An Employe Caught Substituting Lead for Silver in the Bags.

Silver dollars are missing from the treasury which may number thousands. Treasurer Roberts has employed experts to count piece by piece the \$100,000,000 which ought to be in the vaults.

Recently the coin was counted by the weighing process, but Roberts will not give a receipt to his predecessor, Morgan, until he knows the full extent of the robbery, which he suspects has been carried on for some time.

During this count a trusted employe was caught opening bags which contain \$1000 in silver, taking out as many as he wished and making up the weight of the extracted silver with lead. At the conclusion of the count all of the bags showed the required weight.

Upon the treasurer's suggestion some of the bags were opened, and so much may be dropped in water, and fortunes of a free and well governed Cuba, to lead was discovered that a consultation told from the shapes it assumes. Great build it up yearly. The plantations are was held and it was decided to employ a amusement may be had by placing two not ruined. INCORPORATION.

The Alaska Gold Mining & Navigation Company of Florence, Oregon is incorporated under the laws of the state with a capital stock of shares of \$10 each.

THE PURPOSES OF THE CORPORATION.

Are to carry on mining operations on the Yukon river and its tributary waters in Alaska and same purchasing power. Northwest territory-to acquire mining property either by discovery or purchase, and to operate the same, and in connection therewith to develop a general trading and transportation business. TRANSPORTATION.

The company provides its vessels and makes its own transportation equal to, if not the best in the Pacific Northwest. In order to accomplish this the company deemed it prudent in justice to its patrons to construct its vessels and not attempt to charter (as frequently happens) old and worn cepting any thing that floats in order to get there : but on the other hand its yessels are being constructed of the best material, by mechanics of the highest order and under the direction of a master builder. Its ocean stpamer is of standard size and design, stannch, provided with the best machinery, and will run regularly between Portland and St. Michaels and other Alaskan ports, In connection with this vessel, the company will

provide a steam barge or river boat adapted repecially to the Yukon river, of light draft to ply between St, Michaels and Dawson City and the Upper Yukon and which will afford the travelling public a line of steamers with transportation facilities combining speed, safety and comfort,

COMMERCIAL,

As the company's vessels are not chartered but and yeast. its own property, it naturally possesses an advantage over other companies in bringing goods, wares, merchandise, mining supplies etc., into the Klondike district and other available points
