### GERM CELLS OF LIFE.

THEY RETAIN VITALITY EVEN AFTER APPARENT DEATH.

ant Death Is an Impossibility That We May Be Conscious For Time After Dissolution.

"You often meet with the phrase "Seath was instantaneous," and you believe it, but instant death is impossi-

A professor has been studying the s, a man of renown in his own and he has discovered certain rtant data proving conclusively no one can meet with instant . He works out his theory on the afforded by the physiology of cells. estates that no one yet has proved difference between a dead and a live ween coll. When this has been done, we can more easily ascertain how as a time elapses before the death of a

But, first, what is a cell? To be brief, but plants and animals—including, of course, man—are built up of units, elementary units, which you can only detect under the microscope. Now, each ing cell is a vital elementary unit. We nothing but highly developed results the individual vitality of huge quanities of these fundamental cells.

As this is undeniably so, how is it cousible, by simple decapitation, say, calls which compose the brain? It is known that brain cells have their own If and are liable to live a certain ime after they are cut off from outside tion without the supply of any lood whatever from the body. The ment is supplied inside the cell alls, and it can go on living after be-

og cut off from other resources. om this argument it is clear to the professor that these millions of cells in the brain must continue to live after oth has apparently intervened—that is, when death appears, but only on the

After a man's leg is cut off, or an mal's, you can stimulate the nerves or a long time, but you cannot do it the cells are dead. You cannot get

my response at all.

Electricity has been thought to be the of life, but this is a fanciful thewhen confronted with the new laws

by research established. The countless millions of cells of thich car bodies are entirely composed contain the germ of life, and it is imfor these to be visited with an

#### LUCKY DEUCE OF SPADES.

Remarkable Run of Luck, but All For the Other Man.

One by one the old superstitions are being torn from us. People nowadays as she thus interpreted to us an unwalk ostentatiously under ladders and suffer no evil consequences. Friday is quite a popular day for the commence ment of a long journey, and sitting down 13 at dinner is frequently unattended with untoward results. A deeply rooted superstition among card play-ers is a belief in the lucky properties of the two of spades. The present writer's faith, however, was severely shaken by a phenomenal coincidence which occur-

red only a few days ago. Sitting down to a game of whist, he thoroughly shuffled both packs of cards, and happened to notice that the two of spades was the bottom card of one of

"This ought to bring me luck," he

remarked to his friends. He then took up the second pack, and was astonished to find that the two of when, in drawing for partners and deal how it was managed that they might turn the white man's magic against

once more drew the two of spades. The odds against this triple event occurring must be enormous, but more was to follow. The deal fell to the stream where the pump was. On trywriter, and the turn up card was the in-

evitable two of spades! After this the dealer felt justified in believing he was in for a good evening. As a matter of fact, he lost six rubbers

It was one of the close calls of our musical consciousness. It defied of ice yachting which, thank goodness, and eluded us as spirit must always defy very seldom occur!-W. P. Pond in and elude sense, and we perforce contented ourselves with following the strange, rounded, isolated notes, sustaining ourselves breathlessly on its wonderful pauses and yielding to the irregular cadenced charm of the singer, whose face, at first so unremarkable, seemed to grow of a shining effulgence known world .-- Washington Star.

### IN LEAGUE WITH MAGIC.

Some Heathens Who Did Good Missiona

Work at a Pump. Lobengula, the late king of the Matabele of South Africa, was afraid of Rev. E. Carnegie, an English missionary at Hope Fountain, several miles from Bulawayo. The Matabele warriors, on the other hand, looked with suspicion on the missionary and all his works, but they knew better than to molest the

friend of their king. Time after time in passing the mission house they noticed a force pump at work, supplying water for the family and for irrigating the garden. Not understanding what it was for, their unspades was also at the bottom of that. Sort of magic. It was integrated bewitched, and they watched to see bewitched, and they watched to see bewitched, and they make they might how it was managed that they might

> One moonlight night a party of picked ing it they were jubilant to find that two men at either handle could do the trick. Turn and turn about they kept the pump going for two hours, determined that the missionary should have all the magic he wanted and a balance

in hand Then, exhausted, they went home Writing in The Contemporary Review, Professor Sully discusses the curious aspects in which children regard flowing. His good wife hoped that a dolls. He says: Professor Hall has similar supply of "magio" might be

#### Artificial Cream.

A cooking teacher tells of a manufacpreferences are sometimes shown with tured cream that is worth knowing regard to size. A lady writes me that about in emergencies, when the real she preferred 4 inch halfpenny dolls article is not to be had. It is made from because there was so much more to be the whites of two eggs, beaten stiff, done with these in the way of putting with a tablespoonful of sugar and a teaon wigs made from doormats, inking spoonful of cornstarch. Half a cup of in eyebrows, etc. On the other hand, cold milk is added by degrees and all another English lady tells me that her beaten together very stiff. A cup of childish ambition was the possession of milk is heated over the fire, with a a big doll—"one that would fill my small butter ball melted in it. My seven-year-old boy indigestion, for a good many years. One day she save a testimonical in the paper indorsing Ripa ns Tabules. She determined to give them a trial, was greatly relieved by their use and now takes the Tabules regularly. Shekeeps a few cartons Ripans Tabules in the house and away she will not be without them. The heartturn and eleeplessness have disappeared with the indigestion which was formerly so great a burden for her. Our whole family take the Tabules regularly, especially after a hearty meal. My mother is fifty years of ago and is enjoying the best of health and spirits; also eats hearty meals, an impossibility before she took stears Tabules.

Anton H. BLAUKEN.

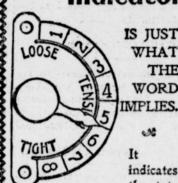

My seven-year-old boy suffered with pains in his head, constituting in his head, constitution in his head, constituting in his head, constituting in his head, constituting in his head, constituting in his head, constitution in his head, constitution in his head, constitution in his head, constituting in his head, constitution his head, constitution in his head, constitution in his head,

I have been suffering from headaches ever since I was a little girl. I could rever ride in a car or go into a crowded place without getting a headache and sich at my stomach. I heard about Ripans Tabules from an aunt of mine who was taking them for catarrh of the stomach. She had found such relief from their use she advised me to take them too, and I have been doing so since last october, and will say they have completely cured my headaches. I am twenty-nine years old. You are welcome to use this testimonial.
