"There is quite a difference between owner of the stage line running from Cazadero to Ukiah

When I came here from Boston in 1854, I drifted about a bit and finally went into the service of Charles Mc-Laughlin, the man who was afterward killed by Jerome Cox. He was the owner of the longest stage line in California at that time. It ran with relays from San Jose to Los Angeles.

"I remember once in a lonely coast range canyon, through which the road and, we had a little experience that was thrilling for the moment. It was about 10 o'clock and a moonlight night. was just putting the horses through. The stage was full of passengers, and there was a heavy treasure box.

"Just as I got around a bend in the road I saw a figure of a man on horseback standing by the side of the road. He yelled to stop, and I saw a gun barrel gleam in the moonlight. The horses were going at a speed that might be called breakneck, and I just made up my mind to take the chance of getting through. I saw the gun raised to the fellow's shou der as we approached. I had my long whip in my hand, and with a desperation born of peril of the

moment I made a vicious swipe at him. "I don't know how it occurred, but the lash wound itself around the gun, and as we dashed by the whip was drawn taut, and I knew it had caught, so held fast. I was nearly pulled out of my seat, but the gun was dragged from the robber's hand and fell to the ground. At the same time it was discharged by the shock. It rattled along the road for quite a distance before the whiplash unwound itself. I don't know what the highwayman thought, but I'll bet he was surprised."—San Francisco Call.

Trouble In the Browning Society A reading of a line of Browning's which I don't think has ever presented itself to the Browning society was offered in all honesty the other day by a young gentleman reading aloud to young lady, at her request-need I say she was a Bostonienne?—the Word More" with which Browning dedicated his "Men and Women" to

correctness, but He who paints in fresco takes a hairbrush was too much for an honest, literal soul. He read it "hair-brush" -- hyphenized, accent on "hair"-too evidently understanding and unquestionably accepting it not as a refined implement of art, but as the homely adjunct of the dressing table. Nothing can ever make that line again, for that young woman, fit into poet's dream. Nor will he ever be asked to read Browning to her more. -Boston Transcript.

sent it to the treasury department and got a receipt for it. This, he thought, would close the transaction. But it didn't. The treasury officials, it seems, were not satisfied. Several days afterward the public printer received the \$20 goldpiece stamped across its face 'light \$1.25," with the request that he return to the department \$18.75, so as to make his account balance, the department having received \$1.25. This was a surprise to the public printer, but as he was dealing with government officials he thought he could stand the racket if they could. He sent the light \$20 goldpiece to the Philadelphia mint, with the request that they forward Treasurer Morgan a certified draft for

After a lapse of nearly a week he received a communication from Superintendent Townsend stating that he had weighed the disputed coin, and that he found a shortage of but \$1 and requested the public printer to return to him the 25 cents he had paid out in excess. A demand was made on the treasury for 25 cents. It was received, and in turn Public Printer Benedict forwarded

it to the mint. This ended the transaction, but the mestion arises, Who made good the shortage in the \$20 goldpiece? Did the superintendent of the mint at Philadelphia make the shortage good out of his own pocket, or was it charged to the government? And, again, if the officials of the mint weigh the gold coin, as the law requires, how is it possible for a light coin to get out, and must not something be wrong with the scales used by the treasury department? The treasury officials stamped the coin \$1.25 light. The mint people say it is but \$1 light. Had this matter occurred with private individuals instead of government ofilcials the private individual would no doubt have had to pocket the loss .--Washington Post.

CELEBRATES HIS OWN FUNERAL. After Solemn Mass Over an Empty Coffin

All Adjourn to a Banquet. An up to date disciple of Charles V of Spain has held at a village of the Yonne department, in France, a kind of dress rehearsal of his funeral while yet in the land of the living. For the past year gravediggers and masons had been engaged in preparing the gentleman's tomb, and he had surveyed the work with loving care. When everything was ready, he had a handsome marble slab put up, with the date of his birth and the list of his titles and distinctions, winding up with the comforting assurance that he "had been a good father and a law abiding citizen" inscribed thereon. On his ninety-fifth birthday all his friends and acquaintances were invited to the rehearsal of his funeral. A solemn burial service took place at the church, and his empty coffin, placed under a catafalque and surrounded with wax candles, received an anticipatory blessing. To cheer up his guests, whom this lugubrious cere mony must have somewhat depressed. he then bade them repair to his house, where a grand banquet took place, at which the beadle, the choristers and the priests who are to officiate at his funeral were present. Each guest ledged his word in a bumper of champagne that if he were still living at the time he would not fail to "assist" at the funeral ceremony of which the rehearsal had just been gone through. The real event may not come off yet awhile, for this imitator of the famous emperor is still quite hale and hearty in spite of his 95 summers.-London Telegraph.

