and all bids.

Dated Bandon, Oregon, March 16, 1910.  
C. R. WADE,  
City Recorder.

C. B. Zeek has sold his residence to Mr. Perry, Sr., and will give possession about April 1st. Mr. and Mrs. Zeek will then take a trip to California and eastern Oregon, and will return here in about a month or six weeks, and will probably build another residence this fall. We are glad to note that they do not contemplate leaving Bandon permanently, and are also glad to welcome Mr. and Mrs. Perry as permanent residents of our city.

Promoters of the new county, to be known as Nesmith county, which is proposed to be made from portions of Lane and Douglas counties, with Cottage Grove as the county seat, are asking the papers of the state to publish long-winded articles favoring the new county. Now, as a matter of fact, we don't care a rap whether they make a new county or not, and consequently will not devote any space to the proposition. However, we are perfectly willing they should have the new county if they want it.

A lady came into the laundry the other day, threw down a bundle and said: "Here's a shirt waist I have brought back, it is too blue it isn't washed clean it is poorly ironed and I simply can't wear it". We opened the bundle and it looked O. K. to us but we said we would try to make the matter right and the lady went away in a better frame of mind. We laid the bundle away for two days then tied it up and delivered it as before. Shortly after, we were called up on the phone and the lady said: "That shirt waist I sent back is done up fine this time, why could you not have done it up like that before?"—Bandon Steam Laundry pleases its customers. 11
