BODIES FOUND.

Last Saturday while on his way up from Gardiner to Florence with the mail, H H Barrett found the body of a man on the beach near Ten Mile creek. Tuesday he found another about two miles below the Ten Mile.

Both bodies were entirely nude, the second one having a rope tied around the waist. They are supposed to have been sailors who were drowned at the wreck of the Atlanta. If so to reach the place where they were found they must have been carried about forty miles by ocean currents.

Wednesday a Mr Carter who lives near Five mile creek found two more bodies. One had on an under shirt and knit scarf, also a leather strap about the waist. The other was a large man with the name Annie Ellis and a heart tattooed on the right arm.

Mr Barrett also found another body yesterday about 1 1/2 miles below Ten Mile. This makes five bodies that have come ashore within a few miles.

FAMILY-ENTRANCE AGITATION.

Oregonian: There has been renewed agitation of late in regard to closing the back door "family entrances" of saloons. Councilmen have been urged to pass an ordinance closing these entrances. They say that some time since they passed an ordinance prohibiting women from visiting saloons, and if this ordinance was enforced by the police there would be no necessity for closing the family doors.

It is further argued that it is not practicable to prevent a man from having as many entrances to his saloon as he desires. The license committee has been asked to consider a proposition for making two grades of liquor licenses, one for saloons which keep open till 1 a m and another for saloons which keep open all night. It is argued that a considerable addition to the city's revenue from license might be secured in this way. Just how much consideration such a proposition will receive is not known, but as with the proposition to license gambling-houses, some will take one view of it and some another. It is very doubtful if the council could be induced to vote in favor of either proposition.

MOVED TO ALBANY.

The general offices of the Corvallis & Eastern railroad were to be moved to Albany yesterday.

The removal is the result of the articles of incorporation filed some months ago making Albany the principal office of the company. Manager Stone said that better train facilities for reaching other points in the state are largely responsible for the removal. Corvallis has always been the central office of the company ever since the first inception of a railroad line to Yaquina in the 70's. The original designation of the company was Willamette Valley & Coast. Later it was changed to the Oregon Pacific, and then to the Oregon Central & East-ern. Now its official designation is the Corvallis & Eastern. Formerly the offices employed 40 to 50 men, but at present about five persons constitute the entire force.
