On account of the apparent high cost of living at the Oregon Agricultural College, President Kerr has instituted a thorough investigation of this problem. A committee has been appointed, and this committee has already prepared a preliminary report to be filled out by each student. The investigation is to be thorough and will be of great significance to the college when completed. The cost of room and board, clothing, military equipment, athletics, societies, classes and clubs, laundry, theatres, tobacco and many other incidental expenses are covered by the report. The committee is also trying to ascertain the approximate income of each student and the manner in which he or she obtains it, such as money from their parents, for summer work, work during school year, loans and other sources. Many of the students are working their way through college.

We do not tell you anything unless we are able to prove it. When we say we save the cash buyer 30 per cent. we mean it. We buy all our merchandise for spot cash and buy where we can do the best. No wholesale house can dictate to us and threaten to put us through bankruptcy if we do not buy of them and pay exorbitant prices which a credit man has to do. We do not sell a dollars worth of merchandise on credit. We sell for cash and do not ask the cash buyer to pay the other fellows bad debts which a credit house must figure in their profits. For the last three Saturdays we have given to every man that bought a suit of us, a pair of Shoes Free. We did this to introduce our store and prove to the men of Bandon that we can save the cash buyer 30 per cent. Now we are going to repeat this offer for the benefit of the man that did not get his pay until May 1st, therefore has not had the opportunity of getting a pair of Shoes Free and becoming acquainted with us and our prices.
