### Her Father's Job.

The young daughter of a popular Chicago clergyman some time ago manifested a quick wit. Her father had gone on a brief holiday with a business partner and associate, and the talk of the children turned on the problem of which father needed the rare rest most sorely.

"Well, I think my father works the hardest," said little Miss Business, "and his work keeps him stirred up and anxious most of the time."

"Your father may work the hardest in one way," was little Miss Clergyman's answer, at once thoughtful and diplomatic, "but I think he gets more rest as he goes along. You see, he can let down a little evenings and Sundays, and if he gets cross and nervous nobody says anything. But my daddy has to be better than ever Sundays and evenings, because then everybody's taking notice and the whole lot of us children are around."—Chicago Record-Herald.

### Shortened His Wait.

"Experience," said Mark Twain once, "makes us wise, but it also makes us hard. Consider the old, experienced man in the busy restaurant. He took a seat, looked round him and, pointing to a well dressed gentleman who had not yet been served, said to the waiter:

"Walter, how long has that gentleman been here?"

"About twelve minutes, sir," the waiter answered.

"What's his order?"

"Porterhouse and French fried, sir, with mince pie and coffee to come."

"The old man, hardened by experience, slipped a quarter in the waiter's hand.

"Walter," he said, "I'm in a hurry. Put on another porterhouse and bring me his."

Holland and Mr. Lowe, the two unmarried members of the party, an attractive Mexican bride, particularly if they can find ones who have a few thousand acres of land.—Coos Bay Times.

## Don't Argue About THE HIGH COST OF LIVING

When You Are Deliberately Paying From 15 to 30% More For Your Hay And Grain Than is Necessary

It would all be very nice to extend you credit, but we would have to add at least 25 per cent. to our selling prices, in order that YOU PAY for your neighbor, who fails to pay his bill. One fair sized bad account a month, wipes out the profit of 20 good accounts. Socialism is not here yet—therefore why contribute to the support of that 21st man

Does it cost you \$100 a month to feed your stock? By paying strictly cash and dealing with us reduce your feed bill to \$75 or \$80 a month—thereby adding \$20 to \$25 a month to your net income and bank account—Proving our assertions that cash prices are lowest prices, we will sell you
