HECETA ITEMS.

By RAFAELLA.

We are having fine weather.

Miss Peirson is staying at Keeper Dargan's.

Attie Eray is helping Mrs. E. W. Cobb for a while.

Rosa and Berry Bray were visiting at Heceta last week.

Nicholas Ludemann is carrying the mail while his brother takes a "lay-off."

Keeper Dargan and wife and Miss Peirson were up Cape creek fishing last week.

Mr. Editor—Is there any harm in writing on both sides of the paper?

Bert Cobb has returned home after a few weeks stay at Point Terrace working roads. Mr. Cobb returned to Florence Monday.

Wm. Fields and Rufus Stonefield went hunting in the Samaritan mountains and killed two deer and one bear—rumor says?

Keeper Dargan went to Florence Saturday with Nicholas Ludemann, to buy him a cow. Mr. Dargan and Mr. Ludemann got back to Heceta Sunday evening.

Two young ladies of this vicinity went fishing and caught upwards of 40 fine trout. The boys are not in it when it comes to fishing. But the boys are ahead of the girls when it comes to trying to shoot deer with a big gun on their shoulder. All told.

Cecil Spangh received a camera last week but as he had never had much experience in taking pictures I can only say that he never made a very good job of it. He made a failure every time. I guess the only fault was the camera wasn't much good.

There are a few hops in Bert Cobb's hopyard. I heard that he intended picking 50 cents a box for having them picked. They are splendid hops such as Mr. Cobb might be proud of. The hopyard did not receive much cultivation but if it had only been properly cared for Mr. Cobb would have had the finest hopyard on Cape creek.

This is a bad country for wind storms, a big blow came up the other day and blew the inside out of a stove pipe and some printing off a newspaper.

Mrs. T. J. Boren and daughter of Bear creek are visiting in Acme.

G. R. Mills is putting the rustic on his dwelling and getting it ready for paint. He expects to have it in a new white dress before the rainy season.

If living on Gazett hill has such a tendency to make folks grow younger in looks and no older in years than they would elsewhere, let's all move there.

Mr. Fremont paid us a pleasant call Monday.

Nora, the little daughter of Mr. and Mrs. W. L. Fisk returned home today after a long visit to her grandparents Mr. and Mrs. Erharit.

The monotony and even hum of the new mill is broken now and again by Kelly exclaiming, "She's all right, boys; let her go."

'Tis reported Will Chamberlin is almost tired of life. We think he means single life, but it may be life in Acme.

E. P. Waite is going to get again and will fill his old position in the mill.

Will Erhardt was greting old friends on the street today.

We are glad to see so many of the scholars working for the stars to be presented by the teacher each month to all who are neither tardy nor absent. All try and see who will win the greatest number during the term.

There is neither an idle man nor a vacant house in Acme. Just the way we like to have our town jogging along.

ALPHA CLIPPINGS.

Sept 19, 1899.

J. C. Tanner visited on lower Deadwood and Lake creek Saturday and Sunday.

C. A. Potter, J. C. Tanner and David Hunter will go to Eugene the last of this week to prove up on their places.

In a few years most of the homes in this part of the country will be deeded property.

Every one in this neighborhood is making the most of the good weather and a large amount of hauling is being done. Every week sees several loads of supplies arrive on the creek.

Work on the new bridge at the mouth of Deadwood is being pushed rapidly, this fine weather. Most of the timber and 1500 pounds of iron are on the ground ready for the grand raising. If the fair weather continues the contractors hope to have it completed soon.

Mr. Acheson, one of our famous Nimrods, while hunting last week, killed a goat that has been ranging wild in the mountains for two or three years. Different parties have found mohair on the brush on the mountains but never could find the goat.

Our genial Superintendent Wm. M. Miller arrived on Lower Lake creek last Friday and spent Saturday and Sunday getting acquainted. He started on his return trip to Eugene yesterday. Mr. Miller is the first school Superintendent who has visited our country since Stevenson's time and every one was pleased to think that we had not been entirely forgotten by the head of the public schools of Lane county. Mr. Miller seemed to be quite favorably impressed with our country and hospitable people, notwithstanding the knotty questions on "Law" that were propounded to him.

Martin Olsen has the lumber on the ground for a new residence which he hopes to be living in e'er winter begins. Mr. Olsen is one of our progressive and prosperous citizens.

Mrs. Ramsey is on the sick list at present. She is troubled with inflammatory rheumatism.

Next Sunday closes our Sunday school as it is not deemed advisable to continue another three months on account of winter weather. We have had a very interesting Sunday school with good attendance most of the time, although the greater part of our church members seemed to disapprove and discourage the effort. Most of them showed their disapproval by staying at home or going visiting.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a ringing sound or impaired hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.
