

Local Lore

L. J. Cody was a Marshfield visitor Wednesday of this week.

F. T. Tuttle was a Marshfield visitor the first of the week.

W. C. Sellmer was a visitor to Marshfield the first of the week.

Try T. W. Robison for hay, grain and feed before purchasing elsewhere. 27-f

Rev. Father Keveny left Wednesday for Portland, and will return in about two weeks.

FOR SALE—Eighty acres Choice Bottom Land on Sixes River, Five miles from Port Orford, one-half mile from county road. Address Alex Turner, Langlois, Or. 30-51x

Mr. and Mrs. Poley, of Ashland, were Bandon visitors last Saturday. Mrs. Poley formerly resided at Parkersburg, and is a sister to W. C. Parker and Mrs. John Kronenberg.

Mrs. M. E. Richie and daughter Zella, who have been visiting Mrs. Richie's sister, Mrs. S. S. Little, for some time, left on the Elizabeth for San Francisco, and from there will go on to their home near Mitchellville, Iowa.

Most of the Bandon stores have been closing at 7 o'clock for the past year. There were, however, a few exceptions to the rule, but we are informed that now all the stores will be closed hereafter at 7 o'clock except on Saturday night when they will be kept open till 9 or 10 o'clock.

Judge Goes of Coos Bay passed through Bandon Wednesday on his way down to Curry county to attend court.

LOST—A lady's black rain coat. Finder please return to this office. 11

See or phone L. J. Radley for all kinds of Fire Wood. 27-f

Rev. C. W. Baker of St. George's Church, Roseburg, will hold services and preach in the Episcopal Church, Sunday morning and evening, at the usual hours.

Judge Geo. P. Topping and wife will leave for Gold Beach, Friday, where the Judge goes on the case of State of Oregon vs. J. W. Curry, in which the latter is accused of the murder of Joel Bond. It will be remembered by RECORDER readers that this case was up for preliminary hearing about a year ago. Judge Topping will defend Mr. Curry.

F. J. Feeney, C. R. Wade and H. F. Morrison left Wednesday morning for a trip down the coast and will spend a few days hunting, after which they will go on to Gold Beach, where Wade and Feeney will attend court next week, they each having some cases to come up before Judge Hamilton's court which convenes there next Monday.

The City Council met in regular session at the city hall last night, but owing to the early hour of going to press we are unable to give a full report. The contract for the building of Main street north from Atwater street to deep water in the Coquille river was let to R. H. Rosa. A number of resolutions were passed which we will publish next week, at which time we will give a full report of the meeting.

Dr. and Mrs. Biggs, of Bellingham, Wash., arrived in Bandon Tuesday evening, coming by way of Roseburg, and will be the guests of Mrs. F. E. Dyer, mother of Mrs. Biggs.

Lester Cornwall, of Prosper, who was operated on by Drs. Houston and Mingus some time ago, is getting along nicely at present. Young Cornwall's case was such that 80 per cent of the patients die, so the operation will be considered a very successful one.

W. L. Beach will have his shooting gallery, across from the Recorder office, open for business Saturday. Mr. Beach is also engaged in the second hand business.

You can do better for cash if you buy your hay, grain and feed of T. W. Robison at the Central Warehouse. 27-f

Leo, the young son of Mr and Mrs. Sore Johnson, was quite sick the first of the week, but is getting better now.

Editor Smith of the Lakeport Tribune was a Bandon visitor Monday.

The school board will meet tonight when they will probably decide as to when school will open, and elect the remainder of the teachers for the coming school term.

J. T. Mars and family left for the bay side this morning, to look after business and to take in the big carnival. They will return Saturday.

FOR SALE—Thirty acres, 1 1/2 miles south east of Bandon. 5 1/2 acres under cultivation. Also team and all farming utensils. W. F. KENNEDY. 32-41

Jay Bowman, who is the assembly candidate for governor on the Republican slate, arrived here Saturday morning and left shortly afterwards for the Coquille, to look after political affairs.—Coos Bay News.

Bibles! Bibles! Bibles! Leave your orders for Bibles at L. B. Woodruff's Second-hand Store. Prices from 20cts to \$5.00. 11

A splendid advertisement of the advantages of the Pacific Northwest, is the decision of Jasper Wilson, son of James Wilson, Secretary of Agriculture, to engage in fruit growing in the Pacific Northwest. He will develop only 20 acres at present, considering this ample to keep him fully occupied. That a man who has all the professions open to him should choose horticulture in the Northwest as the best opportunity is highly significant, and is a splendid endorsement of this section of the country.

