**THANKSGIVING TURKEY.**  
The duck is a cunning household bird. A regular feathered wobbler. But for Thanksgiving he isn't in it. With the blooming turkey gobble. Of all the birds I love the best. Give me the blooming turkey. He takes the lead of all the rest. When he's not tough or jerky.  
Of all the months that come and go. We should be more forgiving. To bleak November, since we know She's bringing us Thanksgiving.  
Thanksgiving day has come again: The table groans with toothsome food: And were it not for Friday's pain, That always troops on Thursday's train, I should be full of gratitude.  
"Why is the turkey so puffed up and val-garious?" asked the hired man of the farmer. "Ax him," replied the farmer.

**Thanksgiving.**  
All the people in Florence are busy. We all have much to be thankful for. The grading of our streets has become a necessity. Nature has done much for us. May we be thankful.  
Recent rains have swollen the floods of the Siuslaw river. A new boat for the upper Willamette is being built at Newberg.  
On the 19th instant the Lila and Mattie arrived in San Francisco.  
Captain Hurd has been granted a new license as master of steamers.  
Governor-elect Lord is expected home from the east in the near future.  
There has been, of late, a large increase in shipping from this port.  
Hood's pills cure nausea, sick headache, indigestion and biliousness.  
Buy one of those handsome Japanese baskets at Hurd & Davenport's store.  
Port Arthur, the Chinese stronghold, was recently captured by the Japanese.  
Shall we have a coast county? That is a question all people interested should answer.  
Osborne Mowers and Rakes for sale at Meyer & Kyle's. Come and see for yourself.  
Remains of our last year's enterprise is good seed that is growing this year in Florence.  
Marr & Safley are to put in a handsome line of holiday goods in their Variety store.  
Keep watch for the return of William Kyle for he will undoubtedly be loaded with Santa Claus presents.  
It would seem more in accordance with enlightened ideas if sidewalks were soon laid on the main streets.  
Prosperity in Florence will receive a new impetus in manufacturing industries to be established here in the spring.  
The Klamath Falls Star states that a judgment has been rendered against the bondsmen of Sheriff Howe for \$8700.  
Today, in our gardens, are many full-blown blossoms on flowering shrubs. Do not forget to be thankful for these.  
The Spruce Point saw-mill is running full time now and soon they will ship their first cargo of lumber to San Francisco.  
There are many hundreds of bushels of potatoes in this country to be disposed of, and some dealer should find a market for them.  
Parties interested will find the plans and specifications for improving the water front now made out and ready for their bids.  
The winter holidays are almost upon us. What entertainment for the little ones on Christmas and what for the older ones on New Year?  
Cottage Grove is improving right along. Several fine buildings are under construction, and they are putting in water works costing \$5000.  
The Morris hotel is doing a good business. This is positive proof that many strangers are coming in and that Joe and Lucy Morris conduct a good house.  
When Binger Hermann is chairman of the rivers and harbors committee, the Siuslaw will not suffer, as it has in the past, for reasonable appropriations.  
Do not be too late in purchasing one of those handsome holiday baskets containing one pound of uncolored Japan tea, for 50 cents, at Hurd & Davenport's.

