The West is under obligations to Wm Fields of Heeceta for a fine dish of strawberries which we received last Saturday. They were very large nice ones, eleven of them just filling a pint jar. Strawberries ripening out of doors the last of September are not common even in Oregon.

Register: Another damage suit is on the tapis. It is evidently a counter suit to the one filed by Surveyor Collier for \$10,380. Five men, namely, J R James, H D Telt, Rott Martin, Chas Beck and R T Martin each want \$5050 or a total of \$25,250 from the Noonday Mining Company and C M Collier for damages sustained by said plaintiffs resulting from their arrest by C M Collier on a charge of interfering with his work. The plaintiffs were acquitted of the charge and now seek redress through the courts.

We heard a little story the other day about S J Seymour. Sam is something of a joker and a great friend of the clams. Not long ago he was out on the beach with a party of friends when some one proposed to dig some clams. There were numerous holes such as clams make in squirting up water, to be seen in the sand and one of the gentlemen dug down to the depth of several inches but didn't find any clams. After several unsuccessful attempts he gave it up and one of the ladies tried it. She is an expert at the work and though she dug several holes the length of her arm in depth, she had no better success. Moral, Keep your eye on Sam if you attempt to dig clams when he is around.

"You May Bend the Sapling, but not the tree." When disease has become chronic and deep seated it is often difficult to cure it. That is the reason why it is best to take Hood's Sarsaparilla when disease first shows itself.

Guard; Gilbert Shorey, O S Lund, M M Oscar and D J Estabrook, of Washington, Wis, are here and have taken up timber land claims in Lane county. A few years ago North Fork was considered one of the strongholds of old bachelors. In fact there were but very few families living there. But a change has taken place; one by one the bachelors have joined the ranks of married men till now there are but few bachelors left on North Fork, and it reports are true even some of these are soon to go the way of their brothers.

Oregon Agriculturist: From such information as is now available it seems quite certain that Oregon's crop of cured prunes this year will exceed 5,000,000 pounds. Douglas county, alone, will market 2,500,000 pounds. The total output of the state will be 40 per cent of last year's crop and more than 25 per cent of what might be considered a full crop. This is a good deal better than the almost total failure which was at one time feared. The bulk of the crop is made up of Peites. There will also be several carloads of Silvers in Douglas county, and some Silvers in other portions of the state.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F J Cheney & Co, Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F J Cheney & Co, Toledo, O. Sold by druggists, 75c.

HECETA ITEMS.

By RAFAELLA.

Oct 4, 1899. E W Cobb is hauling wood for O L Hansen.

Otho Johnston made a trip to E W Cobb's last Monday.

We had some rainy weather last week but now it is nice and sunny.

Harold A Salisbury was out with his gun the other day looking for some game.

Tuesday was a warm day for the people living on the Cape creek. Not a breath of air was stirring.

W H Spangh and son Clifford made a trip to Florence Wednesday after some supplies that were left there. They expect to get home Thursday evening.

Charles F Stonefield came in from the valley Sunday evening. Mr Stonefield has been busy drying hops all summer.

Wm N Fields is not at home; we heard that Mr Fields intended leaving this part of the country for his old home back east.

Clifford and Dora Spangh went fishing last Tuesday evening and caught some nice trout. There has been nobody fishing in the creek for quite a long while and so the fish are biting fine.

It is a very sad sight to see so many neglected hopyards laying around here. The people of Cape creek are not very industrious or they would take care of the hopyards in place of letting them silt for themselves.

School will commence here Nov 1 with Miss Florie Lockwood as teacher. We will have about ten scholars, seven from here and three from Big creek. Miss Lockwood is an excellent teacher and we hope she will give satisfaction as no other teacher has.

Saturday evening the young people enjoyed another dance in the hall. It seems as though our good times have come back again.

Chas Gettys while hunting Monday wounded a deer and to escape it ran to the river and swam across. When it neared the opposite bank Charlie shot and killed it, but before he could obtain a boat and row to the deer it sank. The last accounts we had of his adventure, he was waiting for his deer (?) to come up.

At times she is quite wild and raves.

IN JUSTICE COURT. The suit of F E Fremont vs George Shultz was tried before Justice Holden with a jury Wednesday.

The action was brought to recover damages for injury to a bull belonging to Mr Fremont while the bull was in possession of Mr Shultz.

E E Benedict Esq appeared for the plaintiff and Joe Morris Jr for the defendant.

After hearing the testimony for the plaintiff the attorney for the defendant announced that he would not introduce any witnesses. The attorneys then argued the case and it was submitted to the jury who in a few minutes returned a verdict for the defendant.

LA GRIPPE

Is now reaping a rich harvest. It is drawing thousands within its relentless grasp. Medical statistics compiled by the best physicians of the world show that over 50 per cent of the cases of acute and chronic consumption are due to LA GRIPPE. It is a consumption owing to the weakened state of the lungs produced by the disease. There are also other points of weakness. Refer to the numbers on the chart. Study each carefully. Familiarize yourself with them. If you have a cough or a cold, begin the use of HUDYAN at once. HUDYAN will prevent the restoration to perfect health.

THE PARTS AFFECTED ARE: 1. THE MUCOUS MEMBRANE OF THE THROAT—it becomes inflamed and thickened, giving rise to almost total deafness. HUDYAN will prevent the spread of the inflammation. The drum will not be affected and hearing will be unimpaired. 3. CHRONIC BRONCHITIS OR CHRONIC SORE THROAT—From the same cause as the two preceding, HUDYAN will prevent its coming on. 4. WEAKNESS IN THE HEART—HUDYAN will strengthen the heart (nerves), equalize the circulation of blood and cause the heart-beat to become strong and regular. 5. WEAKENED CONDITION OF LEAVING THEM PRONE TO ATTACKS OF PLEURISY, PNEUMONIA AND CONSUMPTION.