Geo. M. Hite and wife, Mrs. Wm. Hite, and Henry Adams and wife, left Tuesday morning in Geo's auto for California. They will probably go to Los Angeles and locate some where in that section. Wm Hite will remain here for a few months and will join them later.

Mrs. R. H. Hopson and Miss Edna Mills of Bandon were the guests of Lakeport friends. Sunday.—Lakeport Banner.

Bibles! Bibles! Bibles! Leave your orders for Bibles at L. B. Woodruff's Second-hand Store. Prices from 20cts to \$5.00. 11

The Tribune says that "The Northwest wind continues to blow a part of every day. Old timers say that it is the longest continuous blow ever experienced here. But our old pioneer friend, Frank Rasmussen of Coos county, says that it blew in 1853 from the first of July to November, without rain. What has been may again be."

C. Y. Lowe, John Shields, Chas. Hubbard and Fred Ashburn returned Monday from their hunting trip on Rogue river and report a fine time and lots of game. The boys were a little reluctant to tell just the number of deer slaughtered, but they bagged a plenty.

Alex Kennedy and family went over to the Bay to take in the Carnival this week.

Drs. Houston of Bandon and Mingus of Marshfield operated on F. G. Hickling of Prosper for appendicitis at Mercy Hospital in North Bend Tuesday. The operation was a particularly difficult one but Mr. Hickling was getting along nicely at last report.

Bandon Lodge No. 130 I. O. O. F. installed officers last night as follows: A. G. Hoyt, noble grand; James Armstrong, vice grand; A. Knopp, secretary; L. J. Radley treasurer. A. J. Macy is the district deputy grand master and had charge of the installation.

For Sale.

C. S. Elliott estate, three miles south of Bandon, consisting of 155 acres. 40 acres bottom land, orchard, good barn and 7 room house, hen house and park, farming implements, 2 cows, all for \$3,400, on reasonable terms. For further information call at ranch. 32-31x

VALUE OF SILAGE FOR THE STEERS

Owing to the high price of roughage more interest is being taken by cattle and sheep feeders in the subject of corn silage than ever before. The silage idea has not enjoyed much popularity in feeding circles despite the fact that it has become the mainstay of the dairyman. The past winter, however, has set feeders thinking, and the fact is dawning on many feeders that silage may extricate them from a dilemma in which the rapid increase in the feed bill when practicing dry feed methods exclusively has placed them.

Every feeder using silage who has marketed cattle or sheep on the market during the past three months has given a good account of it, and they are by no means a corporal's guard, some of them operating on a large scale.

Now comes the Indiana experiment station with more conclusive evidence, that institution having pioneered in this sphere. Recently a professor at that station sold on the Chicago market fifteen short fed cattle that had been fed no other roughage than corn

CONSTRUCTING A STAVE SILO.

silage, and, to use his own language, "results show that silage is a very economical roughage for fattening beef cattle on the short process." Fourteen of these steers realized \$8 per hundredweight, and a tall order was appraised at \$7.75, pretty good prices for steers fed only 120 days.

The ration was shelled corn, cottonseed meal and corn silage, absolutely no other roughage being used. The initial weight was 1,056 pounds; the final weight 1,361 pounds, making an average daily gain of 2.54 pounds in a season when the burden of complaint among feeders was that gains were far below normal. The feed consumed to the pound of gain was 6.09 pounds of shelled corn, 1.06 of cottonseed meal and 12.67 of corn silage.

This marks completion of but one stage of the experiment, but it disproves the theory that only a limited quantity of silage can be used and that other roughage is essential. There are seventy-five cattle on full feed at the Indiana station now to determine the merit of different combinations of shelled corn, cottonseed meal, corn silage and clover hay.

It may be added that a well known sheep expert of the Illinois experiment station is conducting a series of experiments in mutton making with corn silage and has already reached a conclusion decidedly favorable. To his surprise the heaviest ration of silage used has given most satisfactory results, and even among lambs an expected mortality of at least 1 per cent has not materialized.

THE FEEDER

Dry Uncooked Corn Best.
Cooked corn does not seem to be so good for hogs as that fed dry and uncooked. They do not seem to make as good use of it.

Putting the Flock on Pasture.
The sheep will begin to get uneasy now for the pastures. Be in no hurry about letting them go. Have a good stand of grass in the field before they are put out for the season.

