IN LOVING REMEMBRANCE OF

LITTLE CHARLIE POTTER.

Dearest brother thou has left us
Left us sad and lonely here
Left us without a son or brother
And you were to us so dear.

How we miss you, little brother
With your bright and smiling face
You were ever kind and loving
There's no one can take your place.

How we long for you, our darling
But can only wait and love
Strive to live so we can meet you
In your happy home above.

There I know we will be happy
With the Saviour, God and thee
And our many friends, to part not
Through all eternity.

Precious brother while you're waiting
On the golden streets above,
Ever praising our dear Saviour
Ever telling of God's love.

Do thou watch and wait for loved ones,
Still in this world below,
To welcome us up yonder
Where we, too, all hope to go.

To thee, we have had to say farewell,
And you we never more can see
Till we cross the mystic river
Then we'll clasp glad hands with thee.

His SISTERS.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh
Cure is the only positive cure known to
the medical fraternity. Catarrh being a
constitutional disease, requires a constitu-
tional treatment. Hall's Catarrh
Cure is taken internally, acting directly
upon the blood and mucous surfaces of
the system, thereby destroying the
foundation of the disease, and giving
the patient strength by building up the
constitution and assisting nature in do-
ing its work. The proprietors have so
much faith in its curative powers, that
they offer One Hundred Dollars for any
case that it fails to cure. Send for lit-
erature.