A healthy climate, brought about by living contiguous to health-giving breezes of old ocean, is one thing to be thankful for.  
State senator C. A. Cogswell was defeated for mayor of Lakeview at the town election there last week, John McElhinney receiving 61 votes to 58 for Cogswell.  
If you need a good medicine to purify your blood, give nerve strength and build up your system, take Hood's sarsaparilla. It prevents sickness by making pure blood.  
Several grey squirrels have lately been seen on South Cox river. These squirrels need to be numerous there once, but several years ago, during a hard winter, they disappeared.  
Watch the pulsations of progress that are beginning to beat at a lively rate in this city, and if you are residents of the town and do nothing but watch, you will soon be left behind.  
We believe that arrangements have been made whereby over \$100,000 will be employed in a business here next spring. If this should prove true, **THE WEST** will have the credit of bringing it about.  
During the month of November, six sailing schooners loaded out with lumber from this port, and carried away a little over 1,500,000 feet of sawed timber to the San Francisco market.  
The discussion for a new county is commenced in this issue of **THE WEST** by a correspondent. Now is the time for all citizens to express their views, and we hope it will be freely done.  
Some excellent wearing apparel for gentlemen's uses is sold by Mr. Hiss, agent for the Brownsville Wooden Mills. He is now in Florence and will take your order and measure and guarantee a fit.  
Southern Oregon has been visited by some heavy frosts during the past week, and what tender vegetation remained has been destroyed. A number of ladies mourn the loss of choice flowers, too.  
The road to greater success is paved with combined energy and economy. That kind of a road has been traveled by many of our people on the Siuslaw and their courses has been marked with success.  
Recently at an election the cities of New York and Brooklyn voted for a consolidation of the two governments, which when it is carried into effect will greatly increase the area and population of New York.  
The matter of salvage between Captain Schroeder, master of the steam schooner W. H. Harrison, and Captain Greenidge, of the British bark Swamore, was amicably settled by the payment of \$1000.  
We are to publish, for Geo. M. Miller, 5000 descriptive pamphlets of Oregon, Eugene, Fairmount and Florence. It will be one of the most interesting works on the advantages and resources of each that has ever been published.  
Horace N. Pennyroyer, only son of Governor Pennyroyer, died at Williamsburg, Mass., on November 24, 1894, where he has been attending Williams college. The afflicted parents have the sympathy of all the people of Oregon.  
Mount Ranier, 65 miles east of Seattle, Wash., is in a state of eruption. Several slight shocks of earthquake were experienced yesterday afternoon at Seattle and Tacoma.—[The above statement copied from our exchanges is stoutly denied by many dairies.]  
On Saturday night a drift log struck the steamer Coos while laying at her moorings at Hurd's wharf, tearing away a brace that caused a leak in the hull of the boat. Steam was raised and the water pumped out, the leak stopped and she is now on her regular trips.  
Mayor Friendly is fast coming to the fore with many well-expressed thoughts for the advancement of education. His career as an honest, pains-taking mayor of Eugene, in which he has shown marked ability, leads many to suggest his name for United States Senator.  
Deputy Marshal Harris is doing some road work on the highway leading into the town in the Morse residential portion of our city. This highway passes along what is known as Main street, and the residents of that portion of the city are getting not less than \$100 expended in the improvement of their portion of the town.  
For two days and one night Mrs. John Whisman suffered continuous bleeding from the nose, and it was only on Monday last that the flow of blood was stanchied. At one time on Saturday night, she was considered in a critical condition, and although now she is considered out of danger of death, she is extremely weak from loss of blood.  
It is about settled that the spring will find a creamery on this river. Mr. Fremont has nearly completed plans for putting in a separator on Maple creek, and he is supported by all of his neighbors. Should the dairymen on the North Fork agree to bring milk or cream to a creamery, and to the up river dairymen join the forces, one would be built.  
For a pain in the side or chest there is nothing so good as a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of pain. It affords prompt and permanent relief and if used in time will often prevent a cold from resulting in pneumonia. The same treatment is a sure cure for lame back. For sale by all Druggists.  
Mrs. Frank Rogers has just received a new and handsome assortment of millinery goods, and they are now ready for inspection and sale at her parlors adjoining Meyer & Kyle's store, in Florence.  
Mrs. Kanoff is in charge of the parlors, and requests all her friends and customers to call early and make selections of nice hats and handsome bonnets trimmed to order.

After nearly two years of city government in Florence, during which time many improvements to streets, sidewalks, street crossings and bridges have been made, city Marshals and other expenses paid and no tax levied on the people, the town today is in debt only \$19. If such stringent economy was practiced in every incorporated town, fewer complaints would be made by the people.  
Our neighbors, just over the way in Douglas county, will be interested in knowing that one of their county papers has been talking loudly for reform in county expenses,—which, by the way is a new departure since it lost the county printing—put in a bill to the county court for work at \$35.75 which was reduced to \$7.35. Paradoxical as it may seem, big bills and talk for low ones go hand in hand in that office.  
The West has given to its readers and the public generally, better and cheaper periodicals than all others together in this part of the country. It has done this largely at its own expense, and now adds another point to its credit by giving the weekly **Oregonian** to all its subscribers. The opportunity will be limited to a certain period, therefore parties must subscribe at once. The **West** for \$2 and the weekly **Oregonian** free.