Keep Horses Away From Barbed Wire.
Don't pasture horses or other animals on both sides of a wire fence, especially if it has a barbed wire at the top. They are very apt to get to fighting over or through it and get hurt.

Time to Water Horse.
It does not make much difference whether horses are watered before or after eating. It is largely a matter of habit, and experiments show that one time is about as good as another.

Feeding Pig For Pork.
The pig that is intended for pork should be fed to the limit of its digesting capacity from the start. To feed the pig just enough so that it may hold its own is wasting all your feed. As a rule, the quicker we can make 100 pounds of pork the less it costs us, and the first 100 pounds cost the least.

Ration For Calves.
A good ration for calves is cornmeal, three pounds; oats, three pounds; bran, one pound, and linseed meal, one pound. Feed from one-half to three-quarters of a pound of the mixture for every 100 pounds live weight.

PATTERNING EWES AND LAMBS.

Selection of Good Flocks and an Abundance of Milk Required.

According to an experienced shepherd, if the lambs are born strong, remain healthy and have an abundance of milk from the ewes and grass feed, such as blue grass, they should be ready to market in the latter days of July or the 1st of August. If the market is satisfactory this will probably be the best time, as lambs often make very little if any gains in the hottest weather, and if their weight and condition should satisfy the demands of the market before this time it would probably be economy to market them at a still earlier date.

It is much easier to teach lambs to eat grain before the pasturing season opens. Arrange a creep in the sheep barn, and by the time the lambs are two or three weeks old they will begin to eat crushed grain. Once taught to eat it, they will usually keep at it when on pasture if it is kept sweet and clean in well arranged troughs. The ewes can be fed corn by merely throwing whole or broken ears on the clean grass.

Often it is impossible to have the ewes in proper market condition when the lambs are ready for slaughter, and the prices for them may be unsatisfactory when the lambs should be sold. During recent years it has not paid to market ewes in thin condition if they are healthy and feed is available. If they are fat and prices look wrong consult with the commission firm as to the advisability of marketing them with the lambs.

BIG MULE RAISING.

Too Much Responsibility Should Not Be Placed Upon the Jack.

The constant attempt to secure size as well as quality in jacks and jennets is producing warveous results. There has been a steady elevation in the average excellence of the jacks available for breeding mules in all parts of the country, and the superiority of their get has widened the appreciation of good points in a jack.

In one respect this has failed to benefit our mule stock as it should. Too much responsibility has been piled upon the jack. Thoughtful breeders have realized the value of choice mares for producing mules and have by their policy upheld the average quality and a lofty top in the mule market; but, on the other hand, the hybrid often has an inferior dam because of the idea that a mare that will not produce good horses is well adapted to raising mules.

This condition has been a heavy lid on the mule business as a whole and has thrown an unfair burden on the

MULE AND CONCRETE TROUGH.

jack. In too many cases he has been expected to furnish the bone, quality, constitution, character, soundness and even the size of the hybrid offspring, the mare doing nothing creditable except to produce the mule foal. It is a great credit to the jack that he has made good under these conditions. It explains how it is possible for big, smooth, wonderful mules to be produced by creditable mares.

The high class jack is steadily gaining appreciation in this way by those who discern his possibilities. Even those who impose on a jack the thankless task of getting good mules from plug mares realize that the weedy sire is a failure. A cheap mare and a cheap jack insure a cheap mule.

DAIRY NOTES

Butter Bowls of Hard Wood.
The nicest kind of butter bowl can be made out of a hard wood knot. Cut out a block of that kind and take it to some good wood turner and have him make one. Butter working utensils made of hard wood are far better than those made of softer material.

Have Separator on Even Floor.
The separator will not work well and will wear out a good deal more quickly on unsteady, uneven floors than on those which are level and firm.

Overfeeding Young Calves.
Overdoing the matter of feeding young calves has been the means of spoiling thousands of otherwise promising young stock.

Take Time When Milking.
When you hurry about milking, the cow feels uncomfortable and shortens up on you a little. That hurts you and hurts the cow as well.

Cottage Cheese in Demand.
There is a big demand for good cottage cheese, and it can be made a profitable byproduct in the manufacture of butter.

Skim the Milk Immediately.
Never wait until milk becomes congealed before skimming, and when adding a fresh skimming to the cream already collected stir well, so all may be ripened evenly.

