

No Night for Five Days.

At the head of the Gulf of Bothnia these is a mountain on the summit of which the sun shines perpetually during the five days of June 19, 20, 21, 22 and 23. Every six hours during this season of continual sunshine a steamer leaves Stockholm crowded with visitors anxious to witness the phenomenon. At the same place during winter the sun disappears and is not seen for weeks; then it comes in sight again for 10, 15 or 20 minutes, gradually lengthening its stay, until finally its stays in sight continuously for upward of 120 hours.

Animals Who Lack Sense.

"Some animals exhibit a queer lack of sense," says a man who has observed them. "Put a buzzard in a pen about six feet square, and open at the top, and it is as much a prisoner as though it were shut up in a box. This is because buzzards always begin their flight by taking a short run, and they either cannot or will not attempt to fly unless they can do so. Again take a common bumble-bee and put it in a goblet. It will remain a prisoner for hours, trying to escape through the sides, without ever thinking of escaping from the top. So also a bat cannot rise from a perfectly smooth surface. Although it is remarkably nimble in its flight when once on the wing and can fly for many hours at a time without taking the least rest, if placed on the floor or on flat ground it is absolutely unable to use its wings. The only thing it can do is to shuffle helplessly and painfully along until it reaches some trifling elevation, from which it can throw itself into the air, when at once it is off like a flash."

An Insect Terror.

A strange spider, it is reported, has appeared in great numbers in the lowlands and valleys in Mexico, and is giving the natives great alarm. It is peculiarly ferocious, and manifests no fear of anything, not hesitating to give chase to men who dispute it. It is considerably larger than the tarantula, common in those regions, and is terribly poisonous. Three deaths have been lately reported from its bite. It is a hairy insect, and has legs as large as a pipe-stem. It runs with remarkable agility, and climbs the stick or whip towards the hand of any one who strikes at it. It is a new-comer to the section, and so far no one has been found who has seen it before. One of the deaths was that of a Mexican who was riding along and saw one of the spiders. He struck at it with his whip, and before he could drop the whip the spider was at his hand, and had bitten him. He died within three hours in great agony. The spiders hop along the ground in great leaps toward the object of their attack.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

HE Missed his Opportunity! DON'T Miss Yours, Reader. The majority neglect their opportunities, and from that cause live in poverty and die in obscurity! Harrowing despair is the lot of many, as they look back on lost, forever lost, opportunity. **Life is passing!** Reach out, be up and doing, improve your opportunity, and secure prosperity, prominence, peace. It was said by a philosopher, that "the Goddess of Fortune offers a golden opportunity to each person at some period of life; embrace the chance, and she pours out her riches; fail to do so and she departs, never to return." How shall you find the golden opportunity? Investigate every chance that appears worthy, and of fair promise; that is what all successful men do. Here is an opportunity, such as is not often within the reach of laboring people. Improved, it will give, at least, a grand start in life. The golden opportunity for many is here. **Money to be made rapidly and honorably** by any industrious person of either sex. All ages. You can do the work and live at home, wherever you are. Even beginners are easily earning from \$25 to \$10 per day. You can do as well if you will work, not too hard, but industriously; and you can increase your income as you go on. OREGON'S SHOWING AT CHICAGO NEXT YEAR

Remains in doubt, but there is no question about the PORTLAND INDUSTRIAL EXPOSITION,—which opens September 21st, and closes October 22d, being the best Exposition ever held on the Pacific Coast. So far Oregon is concerned it will be the forerunner of the Exposition at Chicago in 1893. The principal attractions are the magnificent American Band of Providence, R. I. An art collection valued at \$350000, and embracing some of the greatest pictures owned in the United States. Immense Horticultural and Agricultural exhibits, the result of the combined efforts of almost every county in the state. A mineral exhibit exceeding all former years. A Stock Department showing tremendous progress. To these are added a larger number of exhibits than ever before; including a magnificent electrical display under the combined Thomson-Houston and Edison companies. All manufactures in full operation. Government models of Battle Ships. The wonderful Hall of Mystery. The marvelous "Little World," the product of a mechanical genius; all interspersed by novelties incident to the popular special days. Everything new and nothing dead. Greatly reduced rates on all transportation lines.