Henry Wilson, the postmaster at Welshon, Florida, says he cured a case of diarrhoea of long standing in six hours with one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. What a pleasant surprise that must have been to the sufferer. Such cures are not unusual with this remedy. In many instances only one or two doses are required to give permanent relief. It can always be depended upon. When reduced with water it is pleasant to take. For sale by all Druggists.  
Croup is a terror to young mothers. To post them concerning the first symptoms, and treatment is the object of this item. The first indication of croup is hoarseness. In a child who is subject to croup it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar, rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse or even after the rough cough has appeared it will prevent the attack. It has never been known to fail. 50 cent bottles for sale by the Florence Druggist.

Last Thursday afternoon, says the **Portland Sun**, as Edward Beach was blasting stumps on his place above Williams falls he put a heavy charge of giant powder under a large stump. After waiting some minutes and the charge failing to explode, he proceeded to investigate the matter and learn the cause. No sooner had Mr. Beach reached the stump when the charge exploded, throwing him several feet into the air, and when he reached terra firma once more he found himself just 40 feet from where he started. No damage was done except a badly burned face.  
W. A. McGuire, a well known citizen of McKay, Ohio, is of the opinion that there is nothing as good for children troubled with colds or croup as Chamberlain's Cough Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having his grippe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 50 cent bottles for sale by the Florence Druggist.

**COMMUNICATION.**  
Enron West.—Being asked by many citizens my opinion of the idea of a new, or coast county composed of western Lane and Douglas counties, raised me to give the matter some extra thought, so I concluded to answer all at once through the columns of your valuable paper, you being kind enough to grant the necessary space.  
That the territory of which the new county is to be composed is an extra expense to Lane and Douglas counties is undisputed, saying nothing of the inconvenience, hardships and extra expense necessarily imposed upon the citizens of the proposed new county—which I shall call Coast county for convenience. The old question, would the luxury warrant the expense would not, and I believe, will not be raised. The only questions are: Are we ready? When and how shall we proceed? Yes, we are ready to make the primary move as soon as our state senator can conveniently prepare and introduce the bill.  
I will suggest the following as one of many plans that may be advanced, hoping that our senator will not think that I wish to outline a course for him to follow, or in any way hinder or interfere with him in the discharge of his official duty, but simply offer my opinion as any citizen of Coast county should do or forever after hold the pen.

Let the new county be created as suggested of the western portion of Lane and Douglas counties, the boundary lines of which I shall not undertake to outline, not being well enough acquainted with the geographical lay of the country, but not take effect until after the next general or state election, and let the county come into existence upon the installation of the new officers. This would give us some eighteen months to prepare and fit ourselves for the new condition of affairs, and would leave the matter of locating the seat of government originally and entirely with the legal voters of Coast county. We would live under the government of and be subject to the laws of our respective counties until our officers were elected and installed, and our county seat permanently located. The election could be managed by the courts of Lane and Douglas counties except that a committee, composed of citizens of Coast county, might be appointed by the courts to meet at some place in the new county, designated by the courts, to canvass and declare the results; Coast county paying her own election expenses. It would of course be necessary to make some provisions in regard to the management of county affairs from the passage of the bill until the birth of the new county, the name of which I will mention.  
Public improvements, such as roads, bridges, buildings, etc., should be so arranged that each of the three counties should receive its share and pay its proportion of such improvements, basing the proportion of indebtedness and taxable property on the assessment last taken before the passage of the bill, to-wit: 1894.  
Thanking you for this favor, I hope to be a citizen of Coast county.  
M. D. LANDIS,  
Glenada, Oregon.

Colonel Yoran is one of the proprietors of the Eugene Register.  
Last Saturday evening a pleasing incident happened at the rendition of Joaquin Miller's play, "The Danites," by the Stutz company. Little Una Luckey went on the stage and presented to Mr. Frank Readrick, a floral nugget.

composed of yellow chrysanthemums. The piece was made by Mrs. George Millican, and was presented on behalf of Mr. Miller's many friends here. Mr. Readrick acknowledged the gift in a very appreciative little speech.