Little house-maid says we are in the van in the furniture business

mrs. homelover:

why we are in the van--in the front--of the furniture business is because we give you good furniture for the good money you give us.

there are different qualities of furniture just the same as there are different qualities of shoes. we have the good kind of furniture. may we not show you the things you wish for your home this fall and winter?

Woodruff & Turner

The House Furnishers

Big Cargo, Little Ship.
An old official of the navy tells the following story of a conversation he heard between two old sailors:
"It was a rat ship I was sailin' in that trip," said one of the shellbacks, "one of the dingiest rat ships I ever knew. They was rats in it from bow to stern, rats in the hold, in the galley, in the steerage, in the forecabin. In the old man's room--everywhere rats, nothin' but."
"Timey it got so bad we had to put in an' get them off. So we hooked up to a dock an' fumigated. I was on deck, an' I saw them rats leavin'." I counted 'em. They was 15,000,000 of 'em."
"Fifteen million?" asked the other. "Ain't that a lot o' rats? Are you sure?"
"Sure! Yes, I'm sure. They was 15,000,000 rats, and I counted 'em. More than that, every rat weighed half a pound. They was big, fat, sassy ones, I'm tellin'."

"Fifteen million rats, and every one weighed half a pound, and they all came off your ship. That's 7,500,000 pounds of rats. Say, Jim, what was the tonnage of that ship?"
"Oh, about a hundred and fifty tons."
—Judge.

Wouldn't Interfere.
"It's raining hard, my dear," remarked a man to his wife.
"Well, let it rain!" responded the lady snappishly.
"Certainly, my dear. That's really just what I intended to do."

Compensation.
"I felt so sorry when I heard your house was burned down, Mrs. Jones," said Mrs. Hawkins.
"It was too bad," said Mrs. Jones, "but it had its bright side. John and I were both afraid to discharge our cook, but now that the house is gone of course we don't have to."—Harper's Weekly.

Supplying a Want.
Shabby individual (to painter up ladder)—Hl, you're dropping your paint all over me.
Painter—Well, you're badly in need of a coat of some sort.—London Tit-Bits.

A Better Position.
"Why did Dollarby sell his hotel?"
"He wasn't making money fast enough."
"What is he doing now?"
"He's luxuriating in the position of head waiter."—Pearson's Weekly.

That Boy Again.
Mrs. Bonriem—I ordered lamb and you sent me mutton.
Butcher—It was lamb when it left here, mum.—Judge's Library.

Good reasons must, of course, give place to better.—Shakespeare.

Summons

IN THE CIRCUIT COURT OF THE STATE OF OREGON, IN AND FOR THE COUNTY OF COOS,

A. M. Hitchcock, and Emma Hitchcock,

Plaintiffs,

vs

May Pearce, and any and all persons unknown having or claiming an interest or estate in the property made the subject of the above entitled action,

SUMMONS

To May Pearce and to any and all persons having or claiming an interest or estate in the property made the subject of this suit, the above named Defendants;

IN THE NAME OF THE STATE OF OREGON, you and each of you are hereby required to appear and answer the complaint filed against you in the above entitled suit within 10 days from the date of the service of this Summons upon you, if served within Coos County or within 20 days if served within any other County in the State of Oregon, but if served by publication then on or before the last day of the time specified in the order for the publication of this Summons which time prescribed is six weeks, and which last day of publication will be upon Thursday the 29th day of September 1910, and if you so fail to appear and answer said Complaint by said time Plaintiffs will apply to the above entitled Court for an order decreeing a Partition of real property; said order being more specifically defined as the Partitioning and setting separate and apart from the remainder of the land herein described the one fourth interests of the Defendants which said real property is described as follows:

Beginning at a point 990' West of the North-east corner of Section 36, Twp. 28, South of Range 15, West of the Willamette Meridian in Coos County, Oregon, and from said point running thence South 264', thence West 330', thence North 264', thence East 330' to the place of beginning, and containing two acres.

This Summons is published in the Bandon Recorder, a weekly newspaper published at Bandon, Coos County, Oregon for a period of six consecutive weeks, beginning with the 18th day August 1910, and ending with the 29th day of September, 1910, pursuant to an order of publication made by an order of the Hon. John F. Hall, County Judge of Coos County Oregon and dated the 17th day of August, 1910.

C. R. Wade
32-71 Attorney for Plaintiff

Miss Blanche Radley left last Saturday for Four Mile, having been engaged to teach the Fall term of school at that place.