My belief has always been that a man's memoirs should be distinctly posthumous, and I shall carry out that belief in my own

Lewis Morris ranks as a Welsh bard. but he was the only one of that mystic and, truth to tell, somewhat ridiculous body who wore the clothing of nineteenth century civilization. The others were decked out in quaint garments and Druidical trappings and were evidently the cause of violent delight to the Princess of Wales as she and her husband sat among them on the platform in the eisteddfod hall. The Sun reporter who attended the gathering is now sorry he did so, as he has lost all veneration for bards and a good deal of respect for the eisteddfod institution itself. Welshmen thoroughly enjoyed the whole business, but to the English visitors, royal and plebeian, it was wearisome work listening to a long succession of bards reciting poems in an unknown ongue. The poems, in their translated form at any rate, proved in nearly every case to be sad doggerel. Bard Eos Dar, however, created much appreciated diversion by singing or chanting in fine style a "penillion," which he subsequently turned into English.-London Cor. New York Sun.

SHE SHOPS, BUT PAYS NO BILLS.

Case of a Brooklyn Woman Who Indulges Her Mania to Others' Embarrassment. A curious mania has come to light recently in Prooklyn through the continued suffering of its indirect victims. A woman living in one of the pleasant residence portions of the city has been annoyed now for nearly three years by the persistent appearance at her house of delivery clerks from the well known shops with C. O. D. parcels for her number, but not her name. The packages are always addressed to Mrs. Horton, with the street and number of the in who is not and never was Mrs. Horton, nor has any one of that name ever lived at the address indicated.

The parcels are always C. O. D. and are of various merchandise. One afternoon last week a large basket of crockery, packed in excelsior, was unpacked in her basement area, while the maid brought up to her mistress the C. O. D. bill. Notice has been given to different stores of the transaction, and shopkeepers have been requested not to forward that combination of name, address and C. O. D. element, but at irregular intervals they continue to come, eluding the watchfulness of the delivery department. Late at night and early in the morning these mysterious packages appear, and, though they are always promptly returned, there seems no way to stop them. The only plausible supposition is that the mythical "Mrs. Horton" has a mania for shopping that her purse does not afford means to satisfy, but which is thus relieved at the expense only of time and trouble to other persons. - New York Times.

Another Italian Bank Scandal. Another bank scandal is threatened in Italy which may put even the Banca Romana into the shade. The rumors of fraud, corruption and bribery, upon a huge scale, in connection with the Credit Mobiliere, which have long been current, have now taken a more concrete form, a group of shareholders having formally presented a petition to the tribunal at Turin, bringing the gravest charges against Signor Frascasa, manager of that bank, and demanding a judicial inquiry. LOCUSTS FOR FISH BAIT.

An Experience In Canada Which May Be Taken Advantage Of. The 17 year locusts are here this year. Old time anglers have had experience with this insect before, and those who are posted will be ready to take advantage of their periodical appearance. can be judged by an experience I had in Canada many years ago. I was fishing in a stream near St. Thomas, Canada, in which I before had caught many fine small mouth bass.

At one point, above a dam, there was a mill race, with a gate at the head of the race. When the mill was running, this gate was open, and the water rushed through on its way to the mill, a half mile below. Many a fine string of bass had I caught below this gate, but at the time I speak of I could not get a rise. I tried live minnows, crawfish and flies, but without success. The locusts were everywhere. The bass, I noticed, were rising to something that fell from the trees, and at last I saw they were locusts. This gave me the cue, and se curing a number of locusts I soon had one on my hook.

No sooner had it touched the water than there was a rush, and I was playing a bronze backer. Within two hours I had caught 27 small mouth bass, all nearly the same size, weighing a little over 1 ½ pounds each. Going below the dam, where the water flowed over, I gave it another trial with locusts, and there I caught two three pounders. It seemed as if they wanted nothing but locusts that day, but later in the season they would not touch them.

Should the locusts appear in large numbers this year, I will give them another trial whenever the opportunity offore _T R in American Angle
